This Prospectus contains certain “forward-looking statements”. All statements contained in this Prospectus that are not statements of historical fact constitute “forward-looking statements”.

These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “likely to”, “seek to”, “shall”, “objective”, “propose”, “plan”, “project”, “propose”, “will”, “will continue”, “will achieve”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our expected financial condition, results of operations, business, prospects, strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements whether made by us or any third parties in this Prospectus are based on our current plans, estimates, presumptions and expectations and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement, including but not limited to, regulatory changes pertaining to the industry in which our Company has businesses and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions, in India and globally, which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in our industry, incidence of natural calamities and/or acts of violence.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. We have entered into hotel operator services agreements and other related agreements with Marriott, Accor and InterContinental Hotels Group to receive operating and marketing services for our hotels. In Fiscal 2025, two of our hotels which are operated by Marriott contributed 43.81% of our revenue from operations. If these agreements are terminated or not renewed, our business, results of operations, financial condition and cash flows may be adversely affected.
2. A significant portion of our revenues is derived from our four hotels located in Bengaluru (Karnataka) (63.21% of revenue from operations in Fiscal 2025 was from our hotels located in Bengaluru (Karnataka)). Further, we derive a significant portion of our revenues from our hotels Sheraton Grand Bangalore at Brigade Gateway, Holiday Inn Chennai OMR IT Expressway and Holiday Inn Bengaluru Racecourse (62.02% of the revenue from operations was from these hotels in Fiscal 2025). Any adverse developments affecting such hotels or locations could have an adverse effect on our business, financial condition, cash flows and results of operations.
3. We intend to develop five additional hotels and if we are unable to develop these hotels in a timely manner, our business, results of operations, financial condition and cash flows will be adversely affected.

5. Our operations entail certain recurring expenses, and our inability to manage expenses may have an adverse effect on our business, results of operations, financial condition and cash flows.
6. We derive a significant portion of our revenue from food and beverages (“F&B”) served at our hotels (32.75% of our revenue from operations was from F&B in Fiscal 2025). Any failure to maintain the quality and hygiene standards of the food and beverages that we offer, will adversely affect our business, results of operations, financial condition and cash flows.
7. We have a large number of personnel deployed across our hotels, consequently we may be exposed to service related claims and losses or employee disruptions that could have an adverse effect on our reputation, business, results of operations, financial condition and cash flows. The attrition rate of our employees in Fiscal 2025 was 58.19%.
8. A portion of the Net Proceeds may be utilised for buying of undivided share in the land parcel owned by our Promoter for which we have not entered into definitive agreements. Our Company proposes to construct a hotel on the undivided share of the land parcel, the construction and development of which may face delays and thereby affect our business, results of operations, financial condition and cash flows.
9. We propose to utilize a portion of the Net Proceeds to undertake acquisitions for which targets have not been identified. Our inability to complete such transactions may adversely affect our competitiveness and growth prospects.
10. Our Company, Subsidiary, Promoter, Directors and Key Managerial Personnel are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, financial condition, cash flows and results of operations.

While we have not experienced any instances of termination, fines or penalties in the last three Fiscals, we cannot assure you that we will be able to fully comply with all terms of our agreements entered into with the hotel operators. In the event that any of such agreements are terminated, on account of non-compliance or on other grounds, we may be required to pay damages to hotel operators. In addition, we may be unable to find another hotel operator for that hotel in a timely manner, or at all, and may have to operate that hotel ourselves. Further, if our hotel operator services agreements are terminated or not renewed, we may not be able to use the brands and loyalty programs of the hotel operators to market our hotels. Such occurrences may adversely affect our business, results of operations, financial condition and cash flows.

In the event our agreements with hotel operators are terminated prior to their tenure, or if not renewed, we may not have access to their brands and their loyalty programs. Further, we may seek to rebrand our hotel assets subject to approval of the hotel operators or reposition our properties by using alternate brands at our hotels. In the event we are unable to execute agreements with international brands of similar or higher positioning than the existing brands, our business, results of operations, financial condition and cash flows may be adversely affected including due to disruptions and expenses related to such re-branding.

Pursuant to the hotel operations agreements entered into with our hotel operators, we are obliged to pay fees linked to our revenue and profitability for services and know-how rendered by these hotel operators. In addition, we are also required to pay certain fees which are linked to our revenue for the trademark licence granted by these hotel operators under the relevant trademark license agreements. The following table sets forth details of the operator management fees and other fees and charges paid by us to the hotel operators for our hotels for the years indicated:

Particular	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations
Operator management fees and other fees & charges	205.25	4.38%	173.49	4.32%	150.93	4.31%

2. ***A significant portion of our revenues is derived from our four hotels located in Bengaluru (Karnataka) (63.21% of revenue from operations in Fiscal 2025 was from our hotels located in Bengaluru (Karnataka)). Further, we derive a significant portion of our revenues from our hotels Sheraton Grand Bangalore at Brigade Gateway, Holiday Inn Chennai OMR IT Expressway and Holiday Inn Bengaluru Racecourse (62.02% of the revenue from operations was from these hotels in Fiscal 2025). Any adverse developments affecting such hotels or locations could have an adverse effect on our business, financial condition, cash flows and results of operations.***

Out of our nine operating hotels, four hotels are located in Bengaluru (Karnataka). We derive a significant portion of our revenues from our hotels located in Bengaluru (Karnataka). The table below sets forth our revenue from each of the cities where our hotels are located and its percentage to total revenue from operations, along with the number of our hotels located in each of the below-mentioned cities, for the years indicated:

Cities	Number of Hotels	Fiscal 2025		Fiscal 2024		Fiscal 2023

*Ibis Styles Mysuru became operational since October 4, 2024. We had only one hotel in Mysuru (Karnataka) in Fiscals 2024 and 2023.

Operation of our hotels in these cities may be impacted owing to social, political or economic factors or natural calamities or civil disruptions in these regions. While we have not experienced any significant disruptions in the last three Fiscals, except for the Covid-19 pandemic, any such occurrences in the future may adversely affect our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to address our reliance on these select hotels and hotels located in these regions, in the future. Also, see “Risk Factors – 65. The COVID-19 pandemic affected our business and operations and any future pandemic or widespread public health emergency in the future, could affect our business, financial condition, cash flows and results of operations.” on page 71.

Further, historically, we have derived a significant portion of our revenues from hotels *Sheraton Grand Bangalore at Brigade Gateway, Holiday Inn Chennai OMR IT Expressway and Holiday Inn Bengaluru Racecourse*. The table below sets forth our revenue from operations from such hotels for the years indicated:

Hotels	City	Fiscal 2025		Fiscal 2024		Fiscal 2023	
		Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations

Any decrease in revenues from these hotels, whether due to increased competition, an oversupply of hotel rooms, or a reduction in demand in the regions where these hotels operate, could have an adverse effect on our business, results of operations, financial condition and cash flows.

3. We intend to develop five additional hotels and if we are unable to develop these hotels in a timely manner, our business, results of operations, financial condition and cash flows will be adversely affected.

As of the date of this Prospectus, we have a portfolio of nine operating hotels across Bengaluru (Karnataka), Chennai (Tamil Nadu), Kochi (Kerala), Mysuru (Karnataka) and the GIFT City (Gujarat). We intend to develop five additional hotels. In particular, we plan to develop a luxury beach resort in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka). With respect to the luxury beach resort, we have entered into a management agreement with Hyatt to develop the resort under the 'Grand Hyatt' brand. Similarly, with respect to the two upper midscale hotels in Bengaluru (Karnataka), we have entered into definitive agreements with Marriott to develop these hotels under the 'Fairfield by Marriott' brand. We also intend to develop a luxury hotel under the *InterContinental* brand in Hyderabad (Telangana), for which our Promoter, BEL, has entered into a definitive agreement with InterContinental Hotels Group. In addition, we plan to develop a wellness resort on 14.70 acres in Vaikom, Kerala of which we own 7.08 acres and have entered into a memorandum of agreement dated October 21, 2024 with Brigade Hospitality Services Limited to purchase the balance 7.62 acres. We have also entered into a definitive agreement with Marriott to develop this resort under 'The Ritz-Carlton' brand. We intend to complete the construction of the luxury beach resort in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka) by Fiscal 2028 and the remaining two hotels (including the wellness resort) by Fiscal 2029.

Development and construction of hotels subject us to inherent development risks, including:

- the identification of, conducting diligence on and ascertaining title rights associated with suitable strategically located properties and the acquisition of such properties on favourable terms;
- competition from other real estate owner and developers, which may increase the purchase price of a desired property;
- insufficient cash from operations, or an inability to obtain the necessary debt or equity financing on satisfactory terms, to consummate an acquisition or a development project;
- availability, terms and conditions associated with and timely receipt of zoning and other regulatory approvals, the denial of which could delay or prevent placing a hotel into operation;
- the cost and timely completion of construction (including unanticipated risks beyond our control, such as weather conditions or labour suspension, shortages of materials or labour and construction cost overruns);
- our dependency on the third parties whom we contract to construct our hotels, including their ability to meet construction timing, quality and budget expectations;
- design or construction defects that could result in additional costs associated with repair, delay or the closing of part or all of a property during such repair period;
- the resulting lack of capitalization on any investment related to identifying and valuing development opportunities, should we subsequently decide to abandon such opportunities; and
- the ability to achieve an acceptable level of occupancy or tenancy upon completion of construction.

These risks could result in substantial unanticipated delays or expenses as well alteration to the design and operational parameters of our properties. Under certain circumstances, these risks could prevent completion of hotel properties once undertaken, resulting in capital expenditure incurred and investments made being written off or making the project less profitable than originally estimated, or not profitable at all, and therefore have an adverse effect on our business, results of operations, financial condition and cash flows. For instance, the construction of our hotel *ibis Styles Mysuru* experienced a delay of over two years due to the COVID-19 pandemic.

From time to time, we may enter into definitive or non-binding memoranda of understanding (“MoUs”) for development of hotels in future. For example, we have entered into (i) a definitive agreement with Marriott for a hotel to be situated at OMR in Chennai (Tamil Nadu) under the “JW Marriott” brand; (ii) a non-binding MoU with Marriott for a hotel to be situated at World Trade Center in Chennai (Tamil Nadu) under the “Courtyard by Marriott” brand; and (iii) a non-binding MoU with Marriott for a hotel to be situated in World Trade Center in Thiruvananthapuram (Kerala) under the “Marriott” brand. In the event that any of such agreements are terminated, we may be unable to find another hotel operator for that hotel in a timely manner, or at all, which could delay the commencement of operations, which in turn could have an impact on our business, results of operations, financial condition and cash flows. Further, as of the date of this Prospectus, we do not have any land or building arrangements where the aforementioned hotels may be situated. We cannot assure you that we will be able to secure such arrangements on terms that are favorable to us, or at all. If we are unable to secure appropriate land or building arrangements, it could delay or prevent the development of such hotels, which may adversely affect our business, results of operations, financial condition and cash flows.

4. Our Company has incurred losses (on a consolidated basis) in Fiscal 2023. In the event we incur net loss in the future, our business, results of operations, financial condition and cash flows may be adversely affected.

Our Company has incurred losses (on a consolidated basis) in Fiscal 2023. The table sets forth details of losses after tax for the years indicated:

Particulars	Losses after tax for Fiscal 2025	Losses after tax for Fiscal 2024	Losses after tax for Fiscal 2023
	(₹ million)		
Restated profit/ (loss) for the year	Not applicable*	Not applicable*	(30.90)

*The table above only includes the losses in the relevant year. In the event, the Company (on a consolidated basis) has made profits in the relevant year, such numbers are not included in the table above.

Our Company incurred losses in Fiscal 2023, primarily due to the impact of the COVID-19 pandemic. In the event our Company and/or our Subsidiary incur losses in the future, our consolidated results of operations, cash flows and financial condition will be adversely affected. For further details, see “Management’s Discussion and Analysis of our Financial Condition and Results of Operations” on page 321. We may be required to fund the operations of our Subsidiary in the future which could subject us to additional liabilities and could have an adverse effect on our reputation, profitability, results of operations, financial condition and cash flows.

5. Our operations entail certain recurring expenses, and our inability to manage expenses may have an adverse effect on our business, results of operations, financial condition and cash flows.

A significant portion of our operational expenses, including power and fuel costs, employee-related expenses, rental costs, repairs and maintenance, communication expenses, advertising and sales promotion, and insurance, are relatively recurring in nature. The table below sets out the details of such expenses for the years indicated:

Particulars	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of total expenses	Amount (₹ million)	Percentage of total expenses	Amount (₹ million)	Percentage of total expenses
Employee benefits expense	863.10	20.25%	762.60	20.46%	633.10	17.02%
Power and fuel	291.90	6.85%	287.50	7.71%	257.20	6.91%
Rent	103.20	2.42%	78.10	2.10%	66.00	1.77%
Advertising and sales promotion	82.30	1.93%	59.70	1.60%	50.70	1.36%
Repairs & maintenance – Buildings	48.90	1.15%	55.00	1.48%	57.30	1.54%
Repairs & maintenance – Plant & machinery	42.30	0.99%	40.90	1.10%	41.10	1.10%
Repairs & maintenance - Others	37.70	0.88%	38.10	1.02%	31.60	0.85%
Insurance	18.90	0.44%	23.70	0.64%	18.70	0.50%
Communication expenses	21.40	0.50%	18.00	0.48%	14.80	0.40%

We may also have to incur costs towards periodic renovation, re-designing, re-structuring, refurbishing or repair of defects at our hotels. Further, our hotels may be subject to increases in property charges, tax or regulatory charges, utility costs, insurance costs, repairs and maintenance costs and administrative expenses. While we have not experienced any material instances of such increases in the last three Fiscals, such occurrences in the future may adversely affect our business, results of operations, financial condition and cash flows.

The hospitality industry experiences periodic changes in demand and supply, which we may not be able to predict accurately.

Consequently, we may be unable to reduce recurring costs in a timely manner, or at all, in response to a reduction in the demand for our services. As a result, during periods when the demand for our hotels decreases, the resulting decline in our revenues could have an adverse effect on our net cash flow, margins and profits. This effect can be more pronounced during periods of economic contraction, or slow economic growth. Similarly, when the demand for hotel rooms increases, our profitability increases disproportionately to the increase in revenues due to economies of scale and operating leverage. Further, during periods when we shut down our hotels for refurbishment and rebranding, we continue to incur certain recurring costs, while not deriving any revenue from such property. Such occurrences could adversely affect our business, results of operations, financial condition and cash flows.

6. ***We derive a significant portion of our revenue from food and beverages (“F&B”) served at our hotels (32.75% of our revenue from operations was from F&B in Fiscal 2025). Any failure to maintain the quality and hygiene standards of the food and beverages that we offer, will adversely affect our business, results of operations, financial condition and cash flows.***

Our operations depend on the quality of food and beverages (“F&B”) served at our hotels and we focus on hygiene to ensure safety of our customers. As of March 31, 2025, our hotels feature 30 restaurants and bars. Set out below is a breakdown of our revenue from operations for the years indicated:

Particulars	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations
Revenue from the rooms Sold (A)	2,908.90	62.12%	2,525.42	62.87%	2,225.39	63.54%
Revenue from F&B (B)	1,533.29	32.75%	1,272.68	31.68%	1,096.23	31.30%
Revenue from other hospitality and ancillary services* (C)	64.30	1.37%	53.20	1.32%	51.10	1.46%
Income from leasing (D)	176.01	3.76%	165.70	4.12%	129.48	3.70%
Revenue from operations (A) + (B) + (C) + (D)	4,682.50	100.00%	4,017.00	100.00%	3,502.20	100.00%

*Primarily includes income from guest laundry services, transportation charges, and telephone charges.

Our F&B revenue is dependent on the occupancy rates at our hotels. The guests at our hotels often visit our restaurants and bars at our hotels, and any decrease in the number of guests at our rooms, may lead to a decrease in the number of customers at our restaurants and bars. Further, we maintain an inventory of dry groceries and liquor, which are subject to expiry and may also be subject to contamination or deterioration. Any contamination or deterioration of quality could result in customer dissatisfaction and/or criminal or civil liabilities and restrict our ability to provide services which, in turn, could have an adverse effect on our business, financial condition, results of operations, cash flows and prospects. While we have not experienced any such instances of contamination or deterioration of quality which resulted in any criminal or civil liabilities in the last three Fiscals, we cannot assure you that such instances will not arise in the future. We cannot assure you that we will not be involved in any litigation or proceedings, or not be held liable in any litigation or proceedings in relation to the F&B services provided by us. In addition, we are subject to stringent standards of our hotel operators, which relate to, among others, the quality of food and beverages. We may also be required to incur additional capital expenditure in order to comply with the policies, standards, technologies and practices adopted by our hotel operators globally. Further, our quality standards depend significantly on the effectiveness of quality control systems and standard operating procedures, which depend on the skills and experience of our hotel operators. Any real or perceived failure, deficiency or decrease in the quality of F&B services rendered at our hotels, whether on account of our hotel operators or any other hotel operator we choose to operate under, could adversely affect our reputation and result in negative reviews and feedback from our guests on online travel portals or social media, which may cause future guests to choose the services of our competitors.

7. ***We have a large number of personnel deployed across our hotels, consequently we may be exposed to service related claims and losses or employee disruptions that could have an adverse effect on our reputation, business, results of operations, financial condition and cash flows. The attrition rate of our employees in Fiscal 2025 was 58.19%.***

We deploy a large workforce across our hotels. As of March 31, 2025, we had 1,191 permanent employees across our operations. The table below sets forth details on the attrition for our permanent employees for the years indicated:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
Number of Employees Resigned	693	523	609
Attrition Rate*	58.19%	48.16%	62.72%

*Attrition rate is calculated excluding retirement, internal transfers, forceful exits employees divided by average number of employees in the relevant Fiscal.

We experienced high attrition rates in Fiscal 2023 and 2024 due to the initial impact of the COVID-19 pandemic, while in Fiscal 2025, the increase in job openings during the post-COVID recovery period was the primary cause.

The table below sets forth details on the employee benefits expense in the years indicated, which is also expressed as a

percentage of our total expenses:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
	(₹ in million, unless otherwise stated)		
Employee benefits expense (A)	863.10	762.60	633.10
Total expenses (B)	4,261.70	3,727.70	3,719.50
Employee benefits expense as a percentage of total expenses (in %) (C=A/B)	20.25%	20.46%	17.02%

The risks associated with the utilization of a large number of personnel include possible claims relating to:

- actions, inactions, errors or malicious acts by our personnel, including matters for which we may have to indemnify the guests at our hotels;
- failure of our personnel to adequately perform their duties including rendering deficient services, shortage in shift, absenteeism or lateness;
- violation by personnel of security, privacy, health and safety regulations and procedures;
- any failure to adequately verify personnel backgrounds and qualifications resulting in deficient services;
- injury or damages to any guest's person or property due to negligence of our personnel; and
- criminal acts including theft, sexual harassment, or other negligent actions by our personnel.

These claims may give rise to litigation and claims for damages, which could be time-consuming. These claims may also result in negative publicity and adversely impact the reputation of our hotels. Any losses that we incur in this regard may have an adverse effect on our reputation, business, results of operations, financial condition and cash flows. While we have not faced any such instances which led to an effect on our business, operations or reputation in the last three Fiscals, any such instances in the future or any losses that we incur in this regard may have an adverse effect on our business and reputation.

Although we have not experienced any labour unrest in the last three Fiscals, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. In the event our employee relationships deteriorate or we experience significant labour unrest, strikes and other labour action, work stoppages could occur and there could be an adverse impact on our operations. These actions are impossible for us to predict or control and any such event could adversely affect our business, results of operations, financial condition and cash flows.

8. A portion of the Net Proceeds may be utilised for buying of undivided share in the land parcel owned by our Promoter for which we have not entered into definitive agreements. Our Company proposes to construct a hotel on the undivided share of the land parcel, the construction and development of which may face delays and thereby affect our business, results of operations, financial condition and cash flows.

As described in the “Objects of the Issue – Payment of consideration for buying undivided share from our Promoter, BEL” on page 115, we intend to use a portion of the proceeds from the Issue towards payment of consideration for buying of undivided share of 1.35 acres (5,498 square metres) (“**Scheduled Property**”) from our Promoter out of the land admeasuring to 5.68 acres on which our Promoter has proposed to develop a mall, commercial space and a hotel (“**Commercial Block**”) situated in Neopolis Layout II, Survey Numbers 239 and 240 (Plot No. 8) of Kokapet Village, Gandipet Mandal, Rangareddy District, Telangana, India. The Scheduled Property is approximately 23.76% out of the Commercial Block. However, as on date of this Prospectus, while we have entered into a binding memorandum of agreement dated October 24, 2024 (“**MoA**”), read with letter of extension dated June 16, 2025, with our Promoter, we have not entered into any definitive agreements, such as a sale deed, basis which the Scheduled Property will be registered in the name of our Company.

Further, upon receipt of the outstanding purchase consideration amounting to ₹991.48 million and payment of ₹83.71 million towards stamp duty, registration and transfer charges, both of which are proposed to be paid from the Net Proceeds, our Promoter shall execute a sale deed in favour of our Company in terms of the MoA. Only after the proposed sale deed is executed, our Company will become the registered owner of the undivided share in the Scheduled Property. In case we are unable to conclude such agreement or commitments as per terms acceptable to us, our Company will have to undertake the procedure for variations in the objects of the Issue as per applicable law.

Our Company proposes to construct a hotel on the Scheduled Property which is planned to be located on the 31st to 49th floor of the commercial building being constructed by our Promoter. For the purposes of construction of the proposed hotel, as described in “Objects of the Issue - Payment of consideration for buying of undivided share of land from our Promoter, BEL” on page 115, our Company shall either enter into a construction contract with our Promoter or engage the same contractor that has been engaged by our Promoter for the construction of the lower floors of the commercial building. The development costs

and construction costs in this regard will be incurred by our Company. The construction of the proposed hotel on the Scheduled Property, which shall be on the 31st to the 49th floor of the commercial building is contingent on the completion of the lower floors, and is expected to be completed approximately by the end of Fiscal 2029. However, there can be no assurance that we will not face unanticipated delays in the construction and development of the hotel and any such delay in completion of the proposed hotel may lead to additional costs being incurred by our Company. Further, any such delay will also delay the commencement of operations for the hotel and since the revenue we will earn from the proposed hotel will only be post the commencement of the hotel operations, such delays could have an adverse effect on our business, results of operations, financial condition and cash flows. Also see “*Risk Factors - 3. We intend to develop five additional hotels and if we are unable to develop these hotels in a timely manner, our business, results of operations, financial condition and cash flows will be adversely affected*” on page 33.

9. We propose to utilize a portion of the Net Proceeds to undertake acquisitions for which targets have not been identified. Our inability to complete such transactions may adversely affect our competitiveness and growth prospects.

Our Promoter, BEL in the past has undertaken various acquisitions. Our Promoter is engaged in the business of real estate development, leasing and hospitality. Pursuant to the Scheme of Arrangement, the hotel business undertaking of BEL was transferred to our Company to enable better and more efficient management, control and running of these undertakings in a focused manner and to offer opportunities to the management of our Company. The business of our Company was originally undertaken by BEL as its hotel business undertaking prior to the Scheme of Arrangement. While we intend to leverage the experience of our Promoter for such acquisitions, our Company does not have experience regarding the same. Our Company aims to execute acquisitions of entities basis our long-term strategic objectives. For further details see “*Objects of the Issue – 3. Pursuing inorganic growth through unidentified acquisitions and other strategic initiatives and general corporate purposes*” on page 117.

We intend to utilize a portion of our Net Proceeds towards pursuing unidentified acquisitions. The amount of Net Proceeds identified for such acquisitions is based on our management’s estimates. While we propose to acquire entities owning hospitality or commercial assets or such assets directly between Fiscal 2026 to Fiscal 2027, we have not currently identified any such potential targets and the actual deployment of funds will depend on a number of factors, including the location, purchase price, general economic conditions and the extent of negotiations between us and the parties from whom we propose to acquire such targets, as well as general factors affecting our results of operation, financial condition, cash flows and access to capital and therefore, the date of completing such acquisitions is not ascertainable at this stage. Further, in accordance with the SEBI ICDR Regulations, pending utilisation of the portion of the Net Proceeds set aside for pursuing unidentified acquisitions, our Company shall deposit such portion of the Net Proceeds in one or more scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934, as amended, as may be approved by our Board.

Based on the competitive nature of our industry, we may have to revise our business plan and/ or management estimates from time to time and consequently our funding requirements may also change. Our management estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws, and may have an adverse impact on our business, financial condition, cash flows and results of operations. For details, see “*Risk Factors- 59. Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.*” and “*Objects of Issue-Variation in Objects*” on pages 69 and 121, respectively.

Further, we have appointed CARE Rating Limited as the monitoring agency for monitoring the utilization of the Gross Proceeds in accordance with Regulation 41 of the SEBI ICDR Regulations and the monitoring agency will submit its report to us on a quarterly basis in accordance with the SEBI ICDR Regulations. Further, the application of the Net Proceeds in our business may not lead to an increase in the value of your investment. Various risks and uncertainties, including those set forth in this section “*Risk Factors*”, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business.

10. Our Company, Subsidiary, Promoter, Directors and Key Managerial Personnel are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, financial condition, cash flows and results of operations.

There are outstanding legal and regulatory proceedings involving our Company, our Subsidiary, our Promoters, Directors and Key Managerial Personnel which are pending at different levels of adjudication before various courts, tribunals and other authorities. The amounts claimed in these proceedings have been disclosed to the extent that such amounts are ascertainable and quantifiable and include amounts claimed jointly and severally, as applicable. Any unfavourable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, continuity of our management, business, cash flows, financial condition and results of operations. The summary of such outstanding material legal and regulatory proceedings as on the date of this Prospectus is set out below:

[^] This includes an outstanding criminal proceeding against our Managing Director (also a Key Managerial Personnel), which is also reflecting under outstanding criminal proceedings involving our Directors in the table above.

Further, as on the date of this Prospectus, there are no pending litigation proceedings involving any of our Group Companies which will have a material impact on our Company.

We cannot assure you that any of these matters will be settled in favour of our Company, Subsidiary, Promoter, or Directors, respectively, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings may have an adverse effect on our business, financial position, prospects, cash flows, results of operations and our reputation. For further information, see “Outstanding Litigation and Other Material Developments” on page 350.

11. Negative customer experiences or negative publicity surrounding our hotel properties or our hotel operators’ brands could have an impact on ability to source customers. We may also incur higher expenses towards business promotion in the future including for the promotion of our new hotels, to source more customers which may have an adverse impact on our business, results of operations, financial condition and cash flows.

Any adverse publicity, whether or not accurate, relating to hospitality standards, quality of food or beverages we serve, public health concerns, illness, safety, injury, misconduct by our employees or any news reports or government or industry findings concerning our hotel properties, the locations in which we operate or others operating across the hospitality industry supply chain could affect us. Further, our hotel operators operate various hotels globally, and any negative publicity in relation to the brands of our hotel operators in any of the jurisdictions where they operate, could adversely affect our business, reputation, results of operations, financial condition and cash flows. While we have not faced any negative publicity in relation to our hotel properties in the last three Fiscals, which led to an adverse effect on our business or operations, any such negative publicity in the future may lead to an adverse effect on our business, financial condition, results of operations, cash flows and prospects.

If we face any instances of adverse publicity, we may be required to incur additional expenses towards advertising and promotional activities to attract customers. Further, we intend to develop new hotels, and accordingly, we may need to make greater investments toward advertising and promotional activity in new markets where we establish our hotels. The table below sets forth the expenditure incurred towards business promotion, which include expenses incurred for advertising and sales promotion, for the years indicated:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
	(₹ in million, unless otherwise stated)		
Advertising and sales promotion (A)	82.30	59.70	50.70
Total expenses (B)	4,261.70	3,727.70	3,719.50

	(₹ in million, unless otherwise stated)		
Advertising and sales promotion as a percentage of total expenses (in %) (C=A/B)	1.93%	1.60%	1.36%

12. ***A portion of our hotel bookings originate from travel agents and intermediaries (29.27% of our total room nights sold in Fiscal 2025 was through travel agents and intermediaries). In the event such companies continue to gain market share compared to direct booking channels or our competitors are able to negotiate more favourable terms with such online travel agents and intermediaries, our business and results of operations may be adversely affected.***

A portion of bookings for our hotels originate from large multinational, regional and local online travel agents and intermediaries, such as online aggregators. The table below sets forth details of our room nights sold through various booking channels (including by travel agents and intermediaries), expressed as a percentage of total number of room nights sold for the years indicated:

Particulars	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Number of rooms	% of total number of room nights sold	Number of rooms	% of total number of room nights sold	Number of rooms	% of total number of room nights sold

Total Number of room nights sold	435,644	100.00%	395,364	100.00%	374,420	100.00%

(1)Refers to rooms sold to groups, such as leisure groups and those attending corporate events as well as rooms sold to airline crews.

(2)Others' refers to rooms sold at preferred rates to the personnel of the Company and hotel operators. This category also includes rooms offered on a complimentary basis as part of promotional activities to attract guests, as well as rooms used for in-house purposes, such as temporary staff accommodation or other operational needs.

These third-parties, including online travel agents, offer a wide breadth of services, often across multiple brands, have growing booking and review capabilities, and may create the perception that they offer the lowest prices when compared to our direct booking channels. Some of these online travel agents and intermediaries have strong marketing budgets and aim to create brand awareness and brand loyalty among consumers and may seek to commoditize hotel brands through price and attribute comparison. In the event these companies continue to gain market share, they may impact our profitability, undermine direct booking channels and online web presence and may be able to increase commission rates and negotiate other favourable contract terms. Negative reviews and feedback on online travel portals may cause guests to choose the services of our competitors. Further, our competitors may be able to negotiate better or more favourable terms with such online travel agents and intermediaries, impacting our hotel bookings from these channels, which in turn may adversely affect our business and results of operations. The table below sets forth the details of the amount paid to agents and intermediaries for the years indicated:

Particulars	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of total expenses	Amount (₹ million)	Percentage of total expenses	Amount (₹ million)	Percentage of total expenses
Amount paid to agents and intermediaries	169.30	3.97%	128.90	3.46%	108.70	2.92%

13. ***The hotel industry is intensely competitive and our inability to compete effectively may adversely affect our business, results of operations, financial condition and cash flows.***

The hotel industry in India is intensely competitive and we compete with large multinational and Indian companies, in each of the regions that we operate. Our nine operating hotels are located in competitive regions, including locations such as Bengaluru (Karnataka), Chennai (Tamil Nadu), Mysore (Karnataka), Kochi (Kerala) and GIFT City (Gujarat). Further, demographic, political, geographic, geological or other changes in one or more of our markets could impact the convenience or desirability of the sites where our operating hotels are located at, which could adversely affect their operations.

Some of our competitors may be larger than us, or develop alliances to compete against us or have more financial and other resources. We cannot assure you that new or existing competitors will not significantly lower rates or offer greater convenience,

services or amenities or significantly expand or improve facilities in a market in which we operate. The opening of a new hotel in the vicinity of any one of the hotels may also increase competition which would impact our occupancy and consequently our revenues. We may also face increased competition from internet-based homestay and hostel aggregators and alternative accommodation options such as luxury homestays and bed and breakfasts. Our success is largely dependent upon our ability to compete in areas such as room rates, location of the property, the quality and scope of other amenities, including food and beverage facilities, quality of accommodation and service level as well as the brand recognition of our hospitality partners. In addition, our competitors may significantly increase their advertising expenses to promote their hotels, which may require us to similarly increase our advertising and marketing expenses and change our pricing strategies, which may have an adverse effect on our business, results of operations, financial condition and cash flows. As a result, we cannot assure you that we will be able to compete successfully in the future against our existing or potential competitors or that our business and results of operations will not be adversely affected by increased competition.

The Company is in discussion with the third party IT service providers to address the matter

We cannot assure you that any similar emphasis of matters or modifications, will not form part of our financial statements for the future fiscal periods, which could subject us to additional liabilities due to which our reputation, results of operations, financial condition and cash flows may be adversely affected.

15. Our business is subject to seasonal and cyclical variations that could result in fluctuations in our results of operations, financial condition and cash flows.

The hotel and hospitality industry in India is subject to seasonal variations. The periods during which our hotels experience higher revenues vary from property to property, depending principally upon location and the guests served. Our revenues are generally higher during the second half of each Fiscal as compared to first half of the Fiscal. Seasonality affects leisure travel and the meetings, incentives, conferences and exhibitions (“MICE”) bookings, including weddings. According to the Horwath HTL Report, the winter months are preferred for travel into India for leisure, MICE events, leadership level business travel and high-end destination weddings. Further, the months from October through March of any Fiscal are materially busier than the summer and monsoon seasons, as per the Horwath HTL Report. This seasonality can be expected to cause fluctuations in our revenue, profit margins and net earnings. The table below sets forth details of average occupancy and revenue per available room (“RevPAR”) in the periods indicated:

Particulars	From April 1, 2024 till September 30, 2024	From October 1, 2024 till March 31, 2025	From April 1, 2023 till September 30, 2023	From October 1, 2023 till March 31, 2024	From April 1, 2022 till September 30, 2022	From October 1, 2022 till March 31, 2023
Average occupancy*	77.42%	79.78%	70.01%	74.38%	64.55%	65.30%
Revenue per available room (“RevPAR”)(₹)**	4,777.38	5,703.74	4,261.29	4,962.23	3,494.99	4,236.37

*Average Occupancy represents the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels.

**RevPAR is calculated by multiplying average daily rate and average occupancy.

The combination of changes in economic conditions and in the supply of hotel rooms, including periods of excess supply, can result in significant volatility in results for owners and managers of hotel properties. The costs of running a hotel tend to be more fixed than variable. As a result, in an environment of declining revenues the rate of decline in profits can be higher than the rate of decline in revenues. As a result of such seasonal fluctuations, our room rates, sales and results of operations of a given half of the financial year may not be reliable indicators of the sales or results of operations of the other half of the financial year or of our future performance.

16. We may be unable to successfully grow our business in new markets in India, which may adversely affect our business prospects, results of operations, financial condition and cash flows.

We seek to diversify our geographical footprint, to reduce our exposure to local, seasonal and cyclical fluctuations and to access a more diversified guest base across geographies. We may consider acquiring new land parcels to expand our portfolio to newer geographies across India such as Goa and South India for developing new hotels. In addition, we intend to explore opportunities for development of resorts and hotels at pilgrimage locations that we believe offer growth potential. However, we cannot assure

you that we will be able to grow our business in these markets. Inability to access infrastructure, certain logistical challenges in these regions and our relative inexperience with certain newer markets, may prevent us from expanding our presence in these regions. Further, consents and approvals that are required from relevant authorities in order to develop and construct hotels in such locations may impose conditions with respect to various operational aspects of, such as the height, number of rooms, and security features of the hotels, among others. Additionally, we may be unable to compete effectively with the services of our competitors who are already established in these regions. Our expansion plans may also result in increased advertising and marketing expenditure and challenges caused by distance, language and cultural differences. Also, demand for our services may not grow as anticipated in certain newer markets. If we are unable to grow our business in such markets effectively, our business prospects, results of operations, cash flows, and financial condition may be adversely affected.

17. We rely on third parties for certain services such as laundry, maintenance, security, kitchen stewarding, outdoor catering, spa, salon, travel desk and chauffeur services for some of our hotels. Any adverse impact on the reputation of our hotels or a failure of quality control systems at our hotels could adversely affect our business, results of operations, financial condition and cash flows.

The performance and quality of services at our hotels are critical to the success of our business. Any incident where our hotels lack, or are perceived to lack, high standards of service quality may adversely affect our reputation. Quality standards depend significantly on the effectiveness of quality control systems and standard operating procedures, which in turn, depend on the skills and experience of our hotels operators. All our hotels operate under a third-party brand, i.e. Marriott, Accor and InterContinental Hotels Group. At some of our hotels, we rely on third party service providers to offer various ancillary guest services such as laundry, maintenance, security, kitchen stewarding, outdoor catering, spa, salon, travel desk and chauffeur services. While we have not experienced any instances of negative branding of the brands under which our hotels are operated, nor have we experienced any instances of deficient service quality or failures of quality control systems leading to terminations of third party service provider agreements or adverse effects on our reputation in the last three Fiscals. However, any real or perceived failure, deficiency or decrease in the quality of services rendered at our hotels in the future, whether on account of the hotel operators or any third-party service provider, could adversely affect our reputation, dilute the impact of our branding and marketing initiatives and result in negative reviews and feedback from our guests on online travel portals or social media and may cause guests to choose the services of our competitors.

18. We have incurred indebtedness which requires significant cash flows to service, and limits our ability to operate freely.

As of March 31, 2025, we had total borrowings of ₹ 6,173.20 million, out of which, ₹ 4,786.70 million secured borrowings and ₹ 1,386.50 million are unsecured borrowings. We may also incur additional indebtedness in the future. The table below sets forth certain information on our total borrowings, finance costs, EBITDA/ Finance costs, total expenses, finance costs as a percentage of total expenses, debt service coverage ratio and debt equity ratio as at and for the years indicated:

Particulars	As at / for the year ended March 31, 2025	As at / for the year ended March 31, 2024	As at / for the year ended March 31, 2023
	(₹ in million, unless otherwise stated)

Total borrowings (C=A+B)	6,173.20	6,011.90	6,325.00
Finance Costs (D)	725.60	688.90	691.70
Total expenses (E)	4,261.70	3,727.70	3,719.50
Finance costs as a percentage of total expenses (%) (F= D/E)	17.03%	18.48%	18.60%
EBITDA/ Finance Costs (in times) ⁽¹⁾	2.30	2.10	1.65
Debt service coverage ratio ⁽²⁾ (times)	1.67	1.28	0.77
Debt equity ratio (in times) ⁽³⁾	7.40	9.11	14.64

⁽¹⁾ EBITDA/ Finance cost is calculated as EBITDA divided by finance costs. EBITDA is calculated as Restated profit/(loss) for the year plus total tax expense plus finance costs plus depreciation and amortisation expenses.

⁽²⁾ Debt service coverage ratio is calculated as earnings available for debt service divided by debt service. Earnings available for debt service is calculated as restated profit/(loss) for the year plus finance cost and depreciation and amortisation expenses and finance costs while debt service is calculated as finance costs – on bank borrowings plus repayment of non-current borrowings.

⁽³⁾ Debt equity ratio is calculated as debt divided by equity. Debt is calculated as total borrowings plus total lease liabilities. Equity represents total equity.

We may also incur additional indebtedness in the future. Our current or future level of leverage could have significant consequences for our shareholders and our future financial results and business prospects, including:

- increasing our vulnerability to a downturn in business in India and other factors which may adversely affect our operations;
- requiring us to dedicate a substantial portion of our cash flow from operations to service debt, thereby reducing the availability of cash-flows to fund capital expenditures and growth initiatives, meet working capital requirements and use for other general corporate purposes or make dividend payouts;

- limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- placing us at a competitive disadvantage to any of our competitors that have less debt;
- increasing our interest expenditure;
- requiring us to meet additional financial covenants; and
- limiting our ability to raise additional funds or refinance existing indebtedness.

We cannot assure you that our business will generate cash in an amount sufficient to enable us to service our debt or proposed borrowings or fund other liquidity needs. In addition, we may need to refinance all or a portion of our debt on or before maturity. We cannot assure you that we will be able to refinance any of our debt on commercially reasonable terms, or at all. For further information regarding our indebtedness, see the section titled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Indebtedness*” and “*Financial Indebtedness*” on pages 340 and 346, respectively.

Further, we intend to use the Net Proceeds of the Issue for the repayment/ prepayment, in full or in part, of certain outstanding borrowings availed by our Company and Material Subsidiary. For details, see “*Objects of the Issue - Repayment/ prepayment, in full or in part, of certain outstanding borrowings availed by our Company and our Material Subsidiary, namely, SRP Prosperita Hotel Ventures Limited*” on page 106. Our expected debt equity ratio (calculated as debt (i.e., total borrowings plus total lease liabilities as at March 31, 2025 less amount from the Net Proceeds proposed to be utilised for the repayment/ prepayment, in full or in part, of certain outstanding borrowings availed by our Company and our Material Subsidiary (i.e., ₹ 2,893.80 million)) divided by equity (i.e., total equity as at March 31, 2025 plus additional equity through IPO, amounting to ₹ 10,023.30) is 0.29.

Further, given that a significant portion of our borrowings comprises floating rate borrowings, any increase in interest rates may increase our finance costs, which may adversely affect our business, results of operations, cash flows and financial condition. The table below sets forth the break-up of our fixed and floating rate borrowings as at the dates indicated:

Particulars	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
	(₹ in million, except percentages)		
Unsecured borrowings (fixed rate)	9.20	13.10	11.70
Unsecured borrowings (fixed rate) as a percentage of total borrowings	0.15%	0.22%	0.18%
Secured borrowings (floating rate)	4,786.70	4,769.10	5,215.60
Secured borrowings (floating rate) as a percentage of total borrowings	77.54%	79.33%	82.46%
Interest free borrowings from Promoter	1,377.30	1,229.70	1,097.60
Borrowings from Promoter as a percentage of total borrowings	22.31%	20.45%	17.35%

Further, the table below sets forth the average floating rate of borrowings in the years indicated:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
Average floating rate of borrowings ⁽¹⁾	8.38%	8.81%	8.63%

⁽¹⁾Average floating rate of borrowings is calculated as finance costs on borrowings during the year divided by the average borrowings. Average borrowings is calculated as average of opening borrowings and closing borrowings. Borrowings is sum of current borrowings and non-current borrowings excluding borrowings from related parties.

Further, the table below sets forth our finance costs for the years indicated:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
Finance costs (₹ in million)	725.60	688.90	691.70

Our financing agreements include provisions providing for interest rates to be periodically reset or changed based on the lender’s internal policies. We are susceptible to fluctuations in interest rates and associated risks. As such, any increase in interest rates may have an adverse effect on our business, results of operations, cash flows and financial condition. See “*Financial Indebtedness*” on page 346 for a description of the range of interest typically payable under our financing agreements.

- 19. We derive a portion of our revenue from corporate customers such as information technology companies, airlines, multi-national corporations, manufacturing companies, automotive companies, consultancy firms and banks (17.73% of our revenue from operations in Fiscal 2025 was from corporate customers). The loss of such customers, the deterioration of their financial condition or prospects, or a reduction in their demand for our services could adversely affect our business, results of operations, financial condition and cash flows.**

Our hotel operations are dependent on our corporate customers, including large corporate key accounts such as information

technology companies, airlines, multi-national corporations, consultancy firms and banks, for a portion of revenues. The table below sets forth our revenues from corporate customers for the years indicated:

Particulars	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ in million)	Percentage of revenue from operations	Amount (₹ in million)	Percentage of revenue from operations	Amount (₹ in million)	Percentage of revenue from operations
Revenues from corporate customers	830.40	17.73%	745.53	18.56%	728.68	20.81%

Any reduction in growth or a slow-down in the business of our customers in India, could result in a reduction of their requirement for our services, and result in a significant decrease in the revenues we derive from these customers. The loss of one or more of our significant customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, and thus our results of operations, financial condition and cash flows. Further, corporate customers may be able to negotiate better or more favourable terms or discounts compared to bookings made through direct channels or online travel agents. We cannot assure you that we will be able to maintain historic levels of business from such significant customers in the future.

- 20. We do not own the “Brigade” trademark or the trademark to our logo. We have entered into a license agreement with our Promoter for the usage of the “Brigade” trademark, and the trademark license agreement may be terminated under certain circumstances and we may have to discontinue the use of our logo.**

We do not own the “Brigade” trademark, which is registered in favour of our Promoter, Brigade Enterprises Limited. Pursuant to the license agreement dated September 26, 2024 (“**Trademark License Agreement**”), executed between our Company and our Promoter, we have been granted a non-exclusive, non-transferable, non-assignable license to use the name and logo “Brigade” of our Promoter as inter alia part of our corporate name, advertisements, annual reports and other business-related purposes, for an annual license fee of ₹ nil. Our Promoter is entitled to terminate the Trademark License Agreement upon a breach in material obligations under the Trademark License Agreement by our Company and a failure to cure such breach within 30 days of receipt of notice informing about such breach. Additionally, the Trademark License Agreement shall terminate automatically if our Company ceases to remain a group entity of our Promoter or if our Promoter does not remain in control of our Company. In the event that the Trademark License Agreement is terminated, we may have to discontinue the use of the “Brigade” trademark and our logo which may adversely affect our reputation, business, results of operations, financial condition, cash flows and prospects.

- 21. Our Registered and Corporate Office and some of our hotels are not located on land owned by us and we have only leasehold rights. In the event we lose or are unable to renew such leasehold rights, our business, financial condition, results of operations and cash flows may be adversely affected.**

Our Registered and Corporate Office is located at 29th & 30th Floor, World Trade Center, Brigade Gateway Campus, 26/1, Dr. Rajkumar Road, Malleswaram-Rajajinagar, Bengaluru 560 055, Karnataka, India, which is owned by our Promoter, BEL, who has provided us a no-objection certificate for using the said premises. For example, our Company entered into a loan agreement with our Promoter for an interest-free unsecured loan of up to ₹ 2,000 million, which shall be repayable in quarterly instalments of ₹ 100.00 million each from June 30, 2025 until March 31, 2030. For details, see “Financial Indebtedness” on page 346.

Nirupa Shankar and Amar Shivram Mysore, our Directors, are also directors on the board of our Promoter, with whom our Company has executed memorandums of agreement for acquisition of land for or the purchase of undivided share of land located at Neopolis Layout II, Survey Numbers 239 and 240 (Plot No. 8) of Kokapet Village, Gandipet Mandal, Rangareddy District, Telangana, India (a portion of which is proposed to be funded from the Net Proceeds) and for development of hotel property at Bommasandra Industrial area, Near Hosur, Bengaluru in Karnataka. Additionally for the development of a hotel,

our Company has taken on lease the land parcel at Udayagiri, situated near Bangalore International Airport which is co-owned by our Director Nirupa Shankar, who holds interest in the property along with Pavitra Shankar, both of whom are also directors on the board of the Promoter. Further, our Company has entered into an Memorandum of Agreement with Brigade Hospitality Services Limited, one of our Group Companies and Promoter Group, for the sale of land admeasuring 7.62 acres in Vaikom, Kerala, for the development of a hotel. For further details, see *“Risk Factors - 47. Our Company has acquired land in the last five years from our Promoter and entities which are related to our Promoter and a portion of the Net Proceeds may be utilized for payment of purchase consideration by our Company to our Promoter for buying of undivided share in the land parcel owned by our Promoter”* on page 62. As a result of the above factors, our Promoter, Directors, and Subsidiary may have conflicts of interest with us which may adversely affect our business, results of operations, financial condition and cash flows. For further details of interest of our Promoter and Directors in our Company, see *“Other Financial Information - Related Party Transactions”* on page 320 and *“Our Management – Interests of Directors”* on page 235, respectively. For further details on our related party transactions, see *“Risk Factors – 44. We have in the past entered into related party transactions and may continue to do so in the future. The terms of these related party transactions, while at arm’s length, may be unfavorable to us”* on page 58.

Further, for details of the current and future business transactions of our Company with our Promoter and Group Companies in relation to the purchase of land parcels pursuant to memorandums of agreement, see *“History and Certain Corporate Matters - Shareholders’ agreements and other agreements – Key terms of material agreements”* on page 228. Also refer to the risk factor *“Risk Factors – 49. Our Company has entered into memorandums of agreement with our Promoter and a Group Company which is also a member of the Promoter Group for the purchase of land for the development of hotels. Further, our Company has entered into a lease deed for a land parcel with one of our Directors for the development of a hotel on such land parcel. Our Promoter, Directors, and Group Companies may have conflicts of interest that may arise out of common interest and directorships which may adversely affect our business, results of operations, financial condition and cash flows”* on page 64.

25. A portion of the Net Proceeds may be utilised for repayment or prepayment of certain loan facilities availed by our Subsidiary from ICICI Bank Limited. Further, ICICI Bank Limited is an affiliate of ICICI Securities, one of the BRLMs.

We propose to repay or pre-pay certain loan facilities availed by our Subsidiary from ICICI Bank Limited from the Net Proceeds. The portion of the Net Proceeds allocated towards such repayment or pre-payment shall be deployed by our Company in the form of debt investments in the Subsidiary. For further details, see *“Objects of the Issue - Repayment/ prepayment, in full or in part, of certain outstanding borrowings availed by our Company and our Material Subsidiary, namely, SRP Prosperita Hotel Ventures Limited”* on page 106. Our Company will remain interested in our Material Subsidiary to the extent of our shareholding, and as a lender since the mode of funding will be in the form of debt.

Further, ICICI Bank Limited is an affiliate of ICICI Securities Limited, one of the Book Running Lead Managers and is not an associate of our Company in terms of the SEBI Merchant Bankers Regulations. The loan facilities sanctioned to our Subsidiary by ICICI Bank Limited were done as part of their lending activities in the ordinary course of business and we do not believe that there is any conflict of interest under the SEBI Merchant Bankers Regulations, or any other applicable SEBI rules or regulations. The loans and facilities to be repaid/prepaid have been chosen based on commercial considerations. For details see *“Objects of the Issue”* on page 104. However, there can be no assurance that the repayment/prepayment of such loans from the Net Proceeds to an affiliate of one of the Book Running Lead Managers will not be perceived as a current or potential conflict of interest.

26. The titles over the land parcels, upon which our Company has developed or plans to develop hotels, may be subject to legal uncertainties and defects, potentially interfering with the ownership of the hotels and resulting in costs to remedy and cure such defects.

Some of our projects are developed on land acquired from landowners, tenants, related parties and third parties. While every acquisition is prefaced by due diligence and assessment of the land title and interests, there exist certain irregularities in title, including improperly executed or non-executed, unregistered or insufficiently stamped conveyance instruments in the chain of title of the relevant land, unregistered encumbrances in favour of third parties, rights of adverse possessors, improper revenue reports and other defects which may not be revealed or resolved through our diligence and assessment. Further, the original title to such land may be fragmented and the land may have multiple owners and such information may not be publicly available or revealed through our diligence and assessment. As such, these titles to such lands are subject to risks and potential liabilities arising from inaccuracy of such information, affecting our developments and leading to a failure to realize profit on our initial investment.

While we obtain independent title reports for the land relating to our projects and have obtained such reports with respect to our developments, we may not be able to assess or identify all the risks and liabilities associated with such land, such as faulty or disputed title, unregistered encumbrances or untraceable ancillary documentation. The uncertainty of title makes land acquisition and real estate development projects more complex and may impede the transfer of title, expose us to legal disputes and adversely affect the valuation of the land involved. We may incur considerable expense to resolve disputes or irregularities in land titles. While we have not experienced any instances of fault or disputed titles, unregistered encumbrances or adverse possession rights in the past which has adversely impacted our financial results, an inability to obtain good title to any plot of land may adversely affect the development of a project. Except as disclosed below, our land titles are not impacted by outstanding litigations:

- a) In relation to property leased by our Company at Udayagiri, situated near Bengaluru International Airport, Bengaluru at Karnataka, individual plaintiffs filed a petition before the City Civil Judge at Devanahalli in 2007 pleading for a suit for partition and possession of shares in the land rights, including mesne rights. The proceedings are currently pending.

We intend to develop an upper midscale hotel on the land parcel situated at Udayagiri, near Bengaluru International Airport, Bengaluru, Karnataka. In the event these proceedings are not decided in our lessors' favor, our lessors may lose their titles over these properties. The loss of title by our lessors could lead to the termination of our leases, forcing us to cease operations or suspend our future plans at these locations which could adversely impact our business, results of operations, financial condition and cash flows.

27. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates, and we have not entered into any definitive arrangements to utilize certain portions of the Net Proceeds of the Issue.

We intend to use the Net Proceeds of the Issue for the purposes described in the section titled “Objects of the Issue” on page 104. The objects of the Issue comprise (i) repayment/ prepayment, in full or in part, of certain outstanding borrowings availed by our Company and Material Subsidiary; (ii) payment of consideration for buying of undivided share of land from our Promoter, BEL; and (iii) Pursuing inorganic growth through unidentified acquisitions and other strategic initiatives and general corporate purposes.

The objects of the Issue have not been appraised by any bank or financial institution, and our funding requirement is based on current conditions, internal estimates, estimates received from the third-party subject matter experts and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy. Based on the competitive nature of our industry, we may have to revise our project estimates from time to time and consequently our funding requirements may also change. Such internal estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws. In case of increase in the expenses or shortfall in requisite funds, additional funds for a particular activity will be met by any means available to us, including internal accruals and additional equity and/or debt arrangements, which may have an adverse impact on our business, results of operations, financial condition and cash flows. Accordingly, investors in the Equity Shares will be relying on the judgment of our management regarding the application of the Net Proceeds.

Further, pursuant to Section 27 of the Companies Act, any variation in the Objects of the Issue would require a special resolution of the shareholders and the promoter or controlling shareholders will be required to provide an exit opportunity to the shareholders who do not agree to such proposal to vary the Objects of the Issue, at such price and in such manner in accordance with applicable law. Our Company, in accordance with the applicable law and to attain the objects set out above, will have the flexibility to deploy the Net Proceeds. Pending utilisation of the Net Proceeds for the purposes described above, our Company may temporarily deposit the Net Proceeds within one or more scheduled commercial banks included in the Second Schedule of Reserve Bank of India Act, 1934 as may be approved by our Board. Our Company has appointed a Monitoring Agency for monitoring the utilization of Gross Proceeds in accordance with Regulation 41 of the SEBI ICDR Regulations and the Monitoring Agency will submit its report to us on a quarterly basis in accordance with the SEBI ICDR Regulations.

28. We rely on third party contractors for construction of our hotels and any failure or deficiency on their part to perform their obligations could adversely affect our business, results of operations, financial condition and cash flows.

We rely on third party contractors for construction of our hotels. If a contractor fails to perform its obligations satisfactorily or within the prescribed time periods with regard to a project, or terminates its arrangement with us, we may be unable to complete the hotel within the intended timeframe and at the intended cost. While we have not incurred any losses as a result of our third-party contractor's failure to perform their obligations in the last three Fiscals which had an adverse impact on our business, results of operations, financial condition and cash flows, in the event of any failure or deficiency on our third party contractor's part in the future, we may be required to incur additional cost and time to meet appropriate quality standards in a manner consistent with our project objective, which could result in reduced profits or, in some cases, penalties and losses which we may not be able to recover from the relevant third party contractor. We cannot assure you that the services rendered by any of our third party contractors will always be satisfactory or match our requirements for quality. Further, if a third party contractor does not perform its obligations in a timely manner, or cease operations or decide to discontinue the construction work, we will be required to engage an alternative third-party contractor, which could further delay the timeline and increase costs, adversely impacting our business, results of operations, financial condition, and cash flows.

29. There may be delays in completing certain of our statutory and regulatory filings. We cannot assure you that no actions, regulatory or otherwise, will be initiated against our Company in the future in relation to such delays, which could adversely affect our financial condition, results of operations and reputation.

Pursuant to a resolution passed by our Board and Shareholders, each on May 10, 2024, the authorised share capital of our Company was reclassified from ₹2,900,000,000 divided into 9,000,000 Equity Shares of ₹10 each and 28,100,000 0.01% OCRPS of ₹ 100 each to ₹2,900,000,000 divided into 290,000,000 Equity Shares of ₹10 each. Our Company had filed Form SH-7 on May 10, 2024 with MCA for such reclassification of the authorised share capital. Thereafter, our Company vide a letter dated July 8, 2024 responded to certain queries sent by the MCA and refiled Form SH-7 on July 19, 2024 (“July SH-7”), along with certain additional fee. Further, pursuant to resolutions dated October 5, 2024 and October 14, 2024 passed by our

Board and Shareholders, respectively, our authorised share capital was increased from ₹2,900,000,000 divided into 290,000,000 Equity Shares of ₹10 each to ₹4,500,000,000 divided into 450,000,000 Equity Shares of ₹10 each. Accordingly, as required under applicable laws, including Section 64 of the Companies Act, 2013, we were required to file the Form SH-7 through the MCA portal within 30 days of such increase (“**October SH – 7**”). However, as on the date of the Draft Red Herring Prospectus, we had been unable to file October Form SH-7 on the MCA portal due to a delay in processing of the July SH-7 due to procedural formalities. Subsequently, the July SH-7 was cancelled on December 20, 2024. Thereafter, the Board and Shareholders of our Company, pursuant to resolutions, each dated January 21, 2025, have approved the increase in the authorised share capital of our Company with retrospective effect from May 10, 2024, for which our Company has filed the Form SH-7 on February 26, 2025. The Board and Shareholders of our Company, pursuant to resolutions, each dated January 21, 2025, have further approved the cancellation of OCRPS from the authorized share capital of the Company and the resulting decrease of the authorised share capital of our Company from ₹ 5,710,000,000 divided into 290,000,000 Equity Shares of ₹ 10 each and 28,100,000 0.01% OCRPS of ₹ 100 each to ₹ 2,900,000,000 divided into 290,000,000 Equity Shares of ₹ 10 each, with retrospective effect from May 10, 2024. Thereafter, our Company has filed the Form SH-7 on April 8, 2025, for the cancellation of 28,100,000 OCRPS of ₹ 100 each from the authorized share capital of the Company, with retrospective effect from May 10, 2024. Further, the Board and Shareholders of our Company, pursuant to their resolutions each dated January 21, 2025, have ratified the increase in authorised share capital from ₹ 2,900,000,000 divided into 290,000,000 Equity Shares of ₹ 10 each to ₹ 4,500,000,000 divided into 450,000,000 Equity Shares of ₹ 10 each, as approved by the Board and Shareholders on October 5, 2024 and October 14, 2024, respectively, and our Company has filed the Form SH-7 with respect to the same on April 18, 2025. For details, see “*History and Certain Corporate Matters – Amendments to our Memorandum of Association*” on page 221.

As on the date of this Prospectus, while we have made the Form SH-7 filings on the MCA portal, there is no assurance that that there will be no actions (regulatory or otherwise) or fines levied against us including for such delayed filings in the future, which could adversely affect our financial condition, results of operations, cash flows and reputation.

30. *We are exposed to a variety of risks associated with safety, security and crisis management.*

We are committed to ensure the safety and security of our guests, employees and assets against natural and man-made threats. These include, but are not limited to, exceptional events such as extreme weather, civil or political unrest, violence and terrorism, serious and organized crime, fraud, employee dishonesty, cybercrime, pandemics, fire and day-to-day accidents, incidents, health crises of guests and petty crime which impact the guest or employee experience, could cause loss of life, sickness or injury and result in compensation claims, fines from regulatory bodies, litigation and impact our reputation. Serious incidents or a combination of such events could escalate into a crisis which, if managed poorly, could further expose us and our hotels to significant reputational damage. Any accidents or any criminal activity at our hotel properties may result in personal injury or loss of life, substantial damage to or destruction of property and equipment resulting in the suspension of operations. Any of the foregoing could subject us to litigation, which may increase our expenses in the event we are found liable, and could adversely affect our reputation and cause a loss of consumer confidence in our business.

31. *Demand for rooms in our hotels or our conferencing and meeting facilities may be adversely affected by the increased use of business-related technology or change in preference of our corporate customers.*

The increased use of teleconference and video-conference technology by businesses could result in decreased business travel as companies increase the use of technologies that allow multiple parties from different locations to participate at meetings without traveling to a centralized meeting location, such as our hotels. To the extent that such technologies play an increased role in day-to-day business and the necessity for business-related travel decreases, demand for our hotel rooms or our conferencing and meeting facilities may decrease from business travellers and corporate customers. Similarly, changes in business spending and preferences of our corporate customers due to evolving cost of travel, spending habits and budgeting patterns may lead to a change in the perceived attractiveness of our hotels, services and the locations at which our hotels are situated.

32. *The success of our business is dependent on our ability to anticipate and respond to customer requirements. Our business may be affected if we are unable to identify and understand contemporary and evolving customer preferences or if we are unable to deliver quality service as compared to our competitors.*

We are engaged in the hospitality industry and are driven by the quality of service that we provide to our customers and the expectations of such customers. The hospitality industry is affected by changes in consumer preferences, national, regional and local economic conditions and demographic trends. We need to evolve the services offered by us in order to compete with popular new hospitality services, operation formats, concepts or trends that emerge from time to time. We strive to keep up with evolving customer requirements to enhance our existing business and level of customer service. Our inability to identify, anticipate, understand and address contemporary and evolving customer preferences or to deliver quality service as compared to our competitors could adversely affect our business. The market perception of our hotels and services may change and this could impact our continued business success and future profitability. If we are unable to adapt our services successfully or meet changes in consumer demands and trends, our business, financial condition, cash flows and results of operations may be adversely affected. The quality and delivery of our services at our hotels are critical to the success of our business, which requires enhancement to match the evolving customer preferences. These factors depend significantly on the effectiveness of our quality control systems and standard operating procedures, which in turn, depend on the skills and experience of our hospitality personnel, the quality training program, and our ability to ensure that such personnel adhere to our policies and guidelines. Any failure or deterioration of our quality control systems, or our inability to deliver quality services as compared

to our competitors, could materially and adversely affect our business, financial condition, results of operations, cash flows and reputation.

33. In the event we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business, including in respect of which we have made relevant applications that are currently pending, including due to any default on the part of the owners of the properties we lease and manage, our business and results of operations may be adversely affected.

Our operations are subject to extensive government regulations and we are required to obtain and maintain a number of statutory and regulatory permits and approvals under central, state and local government rules in India, generally for carrying out our business activities and operations and for each of our hotels including, without limitation, sanction of building plans, occupancy certificates, trade licenses, licenses issued by the Food Safety and Standards Authority of India, shops and establishments registrations, licenses to sell liquor and environmental approvals and clearances (“**Material Approvals**”). We may need to apply for more approvals, including the renewal of approvals which may expire from time to time, and approvals in the ordinary course of business. We also appoint third parties for obtaining certain licenses and approvals for our operations and any deficiency in providing such services or any breach of law by any such third party in this regard may affect our reputation, operations, results of operations, financial condition and cash flows.

While we have obtained a number of approvals required for our business and operations, certain Material Approvals for which we have submitted applications for renewal are currently pending before the relevant government authorities. For details of approvals relating to our business and operations and our pending approvals, see “*Government and Other Approvals*” on page 358. We cannot assure you that such approvals will be issued or granted to us in a timely manner, or at all, and any delay in the issuance of such licenses or approvals may adversely impact the revenue and operations of the affected hotel.

Further, the approvals required by us are subject to numerous eligibility conditions or ongoing compliance. While we have not experienced any material instances of such approvals being rejected, not received, suspended or revoked in the last three Fiscals, we cannot assure you that such occurrences will not occur in the future, such as due to non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action.

34. Our business is capital intensive and may require additional financing to meet those requirements, which could have an adverse effect on our results of operations, cash flows and financial condition.

Our business is capital intensive as we require capital to operate and expand our hotel properties and operations. Historically, we have funded our capital expenditure requirements through a combination of internal accruals and term loans. Set out below are details of our purchase of property, plant and equipment (including capital work in progress) as of the years and dates indicated, which is also expressed as a percentage of total assets:

Particulars	As of/ for the year ended March 31, 2025	As of / for the year ended March 31, 2024	As of / for the year ended March 31, 2023
Purchase of property, plant and equipment (including capital work in progress) (₹ million) (A)	947.40	554.80	97.10
Total assets (₹ million) (B)	9,475.70	8,867.80	8,406.70
Purchase of property, plant and equipment (including capital work in progress) as a percentage of total assets (in %) (C=A/B)	10.00%	6.26%	1.16%

Further, we are also required to incur expenses in relation to repairs and maintenance of hotel buildings and plant and equipment. Set out below are details of such repairs and maintenance expenses incurred in Fiscals 2025, 2024 and 2023, which is also expressed as a percentage of total expenses:

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024	For the year ended March 31, 2023
Repairs & Maintenance - Building (₹ million) (A)	48.90	55.00	57.30
Repairs & Maintenance - Plant & machinery (₹ million) (B)	42.30	40.90	41.10
Repairs & Maintenance – Others (₹ million) (C)	37.70	38.10	31.60
Total expenses (₹ million) (D)	4,261.70	3,727.70	3,719.50
Repairs & Maintenance - Building as a percentage of total expenses (in %) (E = A/D)	1.15%	1.48%	1.54%
Repairs & Maintenance – plant & machinery as a percentage of total expenses (in %) (F = B/D)	0.99%	1.10%	1.10%
Repairs & Maintenance - others as a percentage of total expenses (in %) (G = C/D)	0.88%	1.02%	0.85%

Our sources of additional financing, where required to meet our capital expenditure plans, may include the incurrence of debt or the issue of equity or debt securities or a combination of both. If we decide to raise funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. Any issuance of equity, on the other hand, would result in a dilution of your shareholding.

- 35. Our business is influenced by the occupancy rates of our individual hotels. Any decline in the occupancy rates of any of our hotels due to location-specific demand, seasonal trends, competitive dynamics, and economic conditions in the respective regions, could have an adverse impact on our business, results of operations, financial condition and cash flows.**

Our business is influenced by the occupancy rates of each of our individual hotels. The table below sets forth the average occupancy rates for each of our hotels for the years indicated:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
Average occupancy⁽¹⁾			
Grand Mercure Bangalore	77.01%	72.38%	81.44%
Sheraton Grand Bangalore at Brigade Gateway	78.86%	73.48%	71.16%
Grand Mercure Mysore	77.30%	78.65%	84.25%
Holiday Inn Chennai OMR IT Expressway	83.88%	85.12%	84.14%
Holiday Inn Bengaluru Racecourse	83.10%	77.39%	76.50%
Four Points by Sheraton Kochi Infopark	83.24%	69.65%	48.57%
Grand Mercure Ahmedabad GIFT City	60.08%	46.34%	39.26%
Holiday Inn Express & Suites Bengaluru OMR	77.23%	78.26%	72.32%
ibis Styles Mysuru ⁽²⁾	43.31%	-	-

⁽¹⁾ Average occupancy is calculated as total room nights sold during a relevant year divided by the total available room nights during the same year.

⁽²⁾ ibis Styles Mysuru became operational since October 4, 2024.

Various factors, including location-specific demand, seasonal trends, competitive dynamics, and economic conditions in the respective regions where our hotels are located, could affect these occupancy rates. Due to these factors, some of our hotels may outperform while others may underperform. For example, hotels located in tourist destinations may experience higher occupancy during peak travel seasons but may face lower occupancy during off-peak periods. Similarly, hotels in business districts may see fluctuations based on corporate travel trends and the economic activities in those areas. This disparity could lead to an uneven financial performance across these hotels, affecting our overall results of operations, financial condition, cash flows and prospectus. Additionally, increased competition from new or existing hotels in the vicinity could impact the occupancy rates of our hotels. Further, economic downturns or adverse regional economic conditions could also lead to reduced travel and lower occupancy rates. Any decline in the occupancy rates of our hotels could adversely affect our business, results of operations, financial condition, and cash flows.

- 36. Our operations are dependent on our ability to attract and retain qualified personnel, including our Key Managerial Personnel and Senior Management Personnel and any inability on our part to do so, could adversely affect our business, results of operations, financial condition and cash flows.**

Our performance depends largely on the efforts and abilities of our Key Managerial Personnel and Senior Management Personnel. See “Our Management” on page 231. We believe that the inputs and experience of our Key Managerial Personnel and Senior Management Personnel are valuable for the development of our business and operations and the strategic directions taken by our Company. Our managerial and other employees are critical to maintaining the quality and consistency of our services and reputation and the loss of the services of our personnel may adversely affect our business and operations. While we believe that we currently have adequate qualified personnel for our operations, we may not be able to continuously attract or retain such personnel, or retain them on acceptable terms, given the demand for such personnel. The following table sets forth the attrition rate for our KMPs and SMPs for the years indicated:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
Total number of KMPs	3	4	3
Attrition rate of KMPs (%)	33.33%	50.00%	33.33%
Total number of SMPs	2	Nil	Nil
Attrition rate of SMPs (%)	NA	NA	NA

Note: Attrition rate represents the number of resignations in the relevant category as a percentage of average number of employees in the relevant category for the relevant Fiscal.

While there has been no instance in the last three Fiscals where the resignation of any Senior Management Personnel or Key Managerial Personnel had an adverse impact on our business, results of operations, cash flows or financial conditions, we cannot assure you that such instance will not arise in the future. Competition for qualified personnel with relevant industry expertise in India is intense and the loss of the services of our key personnel may adversely affect our business, results of operations, financial condition and cash flows. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires.

37. *Suboptimal space utilization may result in higher utility expenses, increased repair and maintenance cost or manpower-related expenses, which could have an adverse impact on our business, results of operations, financial condition and cash flows.*

We maintain an average super built-up area (calculated as built-up area plus common area) of 85.28 square meters per room across our hotels. Our ability to optimize space utilization across our hotels is critical to managing various operational costs, including utility expenses, repair and maintenance costs, and manpower-related expenses. Efficient space utilization is essential for minimizing these costs and enhancing overall operational efficiency. However, any inefficiencies in space utilization may result in higher utility expenses due to increased energy consumption. Further, inefficient space management can lead to escalated repair and maintenance costs, as more extensive areas may require more frequent upkeep and repairs. Furthermore, ineffective space utilization can impact manpower-related expenses. Larger or poorly organized spaces may necessitate additional staff to maintain and manage these areas, thereby increasing labour costs. While we strive to optimize our operating expense by using space optimally, any increase in operating costs due to inefficient space utilization could adversely impact our business, results of operations, financial condition and cash flows.

38. *Implementing energy consumption initiatives requires significant upfront investment. Any malfunction or failure in these systems could cause operational disruptions, requiring regular maintenance and repairs, which could have an adverse impact on our business, financial condition, results of operations and cash flows.*

We have undertaken various initiatives across our hotels to reduce our energy consumption such as implementing the use of LED lights, installing thermostats to regulate heating, ventilation and air conditioning (“HVAC”) systems, upgrading to energy-efficient appliances, and deploying energy management systems to monitor and control various energy-consuming systems. While these initiatives are designed to reduce energy consumption and promote sustainability, the implementation of similar initiatives to reduce our energy consumption may require significant upfront investment, which may impact our short-term financial performance. Additionally, the effectiveness of our energy optimization initiatives depends on the reliability and performance of the installed technologies. Any malfunction or failure in these systems could lead to operational disruptions, necessitating regular maintenance and potential repairs. While we have not experienced any instances of malfunctions or failures of systems in our energy-saving systems for reducing energy consumption in the last three Fiscals which had an adverse impact on our business, results of operations, financial condition and cash flows, we cannot assure you that such instances will not arise in the future.

39. *Our reliance on shared services across certain hotels introduces risks such as operational disruptions and resource conflicts, which could have an adverse effect on the functioning of our hotels and business, results of operations, financial condition and cash flows.*

We focus on shared services across our hotels by consolidating certain operations and resources to enhance cost effectiveness. For example, our three hotels managed by InterContinental Hotels Group collaborate in sharing human resources in the areas of finance, engineering, and IT. While this approach offers benefits in terms of cost savings and operational efficiency, it also introduces several risks. For instance, the shared services model increases our dependency on a team which manages certain function of a particular group of hotels. Any disruption within this team, such as the loss of key personnel, could simultaneously impact the operations of all hotels involved. This dependency heightens our vulnerability to resource allocation conflicts, especially during peak periods or emergencies, potentially leading to suboptimal performance. Such issues could adversely affect our business, results of operations, financial condition, and cash flows. While we have not experienced any disruptions on account of shared services in the last three Fiscals which had an adverse impact on our business, results of operations, financial condition and cash flows, we cannot assure you that such instances will not arise in the future.

40. *The optimisation of staff-to-room ratio is critical for maintaining our operational efficiency. A higher staff-to-room*

ratio could lead to increased operational costs, which may adversely impact on our business, results of operations, financial condition and cash flows.

The staff-to-room ratio is a critical factor in maintaining the operational efficiency within our hotels. The table below sets forth our staff per room ratio as of the dates specified:

Particulars	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
Staff per room ratio*	0.74	0.74	0.66

**Staff per room is calculated by employees/staffs (excluding contractual employees) engaged during the year divided by number of hotel rooms for the same year.*

A higher ratio could increase operational costs without a corresponding increase in service quality. While we strive to maintain an optimal staff-to-room ratio, fluctuations in occupancy and unforeseen operational challenges may impact our ability to do so consistently. If we are unable to maintain this optimal ratio, it could adversely affect our business, results of operations, financial condition, and cash flows.

Further, we focus on improving staff productivity and efficiency through training and learning exercises. The effectiveness of our training programs in enhancing staff productivity and efficiency is not guaranteed, and ineffective training could lead to suboptimal performance and higher operational costs. Furthermore, allocating sufficient resources for continuous training and development programs may strain our financial and operational resources, which could have an adverse impact on our business, results of operations, financial condition and cash flows.

41. *Developing hotels as part of larger mixed-use developments involves significant complexities and risks. If we fail to successfully integrate our hotels into these larger developments, it could negatively impact their operations, and consequently, our business, results of operations, financial condition, and cash flows.*

We have developed hotels as part of mixed-use developments to offer integrated experiences for our customers. Mixed-use developments are projects that combine various types of real estate, such as residential, commercial, and hospitality, within a single integrated development. For instance, Sheraton Grand Bangalore at Brigade Gateway is situated within the integrated lifestyle precinct of Brigade Gateway in Rajajinagar, Bengaluru (Karnataka). We intend to develop a luxury hotel under the InterContinental brand in Hyderabad (Telangana) and an upper midscale hotel in Bengaluru (Karnataka) as part of mixed-use developments. Several factors may impact the development of hotels as part of larger mixed-use projects. We may experience potential delays in completion of our hotels due to dependencies on the timelines of the larger development, which could lead to increased costs from time overruns and impact budgets. The success of our hotels may rely on the completion of other infrastructure such as shopping malls, office spaces, or convention centers. Phased delivery of the larger project may reduce early synergies, leading to lower-than-expected performance. We may also encounter risks of disputes among partners or tenants within the larger development, affecting our hotel's operations. Further, we may experience integration issues if the hotel is launched ahead of other parts of the development, affecting the guest experience (e.g., construction noise). Additionally, we may face difficulties in aligning hotel operations with the facilities and services within the larger development (e.g., shared infrastructure). Negative perceptions of other components (retail or residential spaces) may also affect the hotel's reputation. These complexities and risks associated with developing hotels as part of larger mixed-use developments could adversely affect our business, results of operations, financial condition, and cash flows.

42. *We are required to comply with data privacy regulations and any non-compliance in the future may have an adverse impact on business, results of operations, cash flows and financial condition.*

We are subject to data privacy laws, rules and regulations that regulate the use of customer data. Compliance with these laws, rules and regulations may restrict our business activities, require us to incur significant expenditure and devote considerable time to compliance efforts. The existing and emerging data privacy laws, rules and regulations limit the extent to which we can use personal identifiable information and limit our ability to use third party firms in connection with customer data. Compliance with these regulations may require changes in the way data is collected, monitored, shared and used, which could increase operating costs or limit the advantages from processing such data. In addition, non-compliance with data privacy regulations may result in fines, damage to reputation or restrictions on the use or transfer of information. Certain of these laws, rules and regulations are relatively new and their interpretation and application remain uncertain and are also subject to change and may become more restrictive in the future. For instance, the Digital Personal Data Protection Act, 2023 ("DPDP Act") which received the assent of the President of India on August 11, 2023, but is yet to be notified, balances the rights of individuals to protect their personal data with the need to process personal data for lawful and other incidental purposes, by providing for personal data protection and privacy of individuals, while also stipulating several exemptions for personal data processing by the Government of India. It also provides for the establishment of a Data Protection Board of India for taking remedial actions and imposing penalties for breach of the provisions of the DPDP Act. It imposes restrictions and obligations on data fiduciaries, resulting from dealing with personal data and further, provides for levy of penalties for breach of obligations prescribed under the DPDP Act. For further details, see "Key Regulations and Policies" on page 215.

In addition, our systems and proprietary data stored electronically, including our guests' sensitive personal information, may

be vulnerable to computer viruses, cybercrime, computer hacking and similar disruptions from unauthorized tampering. Such technology systems may also be vulnerable to ransomware attacks, which may block or restrict access to these systems and impair their functionality, unless certain ransom money is paid. If such unauthorized use of our systems were to occur, data related to our customers and other proprietary information could be compromised. While we have not experienced any instances in the last three Fiscals where data related to our customers and other proprietary information was compromised, we cannot assure you that such instances will not arise in the future. The integrity and protection of our customer, employee and company data is critical to our business. Our customers expect that we will adequately protect their personal information. A theft, loss, fraudulent or unlawful use of customer, employee or company data could harm our reputation or result in remedial and other costs, liabilities, fines or lawsuits.

43. *Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business, results of operations, financial condition and cash flows.*

Our financing agreements contain certain restrictive covenants that limit our ability to undertake certain types of actions, any of which could adversely affect our business, results of operations, financial condition and cash flows. Our Company and/or our Subsidiary, as applicable, are required to obtain prior written consent from lenders for, among other things:

- effecting any change in the general nature of the business or any expansion or investment in any other entity;
- effecting any amendments to our Company's constitutional documents;
- disposing our assets other than those as permitted by the lender in writing; and
- effecting any change in the ownership or control or management, including by pledge of the promoter or sponsor shareholding in our Company.

In addition, certain terms of our financial agreements require us to maintain financial ratios such as a fixed asset coverage ratio of 1.50 times and a debt to EBITDA ratio that must not exceed 4.5 times as of March 31, 2024, 4.0 times as of March 31, 2025, and 3.5 times thereafter, which are tested on an annual basis. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs. Any future failure to satisfactorily comply with any condition or covenant under our financing agreements (including technical defaults) may lead to a termination of one or more of our credit facilities, acceleration of amounts due under such facilities, and enforcement of events of default as well as cross-defaults under certain of our other financing agreements, any of which may adversely affect our business, financial condition, results of operations and cash flows. As of the date of this Prospectus, our Company has received prior consent from our lender, as required under the relevant loan documents and has intimated the lender of our Subsidiary. Further, while there has been no breach of such covenants in the last three Fiscals, we cannot assure you that we will be able to comply with these financial or other covenants at all times or that we will be able to obtain the consent necessary to take the actions that we believe are required to operate and grow our business. Further, there has not been any instance of re-scheduling/ re-structuring in relation to borrowings availed by us from any financial institutions or banks in the last three Fiscals.

Further, we have granted security interests over certain of our assets, including our hotels and charge over operating cash flows and book debts, in order to secure our borrowings, and any failure to satisfy our obligations under such borrowings could lead to the forced sale and seizure of such assets, which may adversely affect our business, financial condition, results of operations and cash flows. For further information on our indebtedness, see "*Financial Indebtedness*" on page 346.

Further, there has been a delay in the creation of a security in relation to the loan facility availed from Axis Bank Limited. While Axis Bank Limited initially imposed a monetary penalty of ₹ 19.76 million for the delay in creation of such security, the penalty was later reversed. We cannot assure you that we will not be subject to penalties in the future for any such delays, which may have an adverse impact on our business, results of operations, financial condition and cash flows.

44. *We have in the past entered into related party transactions and may continue to do so in the future. The terms of these related party transactions, while at arm's length, may be unfavorable to us.*

We have entered into transactions with related parties, including our Promoter and one of our Directors, in the past and from, time to time, we may enter into related party transactions in the future. These transactions include, among other things, revenue from hospitality services, purchase of services, reimbursement of expenses, payment towards rent and interest on borrowings. While all such transactions have been conducted on an arm's length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions and all related party transactions that we may enter into post-listing, will be subject to Board or Shareholder approval, as necessary under the Companies Act, the SEBI Listing Regulations and other application laws. Further, it is likely that we may enter into additional related party transactions in the future. Such future related party transactions may potentially involve conflicts of interest.

Further, the building for our hotel *Holiday Inn Express & Suites Bengaluru OMR* has been leased by our Promoter, BEL.

Further, as part of one of the Objects, our Company entered into a memorandum of agreement dated October 24, 2024 ("**MoA**"), read with letter of extension dated June 16, 2025, with our Promoter pursuant to which our Company propose to buy undivided

share of 1.35 acres (5,498 square metres) from our Promoter out of the land admeasuring to 5.68 acres on which our Promoter has proposed to develop a mall, commercial space and a hotel (“**Commercial Block**”) situated in Neopolis Layout II, Survey Numbers 239 and 240 (Plot No. 8) of Kokapet Village, Gandipet Mandal, Rangareddy District, Telangana, India, which is approximately 23.76% out of the Commercial Block . There are many events, other than the ones covered in the insurance policies specified above, that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business, cash flows, financial condition and results of operations could be adversely affected. Any damage suffered by us in excess of such limited coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us.

Except for the insurance amount received for machinery losses in December 2024 caused by water ingress into the basement due to excessive rainfall, amounting to ₹ 0.39 million, we have not claimed any insurance amount in the last three Fiscals. We cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part, on time, or at all. Further, we cannot assure that any future losses will not exceed our insurance coverage. The following tables set forth details of coverage of our insurance policies against the total insurable assets in the years indicated:

Particulars	As of/ for the year ended March 31, 2025		As of / for the year ended March 31, 2024		As of / for the year ended March 31, 2023	
	Amount (₹ million)	Percentage of the total insurable assets*	Amount (₹ million)	Percentage of the total insurable assets*	Amount (₹ million)	Percentage of the total insurable assets*
Coverage of Insurance Policies	23,255.57	397.00%	22,111.59	384.38%	19,635.15	346.25%

* Insured assets comprises of net book value of property, plant and equipment (excluding Lease hold land (ROU Asset) and Freehold Land), Capital Work-in-progress as at the end of the relevant financial year, with the details computed on a consolidated basis as of March 31, 2025, March 31, 2024 and March 31, 2023.

If we were to make a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. While we have not faced any such instances in the last three Fiscals which led to an adverse effect on our business or operations, if our losses significantly exceed or differ from our insurance coverage or cannot be recovered through insurance in the future, our business, results of operations, cash flows and financial condition could be adversely affected.

We typically take coverage on replacement cost of assets. Although we believe we have industry standard insurance for our properties, if a fire or natural disaster substantially damages or destroys some or all of our properties, the proceeds of any insurance claim may be insufficient to cover rebuilding costs. In such circumstances, we would have to bear such loss or damage. Further, the costs of coverage may increase in the future. Such costs may become so high that insurance policies we deem necessary for our operations may not be obtainable on commercially practicable terms, or at all, or policy limits may need to be reduced or exclusions from our coverage expanded. Any of the foregoing may adversely affect our business, results of operations, financial condition and cash flows. The table sets forth details of the insurance expense incurred by us in the years indicated, which is also expressed as a percentage of total expenses:

Particulars	Fiscal 2025	Fiscal 2024	Fiscal 2023
	(₹ in million, unless otherwise stated)		
Insurance (A)	18.90	23.70	18.70
Total expenses (B)	4,261.70	3,727.70	3,719.50
Insurance as a percentage of total expenses (in %) (C=A/B)	0.44%	0.64%	0.50%

Further, for some of our insurances, we may not have added a third-party as beneficiary / co-insured to our insurance or taken the approval of such third parties for availing such insurance as required by regulations or contractual obligations, which may have an impact on the amount of insurance claim to be paid out.

52. *We are subject to extensive government regulation with respect to safety, health, environmental, real estate, excise and labour laws. Any non-compliance with, or changes in, regulations applicable to us may adversely affect our business, results of operations, financial condition and cash flows.*

Operational risks are inherent in our business as it includes rendering services at high quality standards at our hotels. A failure to manage such risks could have an adverse impact on our business, results of operations, financial condition and cash flows. Certain operational risks are inherent in our businesses due to the nature of the industry in which we operate. We provide hospitality services, including food and beverage, cleaning and housekeeping, and security services, at our hotels. In rendering such services our personnel are required to adhere to regulatory requirements and standard operating procedures with regard to health, safety and hygiene and in their interaction with our guests and other members of the public. Food and beverage services require proper packaging and labelling and the careful and hygienic handling of food products, which if improperly packaged or handled may have an adverse impact on the health of our guests. Similarly, cleaning and housekeeping services involve the handling of chemicals such as cleaning solutions, which if handled improperly may have an adverse impact on the health of our employees, guests and on the environment. Consequently, our business is associated with certain safety, privacy and public health concerns.

As on the date of this Prospectus, our Company is not a party to any material civil or criminal litigation pertaining to safety, privacy or public health concerns. However, failure to effectively implement corporate, crisis response, training and management policies and protocols and to adequately address and manage risks inherent in our business, or a failure to meet the requirements of our guests, or a failure to develop effective risk mitigation measures, could have an adverse effect on our hotels' reputation, guest loyalty and consequently, our business, results of operations, financial condition and cash flows.

53. *We rely on contract labour for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations, financial condition and cash flows.*

We appoint independent contractors who in turn engage on-site contract labour for performance of certain of our operations. As of March 31, 2025, we had 251 contract labourers. Although we do not engage these labourers directly, we may be held responsible for any wage payments to be made to such labourers in the event of default by such independent contractor. Any requirement to fund their wage requirements may have an adverse impact on our results of operations, financial condition and cash flows. While we have not faced any such instances in the last three Fiscals where we were required to pay wages to contract labourers, we cannot assure you that such instances will not arise in the future. In addition, under the Contract Labour (Regulation and Abolition) Act, 1970, as notified and enforced by the central government and adopted with such modifications as may be deemed necessary by the respective state governments, we may be required to absorb a number of such contract labourers as permanent employees. In the event of any non-compliance by contractors with statutory requirements, legal proceedings may be initiated against us. Thus, any such order from a regulatory body or court may have an adverse effect on our business, results of operations, financial condition and cash flows.

54. *If we are unsuccessful in implementing our strategies, particularly our growth strategy, our business, financial condition, results of operations and cash flows may be adversely affected.*

The success of our business relies heavily on our ability to effectively implement our strategies, which include expanding operations by developing new hotels at select locations, focusing on improving operating efficiencies and increasing revenues, and expanding our portfolio through opportunistic and accretive acquisitions. For further details on our strategies, see "Our

Business – Our Strategies” on page 196. Even if we have successfully executed our business strategies in the past, we cannot assure you that we will be able to execute our strategies on time and within the estimated budget, or that we will achieve expected results. We expect our strategies to place significant demands on our management and other resources and require us to continue developing and improving our operational, financial and other internal controls, as well as technology systems. We may be unable to sustain such growth in revenues and profits or maintain a similar rate of growth in the future. Further, as we grow and diversify, we may be unable to execute our projects efficiently, which could result in delays, increased costs and diminished quality and may adversely affect our reputation. If we are unable to implement our growth strategy effectively, our business, financial condition, results of operations and cash flows may be adversely affected.

55. *We may not be able to successfully meet working capital or capital expenditure requirements due to the unavailability of funding on acceptable terms.*

Our business is capital intensive as we require capital to operate, refurbish and expand our properties and operations. Due to the fact that certain of our properties are positioned as premium properties, the costs of maintenance may be higher, and the need for rebuilding or refurbishment more frequent in order to maintain their market position as premium properties. Our properties may require periodic capital expenditure for refurbishments, renovation and improvements beyond our current estimates and we may not be able to secure funding for such capital expenditure, in a timely manner or at all. For further details, see “*Risk Factors – 5. Our operations entail certain recurring expenses, and our inability to manage expenses may have an adverse effect on our business, results of operations, financial condition and cash flows.*” on page 34. The actual amount and timing of our future capital requirements may differ from estimates as a result of, among other factors, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, delay in obtaining regulatory approvals, economic conditions, design changes, weather related delays, technological changes and additional market developments. Our sources of additional financing, where required to meet our capital expenditure plans, may include the incurrence of debt or the issue of equity or debt securities or a combination of both. If we decide to raise funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. There are also restrictions on our ability to grant security over our land in favor of our creditors. Any issuance of Equity Shares, on the other hand, would result in a dilution of your shareholdings. Our ability to arrange financing and the costs of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from financial institutions, investor confidence, results of operations and cash flows, the amount and terms of our existing indebtedness, our credit ratings, the continued success of our properties and laws that are conducive to raising debt and equity. Factors such as decreases in the market rates for development projects, delays in the release of finances for certain projects in order to take advantage of future periods of more robust real estate demand; decreases in room, rental or occupancy rates; financial difficulties of key contractors resulting in construction delays; and financial difficulties of key tenants in at our annuity assets could impact the availability of credit. Our inability to raise adequate finances may result in our results of operations, cash flows and business prospects being materially and adversely affected.

56. *Any failure of our information technology systems could adversely affect our business and our operations.*

We use software and technology infrastructure to support our business. We use an enterprise resource planning (“ERP”) software for our business transactions along with an enterprise document management system. These systems may be susceptible to outages due to fire, floods, power loss, telecommunications failures, natural disasters, break-ins and similar events. Effective response to such disruptions will require effort and diligence on the part of our third-party vendors and employees to avoid any adverse effect to our information technology systems. While we have not faced any such disruption which resulted in an adverse effect on our business and operations in last three Fiscals, any disruption in the future could adversely affect our business operations.

57. *Existing or planned amenities and transportation infrastructure at or near our hotels could be closed, relocated, terminated, delayed or not completed at all. Disruptions or lack of basic infrastructure such as electricity and water supply could adversely affect our operations.*

We require a significant amount and continuous supply of basic amenities such as electricity and water, and any disruption in the supply thereof could affect the operations of our hotels and the services to our guests. We currently source our water requirements from governmental water supply undertakings and water tankers and depend on state electricity boards and private suppliers for our energy requirements. Further, we rely on largescale air-conditioning plants to maintain cooling standards, operations and services to our guests and any interruption in the functioning of such air conditioning plants could cause serious reputation and operational risks at our hotels. Although we have diesel generators and back-up generators to meet exigencies at all of our hotels, we cannot assure you that our hotels will have sufficient back-up during government mainline power failures. While we have not faced any such disruption which led to an adverse effect on our business and operations in the last three Fiscals, any disruption in the future could adversely affect our business operations. Further, any failure on our part to obtain alternate sources of electricity or water, or address mechanical, electrical and plumbing failure, in a timely manner, and at an acceptable cost in the future, may have an adverse effect on our business, cash flows, results of operations and financial condition.

The location of our hotels and their accessibility through transport services and related infrastructure are of significant relevance to us. We cannot assure you that the transportation infrastructure and services near, or anticipated to be near, our hotels will not be closed, relocated, terminated, delayed or remain incomplete. While we have not faced such instances in the last three Fiscals

which resulted in an adverse effect on our business and operations, if the accessibility of any of our hotels is adversely affected in the future, it could negatively affect their attractiveness and marketability which may, in turn, may impact our business, cash flows, results of operations and financial condition.

58. *Our Promoter will continue to hold a significant equity stake in our Company after the Issue and their interests may differ from those of the other shareholders.*

As on the date of this Prospectus, our Promoter holds 95.26% of the pre-Issue issued, subscribed and paid-up Equity Share capital of our Company. For further information on their shareholding pre and post-Issue, see “*Capital Structure*” on page 93. After the completion of the Issue, our Promoter will continue to collectively hold majority of the shareholding in our Company and will continue to exercise significant influence over our business policies and affairs and all matters requiring Shareholders’ approval, including the composition of our Board, the adoption of amendments to our constitutional documents, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditure or any other matter requiring special resolution. This concentration of ownership also may delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of our Promoter. The interests of our Promoter as our controlling shareholder could conflict with our interests or the interests of our other shareholders. We cannot assure you that our Promoter will act to resolve any conflicts of interest in our favour and any such conflict may adversely affect our ability to execute our business strategy or to operate our business. For further information in relation to the interests of our Promoter in the Company, see “*Our Management*” and “*Our Promoter and Promoter Group*” on pages 231 and 247, respectively.

We are also dependent on the reputation of our Promoter, BEL. Any adverse publicity relating to our Promoter, BEL, may result in greater regulatory scrutiny of our operations. Further, if there is any reputational harm to our Promoter, BEL, our business, results of operations, financial condition and cash flows could be adversely affected.

59. *Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.*

We propose to utilize the Net Proceeds towards (i) repayment/ prepayment, in full or in part, of certain outstanding borrowings availed by our Company and Material Subsidiary; (ii) payment of consideration for buying of undivided share of land from our Promoter, BEL; and (iii) pursuing inorganic growth through unidentified acquisitions and other strategic initiatives and general corporate purposes. For further information on the proposed objects of the Issue, see “*Objects of the Issue*” beginning on page 104. Further, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with the Companies Act, 2013 and the SEBI ICDR Regulations, we cannot undertake variation in the utilization of the Net Proceeds as disclosed in this Prospectus without obtaining the approval of the Shareholders through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the Shareholders in a timely manner, or at all. Any delay or inability in obtaining such approval of the Shareholders may adversely affect our business or operations. Further, our Promoter (who is also a controlling Shareholder) would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Issue, at a price and manner as prescribed by the SEBI ICDR Regulations.

Additionally, the requirement on our Promoter (who is also a controlling Shareholder), to provide an exit opportunity to such dissenting shareholders of our Company may deter our Promoter or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that our Promoter or the controlling shareholders of our Company if applicable, will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business, financial conditions, cash flows and results of operations.

60. *Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable.*

Certain non-GAAP financial measures such as Net Worth, Return on Net Worth, Net Asset Value per Equity Share, EBIT, EBITDA, EBITDA Margin, EBITDA/ Finance Cost, Return on Capital Employed, Adjusted Capital Employed, Return on Adjusted Capital Employed, Capital Employed, Net Borrowings and certain other statistical information relating to our operations and financial performance (“**Non - GAAP Measures**”) have been included in this Prospectus. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance.

These Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating,

investing or financing activities derived in accordance with Ind AS. In addition, these are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies.

61. *Our ability to access capital at attractive costs depends on our credit ratings. Non-availability of credit ratings or a poor rating may restrict our access to capital and thereby adversely affect our business, financial conditions, cash flows and results of operations.*

The cost and availability of capital depends on our credit ratings. The following table sets forth our details of credit rating received in the last three Fiscals and till the date of this Prospectus:

Rating Agency	Instruments	Credit Rating	Date
ICRA	Term Loan	[ICRA] A (Stable)	April 24, 2025
ICRA	Short-Term	[ICRA]A2+	April 24, 2025
ICRA	Term Loan	[ICRA] A (Stable)	January 23, 2024
ICRA	Overdraft	[ICRA] A (Stable)	January 23, 2024
ICRA	Short-Term	[ICRA]A2+	January 23, 2024
ICRA	Term Loan	[ICRA] A (Stable)	May 30, 2023
ICRA	Overdraft	[ICRA] A (Stable)	May 30, 2023
ICRA	Short-Term	[ICRA]A2+	May 30, 2023
ICRA	Term Loan	[ICRA] A (Stable)	February 18, 2022
ICRA	Overdraft	[ICRA] A (Stable)	February 18, 2022
ICRA	Short-Term	[ICRA]A2+	February 18, 2022

Credit ratings reflects the opinion of the rating agency on our management, track record, diversified clientele, increase in scale and operations and margins, medium term revenue visibility and operating cycle. While we have not experienced downgrading in our credit ratings received in the last three Fiscals, any downgrade in our credit ratings or our inability to obtain such credit rating in a timely manner or any non-availability of credit ratings, or poor ratings, could increase borrowing costs, will give the right to our lenders to review the facilities availed by us under our financing arrangements and adversely affect our access to capital and debt markets, which could in turn adversely affect our interest margins, our business, results of operations, financial condition and cash flows.

62. *Certain sections of this Prospectus disclose information from the Horwath HTL Report which is a paid report and commissioned and paid for by us exclusively in connection with the Issue and any reliance on such information for making an investment decision in the Issue is subject to inherent risks.*

We have availed the services of an independent consulting company, Crowe Horwath HTL Consultants Private Limited, appointed by our Company pursuant to an engagement letter dated March 7, 2024 (accepted by our Company on March 13, 2024) and the revised engagement letter dated December 19, 2024 read with the addendum to the engagement letter dated May 2, 2025, to prepare an industry report titled “India Hotel Sector” dated July 6, 2025, for purposes of inclusion of such information in this Prospectus to understand the industry in which we operate. Our Company, our Promoter, our Directors, and our Key Managerial Personnel and Senior Management Personnel are not related to Horwath HTL. The Horwath HTL Report has been commissioned by our Company exclusively in connection with the Issue for a fee. This Horwath HTL Report is subject to various limitations and based upon certain assumptions that are subjective in nature. Further the commissioned report is not a recommendation to invest or divest in our Company. Prospective investors are advised not to unduly rely on the commissioned report or extracts thereof as included in this Prospectus, when making their investment decisions.

63. *We may require additional equity or debt in the future in order to continue to grow our business, which may not be available on favourable terms or at all.*

Our strategy to grow our business and maintain our market share may require us to raise additional funds or refinance our existing debt for our working capital or long term loans. We cannot assure you that such funds will be available on favourable terms or at all. Additional debt financing may increase our financing costs. Our financing agreements may contain terms and conditions that may restrict our ability to operate and manage our business, such as terms and conditions that require us to maintain certain pre-set debt service coverage ratios and leverage ratios and require us to use our assets, including our cash balances, as collateral for our indebtedness. If we are unable to raise additional funds on favourable terms or at all as and when required, our business, financial condition, results of operations, cash flows and prospects could be adversely affected.

64. *A slowdown in economic growth in India could have an adverse effect on our business, results of operations, financial condition and cash flows.*

As of the date of this Prospectus, we have a portfolio of nine operating hotels. Our hotels are in the upper upscale, upscale, upper-midscale and midscale segments, according to the Horwath HTL Report. Consumer demand from business, leisure, MICE travellers for our services is dependent on the general economic performance in India and globally. Any slowdown in economic growth could affect business and personal discretionary spending levels and lead to a decrease in demand for our services for prolonged periods. We cannot assure you that such macroeconomic and other factors, which are beyond our control would not significantly affect demand for our services in the future. Consequently, the occurrence of such events could have an adverse effect on our business, results of operations, financial condition and cash flows. For details, of fluctuations in demand in the hospitality industry in India in recent years, see “*Industry Overview*” on page 147.

65. *The COVID-19 pandemic affected our business and operations and any future pandemic or widespread public health emergency in the future, could affect our business, financial condition, cash flows and results of operations.*

On March 14, 2020, the Government of India declared COVID-19 as a “notified disaster” for the purposes of the Disaster Management Act, 2005 and imposed a nationwide lockdown beginning on March 25, 2020. The global impact of the COVID-19 pandemic rapidly evolved and public health officials and government authorities responded by taking measures, including in India where our hotels are based, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting domestic and overseas travel, issuing “stay-at-home” orders and restricting the types of businesses that may continue to operate, among many others.

The COVID-19 pandemic adversely affected our financial and operating performance and certain aspects of our business operations in the following ways, among others:

- domestic and overseas travel restrictions, including airport closures, resulted in lower demand for rooms at our hotels;
- increased cost of operations of our hotels to ensure higher standards of disinfection and cleanliness as well as disinfection costs;
- reduced revenue from our food and beverage operations due to changing consumer behavior towards dining out and greater usage of food delivery services;
- limitation of size of gatherings and events which resulted in lower demand for MICE facilities at our hotels;
- employees that are suspected of being infected with the COVID-19 pandemic as well as other employees that have been in contact with those employees were required to be quarantined, and our employees were restricted by travel and other lockdown measures imposed in India and overseas; this resulted in a temporary reduction in the numbers of personnel or delays and suspension of operations as a health measure;
- the use of our premises for COVID-19 measures; and
- increased risks emanating from process changes being implemented, such as technology, oversight and productivity challenges due to an increase in number of individuals working from home.

Any future outbreak of another highly infectious or contagious disease may adversely affect our business, financial condition, cash flows and results of operations.

66. *We have issued Equity Shares during the preceding 12 months at a price which may be below the Issue Price.*

We have issued Equity Shares in the last 12 months at a price which may be lower than the Issue Price, as set out in the table below:

Date of allotment of Equity Share	Number of Equity Shares allotted	Details of allottees	Face value per Equity Share (in ₹)	Issue price per Equity Share (in ₹)	Nature of consideration	Nature of allotment

(1) Our Company, in consultation with the Book Running Lead Managers, undertook the Pre-IPO Placement, as permitted under applicable law, aggregating to ₹1,260.00 million. The Pre-IPO Placement was at a price decided by our Company, in consultation with the Book Running Lead Managers and was completed prior to the filing of the Red Herring Prospectus with the RoC. The amount raised pursuant to the Pre-IPO Placement was reduced from the Issue, subject to compliance with Rule 19(2)(b) of the SCRR and the revised Issue size aggregated to ₹ 7,596.00 million. The Pre-IPO Placement did not exceed 20% of the size of the Issue. Our Company had appropriately intimated the subscribers to the Pre-IPO Placement, prior to the allotment pursuant to the Pre-IPO Placement, that there was no guarantee that our Company may proceed with the Issue or the Issue may be successful and will result into listing of the Equity Shares on the Stock Exchanges. Further, relevant disclosures in relation to such intimation to the subscribers to the Pre-IPO Placement was appropriately made in the relevant sections of the Red Herring Prospectus and has been made in the relevant sections of this Prospectus.

The price at which Equity Shares have been issued by our Company in the immediately preceding 12 months is not indicative of the price at which they will be issued in the Issue or traded on the stock exchanges. For further details, see “Capital Structure – Notes to the Capital Structure – Share capital history of our Company – (a) Equity Share capital” on page 94.

External Risk Factors

67. **Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations.**

The regulatory and policy environment in which we operate are evolving and are subject to change. The Government of India may implement new laws or other regulations and policies that could affect our business in general, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the Government and other regulatory bodies, or impose onerous requirements.

For instance, the GoI has recently introduced (a) the Code on Wages, 2019; (b) the Code on Social Security, 2020; (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020 which consolidate, subsume and replace numerous existing central labour legislations. While the rules for implementation under these codes have not been notified, we are yet to determine the impact of all or some such laws on our business and operations which may restrict our ability to grow our business in the future and increase our expenses.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

68. **The occurrence of natural or man-made disasters could adversely affect our results of operations, financial condition and cash flows. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.**

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results

of operations, financial condition or cash flows. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares. Also, see “Risk Factors - 65. The COVID-19 pandemic affected our business and operations and any future pandemic or widespread public health emergency in the future, could affect our business, financial condition, cash flows and results of operations.” on page 71.

69. *A downgrade in ratings of India and other jurisdictions we operate in may affect the trading price of the Equity Shares.*

Our borrowing costs and our access to the debt capital markets depend significantly on the sovereign credit ratings of India. Any further adverse revisions to credit ratings for India and other jurisdictions we operate in by international rating agencies may adversely impact our ability to raise additional financing. This could have an adverse effect on our ability to fund our growth on favourable terms and consequently adversely affect our business and financial performance and the price of the Equity Shares.

70. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.*

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in India is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis and volatility in exchange currency rates. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins. Further, our business, results of operations, financial condition, and cash flows may be adversely affected by any negative impact on the global economy resulting from the conflicts between India and Pakistan, Israel-Hamas and Russia and Ukraine, new trade policies including tariffs, or any other geopolitical tension or general adverse economic condition.

71. *Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.*

Our Restated Consolidated Summary Statements comprises the restated consolidated summary statements of assets and liabilities as at March 31, 2025, March 31, 2024 and March 31, 2023, restated consolidated summary statement of profits and losses (including other comprehensive income), restated consolidated summary statement of cash flows and restated consolidated summary statement of changes in equity for each of the years ended March 31, 2025, March 31, 2024 and March 31, 2023, summary statement of material accounting policies and other explanatory information. Our Restated Consolidated Summary Statements have been prepared by the Company in accordance with the requirements of (a) Section 26 of Part I of Chapter III of the Companies Act, 2013; (b) the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended; (c) the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India; and (d) E-mail dated May 20, 2024 received from Book Running Lead Managers (“BRLMs”), which confirms that the Company should prepare financial statements in accordance with Indian Accounting Standards (Ind AS) and that these financial statements are required for all the three years including stub period, if applicable, based on email dated October 28, 2021 from Securities and Exchange Board of India to Association of Investment Bankers of India (“SEBI Letter”). Ind AS differs in certain significant respects from IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should be limited accordingly.

72. *We may be affected by competition laws in India, the adverse application or interpretation of which could adversely affect our business.*

The Competition Act, 2002, of India, as amended (“Competition Act”), regulates practices having an appreciable adverse effect on competition in the relevant market in India (“AAEC”). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or

the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of consumers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be also guilty of the contravention and may be punished.

Further, the Competition Commission of India (“CCI”) has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. In the event we pursue an acquisition in the future, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows and prospects. The manner in which the Competition Act and the CCI affect the business environment in India may also adversely affect our business, financial condition, cash flows and results of operations.

The Competition (Amendment) Act, 2023 (“**Competition Amendment Act**”) was recently notified. The Competition Amendment Act amends the Competition Act and give the CCI additional powers to prevent practices that harm competition and the interests of consumers. The Competition Amendment Act, *inter alia*, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI from 210 days to 150 days and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position. The Competition Amendment Act also proposed amendments such as introduction of deal value thresholds for assessing whether a merger or acquisition qualifies as a “combination,” expedited merger review timelines, codification of the lowest standard of “control” and enhanced penalties for failing to provide material information.

If we pursue acquisition transactions in the future, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, any enforcement proceedings initiated by the CCI, any adverse publicity that may be generated due to scrutiny or prosecution by the CCI, any adverse publicity that may be generated due to scrutiny or prosecution by the CCI, or any prohibition or substantial penalties levied under the Competition Act, which would adversely affect our business, results of our operations, cash flows and prospects.

73. *The Indian tax regime has undergone substantial changes which could adversely affect our business and the trading price of the Equity Shares.*

Any change in Indian tax laws could have an effect on our operations. The GoI has implemented two major reforms in Indian tax laws, namely the Goods and Services Tax (“**GST**”), and provisions relating to general anti-avoidance rules (“**GAAR**”). The indirect tax regime in India has undergone a complete overhaul. The indirect taxes on goods and services, such as central excise duty, service tax, central sales tax, state value added tax, surcharge and excise have been replaced by GST with effect from July 1, 2017. The GST regime continues to be subject to amendments and its interpretation by the relevant regulatory authorities is constantly evolving. GAAR became effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement may result in, among others, a denial of tax benefit to us and our business. In the absence of any substantial precedents on the subject, the application of these provisions is subjective. If the GAAR provisions are made applicable to us, it may have an adverse tax impact on us. Further, if the tax costs associated with certain of our transactions are greater than anticipated because of a particular tax risk materializing on account of new tax regulations and policies, it could affect our profitability from such transactions.

Earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax (“**DDT**”), in the hands of the company at an effective rate of 20.56% (inclusive of applicable surcharge and cess). Such dividends were generally exempt from tax in the hands of the shareholders. However, the GoI has amended the Income-tax Act, 1961 (“**IT Act**”) to abolish the DDT regime. Accordingly, any dividend distribution by a domestic company is subject to tax in the hands of the investor at the applicable rate. Additionally, the Company is required to withhold tax on such dividends distributed at the applicable rate.

Further, the Finance Act, 2024, was notified on August 16, 2024, and deemed to come into force on April 1, 2024 which has introduced various amendments to the IT Act. The Government of India announced the union budget for the Fiscal 2026 on February 1, 2025. Subsequently, the Finance Bill, 2025, was introduced in the Lok Sabha and received presidential assent on March 29, 2025. Consequently, the Finance Act, 2025 was notified with effect from April 1, 2025. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Equity Shares. There is no certainty on the impact that the Finance Act, 2025 may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether if at all, any laws or regulations would have an adverse

effect on our business. Further, any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability. In addition, we are subject to tax related inquiries and claims.

74. *If inflation were to rise in India, we might not be able to increase the prices of our hotel rooms at a proportional rate in order to pass costs on to our customers thereby reducing our margins.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of wages and other expenses. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our customers, whether entirely or in part, and may adversely affect our business, results of operations, cash flows and financial condition. In particular, we might not be able to reduce our costs or increase the price of our hotel rooms to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the Government of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

Risks relating to the Equity Shares and this Issue

75. *The determination of the Price Band is based on various factors and assumptions and the Issue Price, price to earnings ratio and market capitalization to revenue multiple based on the Issue Price of our Company, may not be indicative of the market price of the Company on listing or thereafter.*

Our revenue from operations for Fiscal 2025 was ₹ 4,682.50 million, and restated profit for Fiscal 2025 was ₹ 236.60 million. The table below provides details of our price to earnings ratio and market capitalization to revenue from operations at the upper end of the Price Band:

Particulars	Price to Earnings Ratio	Market Capitalization to Revenue
For Fiscal 2025	125	7.30

The determination of the Price Band was based on various factors and assumptions, and was determined by our Company in consultation with the BRLMs. The relevant financial parameters based on which the Price Band was determined were disclosed in the advertisement that was issued for the publication of the Price Band. Further, the Issue Price of the Equity Shares was determined on the basis of assessment of market demand for the Equity Shares offered through the book-building process prescribed under the SEBI ICDR Regulations, and the Issue Price, multiples and ratios may not be indicative of the market price of the Company on listing or thereafter.

Prior to the Issue, there has been no public market for our Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares.

The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, announcements by third parties or governmental entities of significant claims or proceedings against us, volatility in the securities markets in India and other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. As a result, we cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing. Further, the market price of the Equity Shares may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

76. *Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.*

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility.

On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the Issue due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the

parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation.

In the event our Equity Shares are covered under such pre-emptive surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in relation to trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active market for and trading of our Equity Shares.

77. *Our Company may not be able to pay dividends in the future. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, profit after tax available for distribution, cash flows, working capital requirements and capital expenditure and the terms of our financing arrangements.*

Any dividends to be declared and paid in the future are required to be recommended by our Company's Board of Directors and approved by its Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act, 2013. Our Company's ability to pay dividends in the future will depend upon our future results of operations, financial condition, profit after tax available for distribution, cash flows, sufficient profitability, working capital requirements and capital expenditure requirements. We cannot assure you that we will generate sufficient revenues to cover our operating expenses and, as such, pay dividends to our Company's shareholders in future consistent with our past practices, or at all. We have not declared any dividends on the Equity Shares during the last three Fiscals and during the period from April 1, 2025, until the date of this Prospectus. For information pertaining to dividend policy, see "Dividend Policy" on page 252.

78. *The Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for the Equity Shares. Further, the price of the Equity Shares may be volatile, and the investors may be unable to resell the Equity Shares at or above the Issue Price, or at all.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the stock exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Our Equity Shares are expected to trade on NSE and BSE after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares. There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after the Issue could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Prospectus. The market price of our Equity Shares may be influenced by many factors, some of which are beyond our control, including, among others:

- the failure of security analysts to cover the Equity Shares after the Issue, or changes in the estimates of our performance by analysts;
- the activities of competitors and suppliers;
- future sales of the Equity Shares by us or our Shareholders;
- investor perception of us and the industry in which we operate;
- changes in accounting standards, policies, guidance, interpretations of principles;
- our quarterly or annual earnings or those of our competitors;
- developments affecting fiscal, industrial or environmental regulations; and
- the public's reaction to our press releases and adverse media reports.

A decrease in the market price of our Equity Shares could cause you to lose some or all of your investment.

79. *Investors may be subject to Indian taxes arising out of income arising on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax ("STT") is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which the equity shares are sold. Any capital gain realized on the sale of listed equity shares on a recognised stock exchange held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the recognised stock exchanges, the quantum of gains, and any available treaty relief.

The Government of India announced the union budget for Financial Year 2024-2025, following which the Finance Bill, 2024

("Finance Bill") was introduced in the Lok Sabha on February 1, 2024. Subsequently, the Finance Bill received the assent from the President of India and became the Finance Act, 2024, with effect from April 1, 2024 as amended by the Finance Act (No.2), ("Finance Act"). Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Equity Shares.

The Finance Act has amended certain sections of the Income Tax Act, 1961, with effect from July 23, 2024. Accordingly, long term capital gains exceeding the exempted limit of ₹125,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.5% (plus applicable surcharge and cess). Unrealized capital gains earned on listed equity shares up to January 31, 2018 continue to be tax-exempted in such cases. Further, STT will be levied and collected by an Indian stock exchange if the equity shares are sold on a stock exchange. With respect to capital gains arising in an off market sale, long term capital gains are subject to tax at the rate of 10% (plus applicable surcharge and cess) without the exemption of ₹100,000.

Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India. Short-term capital gains, arising from the sale of such equity shares on a stock exchange would be subject to tax at the rate of 15% (plus applicable surcharge and cess) for transfers taking place before July 23, 2024.

However, per the Finance Act, short-term capital gains will be taxed at 20% for transfers taking place after July 23, 2024. The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020. It clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, is specified at 0.015% (on a delivery basis) and 0.003% (on a non-delivery basis) of the consideration amount.

Capital gains arising from the sale of the Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident read with the Multilateral Instrument, if and to the extent applicable, and the seller is entitled to avail benefits thereunder. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain realised upon the sale of the Equity Shares. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends.

Additionally, any dividend distributed by a domestic company is subject to tax in the hands of the investor at the applicable rate. Further, our Company is required to withhold tax on such dividends distributed at the applicable rate. Non-resident shareholders may claim benefit of the applicable tax treaty, subject to satisfaction of certain conditions. Our Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident Shareholder for the purposes of deducting tax at source pursuant to any corporate action, including dividends. Any business income realized from the transfer of Equity Shares held as trading assets is taxable at the applicable tax rates subject to any treaty relief, if applicable, to a non-resident seller.

We cannot predict whether any amendments made pursuant to the Finance Act would have an adverse effect on our business, results of operations, financial condition and cash flows. Unfavorable changes in or interpretations of existing laws, rules and regulations, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

80. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.*

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. The Allotment and transfer of Equity Shares in this Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately two Working Days from the Bid Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Bid Closing Date. There could be a failure or delay in the listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

81. *Any future issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding and sale of Equity Shares by shareholders with significant shareholding may adversely affect the trading price of the Equity Shares.*

We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a

primary offering of Equity Shares, convertible securities or securities linked to Equity Shares, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. Any disposal of Equity Shares by our major shareholders or the perception that such issuance or sales may occur, including to comply with the minimum public shareholding norms applicable to listed companies in India may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future. Any future issuances could also dilute the value of your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares.

82. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.*

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior approval of the RBI will be required. Further, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. As provided in the foreign exchange controls currently in effect in India, the RBI has provided that the price at which the Equity Shares are transferred be calculated in accordance with internationally accepted pricing methodology for the valuation of shares at an arm's length basis, and a higher (or lower, as applicable) price per share may not be permitted. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all. Further, due to possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains during periods of price increase or limiting losses during periods of price decline.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Non-debt Rules, all investments under the foreign direct investment route by entities of a country or where the beneficial owner of the Equity Shares is situated in or is a citizen of any such country, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. While the term "beneficial owner" is defined under the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and the General Financial Rules, 2017, neither the foreign direct investment policy nor the FEMA Rules provide a definition of the term "beneficial owner". The interpretation of "beneficial owner" and enforcement of this regulatory change involves certain uncertainties, which may have an adverse effect on our ability to raise foreign capital. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Additionally, there is uncertainty regarding the timeline within which the said approval from the GoI may be obtained, if at all.

For further information, see "Restrictions on Foreign Ownership of Indian Securities" on page 403.

83. *Fluctuations in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of the Equity Shares, independent of our operating results*

Upon listing, the Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of the Equity Shares will be paid in Indian Rupees and subsequently converted into appropriate foreign currency for repatriation. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the net proceeds received by shareholders.

84. *QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid, and Retail Individual Bidders, Eligible Employees Bidding the Employee Reservation Portion and BEL Shareholders bidding under the BEL Shareholders Reservation Portion are not permitted to withdraw their Bids after closure of the Bid/ Issue Closing Date.*

Pursuant to the SEBI ICDR Regulations, QIBs and NIBs are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders Eligible Employees Bidding the Employee Reservation Portion and BEL Shareholders bidding under the BEL Shareholders Reservation Portion can revise their Bids during the Bid/ Issue Period and withdraw their Bids until the Bid/ Issue Closing Date. While we are required to complete all necessary formalities for listing

and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within three Working Days from the Bid/ Issue Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

85. *Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.*

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

86. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and wide-spread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder of our Company than as a shareholder of an entity in another jurisdiction.

Details of the Objects

1. Repayment/ prepayment, in full or in part, of certain outstanding borrowings availed by our Company and our Material Subsidiary, namely, SRP Prosperita Hotel Ventures Limited

The loan facilities entered into by our Company and our Material Subsidiary includes borrowing in the form of, *inter alia*, term loans and working capital facilities. For further details, see “*Financial Indebtedness*” beginning on page 346. As of May 31, 2025, we had total borrowings of ₹ 6,191.50 million on a consolidated basis. Further, for brief financial highlights of our Material Subsidiary, see “*History and Certain Corporate Matters – Our Subsidiary – Brief Financial Information*” on page 227.

We propose to utilise an estimated amount of ₹ 4,136.90 million and ₹ 544.50 million aggregating to ₹ 4,681.40 million from the Net Proceeds towards repayment/ prepayment, in full or in part, of all or a portion of certain borrowings availed by our Company and our Material Subsidiary, respectively, which constitutes 75.61 % of our total outstanding borrowings, on a consolidated basis, as of May 31, 2025. We intend to utilise the entire amount earmarked for this object during Fiscal 2026 in relation to repayment / prepayment of certain outstanding borrowings of our Company and during Fiscal 2026 in relation to repayment / prepayment of certain outstanding borrowings of our Material Subsidiary.

The repayment/ prepayment will help our Company and Material Subsidiary reduce outstanding indebtedness, assist us in maintaining a favourable debt-equity ratio, reduce our interest outflow and enable utilisation of some additional amount from our internal accruals for further investment in business growth and expansion. In addition, we believe that our debt-equity ratio will improve, which will enable us to raise additional funds/ capital at competitive rates in the future to fund potential business development opportunities and plans to grow and expand our business in the future. Further, the aggregate amount to be utilised from the Net Proceeds towards repayment/ prepayment of outstanding borrowings availed by our Company and our Material Subsidiary (including refinanced or additional borrowings availed, if any, or otherwise), in part or in full, would not exceed ₹ 4,681.40 million.

ANNEXURE 1

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND TO THE SHAREHOLDERS OF THE COMPANY UNDER THE DIRECT TAX LAWS

Outlined below are the special tax benefits available to the Company and to its shareholders under the Income-tax Act, 1961 ('the Act') as amended by the Finance Act 2025, i.e., applicable for the Financial Year 2025-26 relevant to the Assessment Year 2026-27, as amended and presently in force in India (together, the "Direct Tax Laws").

A. SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE COMPANY

1. Lower corporate tax rate under section 115BAA of the Income Tax Act, 1961

A new section 115BAA has been inserted in the Act by the Taxation Laws (Amendment) Act, 2019 ("the Amendment Act, 2019") w.e.f. April 1, 2020 (A.Y. 2020-21). Section 115BAA grants an option to a domestic company to be governed by the section from a particular assessment year. If a company opts for section 115BAA of the Act, it can pay corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and education cess of 4%). Section 115BAA of the Act further provides that domestic companies availing the option will not be required to pay Minimum Alternate Tax (MAT) on their 'book profits' under section 115JB of the Act.

However, such a company will no longer be eligible to avail specified exemptions/ incentives under the Act and will also need to comply with the other conditions specified in section 115BAA. Also, if a company opts for section 115BAA, the tax credit (under section 115JAA), if any, which it is entitled to on account of MAT paid in earlier years, will no longer be available. Further, it shall not be allowed to claim set-off of any brought forward loss arising to it on account of additional depreciation and other specified incentives.

The Company has evaluated and opted for the lower corporate tax rate of 25.168% (prescribed under section 115BAA of the Act) with effect from Assessment Year 2024-25.

2. Deduction in respect of inter-corporate dividends – Section 80M of the Income Tax Act, 1961

Up to 31st March 2020, any dividend paid to a shareholder by a company was liable to Dividend Distribution Tax ("DDT"), and the recipient shareholder was exempt from tax under section 10(34) of the Act. Pursuant to the amendment made by the Finance Act, 2020, DDT stands abolished, and dividend received by a shareholder on or after 1st April 2020 is liable to tax in the hands of the shareholder. The Company is required to deduct Tax Deducted at Source ("TDS") at applicable rate specified under the Act read with applicable Double Taxation Avoidance Agreement (if any).

With respect to a resident corporate shareholder, a new section 80M has been inserted in the Act to remove the cascading effect of taxes on inter-corporate dividends during FY 2020-21 and thereafter. The section provides that where the gross total income of a domestic company in any previous year includes any income by way of dividends from any other domestic company or a foreign company or a business trust, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the amount of income by way of dividends received from such other domestic company or foreign company or business trust as does not exceed the amount of dividend distributed by it on or before the due date. The "due date" means the date one month prior to the date for furnishing the return of income under sub-section (1) of section 139 of the Act.

3. Buyback of shares – Section 115QA of the Income Tax Act, 1961

Any amount distributed by the Company pursuant to buyback of shares undertaken prior to October 1, 2024, from its shareholders shall be liable to buyback tax at 23.296% in the hands of the Company on distributed income (buyback price less issue price). Further, such transaction shall be exempt in the hands of the shareholders under section 10(34A) of the Act.

Pursuant to amendment in Finance Act (No.2) 2024, the provisions of section 115QA shall not apply for buy back of shares which takes place on or after October 01, 2024. Thus, there would be no tax on buy back for the Company effective from October 01, 2024.

Further, the Company is required to withhold tax at 10% provided the aggregate amount of dividend to the resident shareholders exceeds ₹ 5,000 during the financial year. Further, for non-resident shareholders tax shall be withheld at 20, subject to benefit under Double Taxation Avoidance Agreement.

B. SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE SHAREHOLDERS OF THE COMPANY

1. Dividend income earned by the shareholders would be taxable in their hands at the applicable rates for resident shareholders. Further, as per Section 115A of the Act, a non-resident (not being a company) or of a foreign company, includes any income by way of Dividend, the amount of income-tax calculated on the amount of income by way of dividends shall be at the rate of 20% subject to fulfilment of prescribed conditions under the Act.

2. In case of domestic corporate shareholders, deduction from dividend income would be available under Section 80M of the Act on fulfilling the conditions (as discussed above). Further, in case of shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of Individuals, whether incorporated or not, surcharge would be restricted to 15% (instead of peak surcharge rate of 37%), irrespective of the amount of dividend.
3. In case of dividend income earned by domestic shareholders, reported under the head “Income from other sources”, shall be computed after making deduction of a sum paid by way of interest on the capital borrowed for the purpose of investment. However, no deduction shall be allowed from the dividend income, other than deduction on account of interest expense, and in any previous year such deduction shall not exceed 20% of the dividend income under section 57 of the Act. Further, no deduction shall be available against dividend income resulting from buy-back of shares.
4. As per Section 112A of the Act, long-term capital gains arising from transfer of an equity share, or a unit of an equity-oriented fund or a unit of a business trust, which takes place before July 23, 2024, shall be taxed at 10% (without indexation) of such capital gains subject to fulfilment of prescribed conditions under the Act and Notification No. 60/2018/F.O.370142/9/2017-TPL dated 1 October 2018. In case of non-resident (not being a company) or a foreign company, the amount of income-tax on long-term capital gains arising from the transfer of a capital asset (being unlisted securities or shares of a company not being a company in which the public are substantially interested), which takes place before July 23, 2024 shall be calculated at the rate of 10% without giving effect to the first and second proviso to section 48.

Further, where the tax payable is payable in respect of any income arising from the transfer of a long-term capital asset, being listed securities or zero-coupon bond, which takes place before July 23, 2024 then such income will be subject to tax at the rate of 10% of the amount of capital gains before giving effect to the provisions of the second proviso to section 48.

Pursuant to amendment in Finance Act (No.2) 2024, long term capital gains arising from the transfer of above securities, which takes place on or after July 23, 2024 will be taxable at 12.5% (without indexation). Further, in case of non-resident, capital gain shall be computed without giving effect to first and second proviso to section 48, except in case listed securities or zero-coupon bond, where first proviso of section 48 is available.

Further, post enactment of Finance Act (No.2) 2024, capital gains arising from transfer of capital assets held for more than 12 months shall be considered as Long term capital gain, else short term capital gain.

6. As per Section 111A of the Act, short term capital gains arising from transfer of an equity share, or a unit of an equity-oriented fund or a unit of a business trust which takes place before July 23, 2024 shall be taxed at 15% subject to fulfilment of prescribed conditions under the Act.

Pursuant to amendment in Finance Act (No.2) 2024, short term capital gains arising from the transfer of above securities, which takes place on or after July 23, 2024 will be taxable at 20%.

7. Any payment received by the shareholders from the Company pursuant to buyback of shares undertaken prior to October 1, 2024 shall be exempt under section 10(34A) of the Act. Pursuant to amendment in Finance Act (No.2) 2024, any payment received by the shareholders from the Company on or after October 1, 2024 on account of buy back of shares shall be taxable as dividend as per newly introduced section 2(22)(f). Also, no deduction from such dividend income shall be allowed.

Further, section 46A deems full value of sale consideration of shares bought back as nil and consequently, cost of acquisition of shares bought back would be allowed as capital loss unless such shares are held as stock-in-trade. In case, such shares are held as stock-in-trade, cost of acquisition of shares bought back shall be allowed as business loss. In addition, such loss shall be allowed to be carried forward and set off, subject to provisions of section 74 and section 72 of the Act, as the case may be.

Statement of Special Tax Benefits available to SRP Prosperita Hotel Ventures Limited under the applicable Direct and Indirect Tax Laws in India

ANNEXURE A TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO Subsidiary UNDER THE APPLICABLE DIRECT TAX LAWS IN INDIA

Outlined below are the special tax benefits available to Subsidiary under the Income-tax Act, 1961 and the rules, circulars and notifications thereunder (hereinafter referred to as 'IT Act'), as amended by the Finance Act 2025 and applicable for Financial Year 2025-26 relevant to Assessment Year 2026-27

Provisions under which Special Tax benefits can be availed by Subsidiary under IT Act are as follows:

1. Lower corporate tax rate under section 115BAA of the IT Act.

A new section 115BAA has been inserted in the Act by the Taxation Laws (Amendment) Act, 2019 ("the Amendment Act, 2019") w.e.f. April 1, 2020 (AY 2020-21). Section 115BAA grants an option to a domestic company to be governed by the section from a particular assessment year. If a company opts for section 115BAA of the Act, it can pay corporate tax at a reduced rate of 22% (plus applicable surcharge and education cess). Section 115BAA of the Act further provides that domestic companies availing the option will not be required to pay Minimum Alternate Tax (MAT) on their 'book profit' under section 115JB of the Act. However, such a company will no longer be eligible to avail certain specified exemptions/ incentives under the Act and will also need to comply with certain other conditions specified in section 115BAA of the Act. Also, if a company opts for section 115BAA, the tax credit (under section 115JAA), if any, which it was entitled to on account of MAT paid in earlier years, will no longer be available. Further, it shall not be allowed to claim set-off of any brought forward loss arising to it on account of additional depreciation and other specified incentives.

Subsidiary has opted to pay concessional tax rate under Section 115BAA of the Act for AY 2024-25 and hence it shall not be eligible to claim and carry forward the MAT credit available. Further, Subsidiary shall not be allowed to claim set-off of any brought forward loss arising to it on account of additional depreciation and other specified incentives.

2. Deduction in respect of inter-corporate dividends – Section 80M of the IT Act

Up to 31 March 2020, any dividend paid to a shareholder by a company was liable for Dividend Distribution Tax ("DDT"), and the recipient shareholder was exempt from tax. Pursuant to the amendment made by the Finance Act, 2020, DDT stands abolished, and dividend received by a shareholder on or after 1 April 2020 is liable to tax in the hands of the shareholder. Subsidiary is required to deduct tax at source ("TDS") at applicable rate specified under the Act read with applicable Double Taxation Avoidance Agreement (if any). With respect to a resident corporate shareholder, a new section 80M has been inserted in the Act to remove the cascading effect of taxes on inter-corporate dividends during FY 2020-21 and thereafter. Subject to the fulfilment of prescribed conditions, the section provides that where the gross total income of a domestic company in any previous year includes any income by way of dividends from any other domestic company or a foreign company or a business trust, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the amount of income by way of dividends received from such other domestic company or foreign company or business trust which does not exceed the amount of dividend distributed by it on or before the due date. The "due date" means the date one month prior to the due date for furnishing the return of income under sub-section (1) of section 139 of the Act.

3. The following benefits are available to Subsidiary under Capital Gains:

There are no special tax benefits available to the Company under capital gains.

NOTES:

1. The above statement of special tax benefits sets out the provisions of the IT Act in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.

2. The above statement covers only certain special tax benefits under the IT Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This statement also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.

3. The above statement of special tax benefits is as per the current direct tax laws for the Financial Year 2024-25 relevant to the assessment year 2025-26. Several of these benefits are dependent on **Subsidiary** fulfilling the conditions prescribed under the relevant provisions of the Taxation Laws.

4. This statement is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.

5. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

Overview of Key Market Characteristics

Some key characteristics of India’s hospitality industry are briefly set out herein to provide a better understanding of the market and more particularly the upper-tier and midscale segments.

Hotel Supply in India¹

- India has 204k chain affiliated hotel rooms, across segments, as at 31 March 2025. Supply at independent hotels is widely fragmented and substantially of midscale or lower positioning.
- Supply composition has evolved over the years creating greater depth and balance across segments, with 33.9% supply share for the Luxury-Upper Upscale segments, 38.4% for the Upscale - Upper Midscale segments and 27.7% for the M-E segments as at 31 March 2025.
- Geographic spread of hotels continues to widen. Supply share at Key Markets (Mumbai, Delhi-NCR, Bengaluru, Chennai, Hyderabad, Kolkata, Pune, Ahmedabad, Goa and Jaipur) declined from 69% at Fiscal 2015 to 57% at Fiscal 2025, and is estimated at 49% by Fiscal 2030; 66% of supply expected between Fiscal 2026 and Fiscal 2030 is outside the Key Markets.
- Share (measured by rooms) of international chains has risen from 21% in Fiscal 2001 to 45% for the last ten years; this is expected to be at 47% at end Fiscal 2030.
- Hotel ownership is materially led by private sector developers / institutional investors. Hotel chain and chain-led ownership of hotel rooms declined from 71% (Fiscal 2001) to 25% (Fiscal 2025); 28% of rooms supply as at Fiscal 2025 is under listed company ownership.

Hotel Demand

- Demand for chain affiliated hotels has increased from 61k rooms per day for Fiscal 2015 to 116k rooms per day for Fiscal 2024 to 127k rooms per day at end of Fiscal 2025. Demand grew at 9.9% CAGR² between Fiscal 2001 and Fiscal 2025, including at 7.6% CAGR between Fiscal 2015 to Fiscal 2025. Demand growth in the last 3 years, was at 5.6% CAGR between Fiscal 2023 and Fiscal 2025.
- Domestic travel visits aggregated 2.3 billion for calendar year 2019. Post Covid recovery was sharp with 1.73 billion visits for calendar year 2022 and 2.51 billion visits for calendar year 2023³. Data for calendar year 2024 is not available, though a reasonable increase is expected to have occurred.
- FTA was above 10 million for calendar year 2017-2019 and recovered, post Covid, to 9.2 million for calendar year 2023. FTA for calendar year 2024 was 9.7 million, 1.4% higher than calendar year 2023. FTA numbers have been impacted since H2-24 due to drop in flow of visitors from Bangladesh. Substantial FTA growth is forecast by HAI; FTA would likely gain momentum from increased cross-border business and investment opportunities and trade agreements with major global economies, and a push to draw more inbound leisure travel.
- The hospitality industry suffered severely due to travel restrictions during the Covid-19 pandemic; recovery of travel was impacted during different waves of the pandemic and due to varied restrictions in overseas source markets. On the other hand, the industry showed remarkable resilience and recovery appetite when restrictions were loosened and then dropped.

Travel and Tourism Contribution

¹ Source: Horwath HTL India

² Source: Horwath HTL India

³ Source: Ministry of Tourism, Govt. of India estimates

- a. HAI estimates FTA to cross 30 million by calendar year 2037; a Booking.com and McKinsey study estimates around 5 billion domestic visits by calendar year 2030. Longer term HAI estimates, for calendar year 2047, are 15 billion domestic visits and 100 million FTA.⁴ Growth of FTA will strengthen hotel ADRs, particularly for the upper-tier hotels.
- b. Per WTTC, the travel and tourism sector's contribution to India's economy was ₹ 15.7 trillion and ₹ 19.1 trillion for calendar year 2022 and calendar year 2023 respectively. As per the WTTC Economic Impact Factsheet released on 28 June 2024 the travel and tourism sector's contribution to India's economy was estimated at ₹ 21.2 trillion for calendar year 2024 and forecasted at ₹ 43.3 trillion for calendar year 2034, growing at 7.4% CAGR from calendar year 2024 to calendar year 2034.⁵
- c. The sector is estimated to employ 45.4 million people in calendar year 2024, up by 5.6% from 43 million people at end calendar year 2023.⁶
- d. HAI estimates the hotel sector GDP contribution at USD 40 billion, USD68 billion and USD 1 trillion in calendar years 2022, 2027 and 2047 respectively, with significant multiplier benefit⁷. The sector creates assets, employment, foreign exchange earnings and tax revenues.
- e. Per WTTC, domestic visitor spending in India of ₹ 14.6 trillion in calendar year 2023, is 15% higher than for calendar year 2019. Domestic visitor spending is estimated to increase to ₹ 16 trillion in calendar year 2024, and forecast to increase to ₹ 33.9 trillion by calendar year 2034⁸, growing at 7.8% CAGR between calendar year 2024 and calendar year 2034.⁹

Future demand drivers: Demand will be driven by diverse domestic and inbound travel needs - business, leisure, MICE, weddings, social events, pilgrimages and other personal travels, political and business delegations and airline crew. Each segment is expected to be robust based on a growing economy, improved and further expanding travel infrastructure, new convention centres, wider airline services and demand for international and national sport and entertainment sector events. Continued urbanisation, changing demographics and lifestyles, with greater search for experiential travel elements and willingness to spend on entertainment, recreation, wellness and lifestyle will drive discretionary travel and spends.

Demographics: Relevant demographic changes, which are in turn expected to create demand potential for different hotel services, include – (a) increased urbanisation – per a United Nations study, India is projected to add 416 million urban dwellers by calendar year 2050¹⁰; (b) growing middle class, estimated at 432 million in Fiscal 2021, 715 million in Fiscal 2031 and 1,015 million by Fiscal 2047¹¹; (c) younger population, estimated at 371 million in calendar year 2021 (27.2% of total population)¹² with the youth-bulge lasting till calendar year 2055, with willingness to spend on entertainment, recreation, lifestyle, and experiences.

A report by Booking.com and McKinsey projects domestic spend on tourism to rise by 170% from USD 150 billion in calendar year 2019 to USD 410 billion in calendar year 2030, gaining from growing household earnings and a median age of 28.1 years.¹³ The report ranks Bengaluru, Chennai and Hyderabad at the second, fourth and sixth positions respectively as popular destinations among the top 10 visited destinations in India.¹⁴

Key long-term attributes for India's hotel sector include (a) robust domestic travel sector and potential for FTA growth; (b) material expansion of airport infrastructure and airline capacities; (c) spread of new travel destinations, religious destinations and city micro-markets; (d) demand emergence and push from sports, entertainment and performing arts events; (e) widening private sector investment in the sector, including provision for 100% FDI under the automatic route; (f) rising land costs continuing to pose significant barriers to entry. Achievement of the FTA and Domestic travel numbers, stated in above, would create very significant demand growth for hotels.

India – Macro Economic Overview

India GDP: Among the fastest growing economies in the world

In Fiscal 2024, India was the 5th largest global economy with estimated Nominal Gross Domestic Product (GDP) at current prices of United States Dollars (USD) 3.64 trillion¹⁵, reflecting 9.2% GDP growth and is expected to surpass USD 4 trillion in Fiscal 2026, becoming the fourth largest global economy.¹⁶ Per the Economic Survey of India Fiscal 2025, issued by Ministry of Finance, GOI, India's Real GDP is expected to grow by 6.4% in Fiscal 2025 and between 6.3% to 6.8% in Fiscal 2026, thereafter by 6.5% till Fiscal 2030.¹⁷

Manufacturing and Service Sectors

Manufacturing Sector

Manufacturing GVA has almost doubled between Fiscal 2012 and Fiscal 2024, more recently benefitting from initiatives such as Make In India and the Production Linked Incentive (PLI) programs.

Production Linked Incentive (PLI) schemes introduced in 2021 by the Indian government to push domestic manufacturing and employment opportunities in 14 key sectors, has since its inception and up to October 2024²⁰ resulted in:

- Investments exceeding ₹ 1.61 trillion
- Production and sales aggregating ₹ 14 trillion
- Creation of around 1.5 million jobs
- ₹ 140.2 billion in incentives is disbursed to ten sectors since inception

The government of India will not extend the current production deadlines for the current participants nor extend this scheme beyond 14 sectors.

Services Sector

Services sector is among the fastest growing in the Indian economy. Between Fiscal 2016 and Fiscal 2020, the set comprising trade, hotels, transport, communication and services related to broadcasting grew at 7.8% CAGR; the set of financial, real estate and professional services grew at 6% CAGR.²¹

The Services PMI Business Activity Index for the same period, also reflected growth benefitting from a positive demand environment and gain of new business and output volumes.

India is a software hub for exports. Karnataka, Tamil Nadu, Kerala and Telangana contributed about 65% of India's IT and ITeS exports for Fiscal 2024, with operations mainly driven from Bengaluru, Chennai, Kochi and Hyderabad respectively.

India and Select States – IT and ITeS Exports – Fiscal 2015 to Fiscal 2024 (₹ crores)

Source: STPI and Ministry for Electronics and Information Technology via Digital Sansad

All India STPI registered IT exports increased by ₹ 949 billion in Fiscal 2024 over Fiscal 2023. In Fiscal 2024, Karnataka, Telangana and Tamil Nadu contributed 57%, 19% and 7% respectively of the all-India increase. Per National Association of Software and Services Companies (NASSCOM), overall India's IT exports revenue for Fiscal 2025 is estimated at USD 224 billion, growing at a CAGR of 9.4% between Fiscal 2015- Fiscal 2025.²²

Karnataka leads, with 43% share of all India IT and ITeS exports in Fiscal 2024, and reasonably steady significant share for several past years.

Key Demographic Aspects

Increased Urbanisation:

India's urban population increased from 28% in calendar year 2001 to 31% in calendar year 2011 and was further projected to increase to 37% in calendar year 2024; urbanization is under penetrated in India compared to USA (84%), UK (85%) and China (66%). Nevertheless, India was estimated to have second largest urban population in the world, comprising of 530 million in calendar year 2024 and growing to 675 million by calendar year 2035²³.

India currently has 5 megacities with population > 10 million, Pune, Hyderabad and Ahmedabad are expected to become megacities by calendar year 2030.²⁴ Cities and towns have expanded, creating multiple micro-markets and business districts. Urbanisation creates the need for jobs, attracting investment and development of multiple business sectors. Growth in business and business opportunities due to increased urbanisation is evidenced by increase in air traffic, wider real estate activity, and growth of hotels in several existing and newer markets.

Karnataka, Tamil Nadu, Kerala and Telangana are expected to have more than 50% urban population by calendar year 2036.²⁵

Rising Middle Class and High-Income Population:

India's middle-class population is expected to grow from 432 million for Fiscal 2021 to 715 million in Fiscal 2031 and 1,015 million by Fiscal 2047, moving ahead of US and China within this decade. The middle class spans a wide economic segment. Further, the share of high income population, relative to the total population, is expected to increase from 3% in Fiscal 2016 to 26% for Fiscal 2047.²⁶

Increasing income levels are demonstrated by a robust growth in its middle-class and high-income population. Middle-class population (income of ₹ 0.5 million to 3 million per annum) grew at 4% CAGR between Fiscal 2016-2021, increasing its share from 26% to 31% over the period. This segment is further projected to grow and is estimated to represent approximately 47% of the population by Fiscal 2031. High-income households (income > ₹ 3 million) had 37 million population in Fiscal 2016 and is projected to be 437 million in Fiscal 2047 increasing at 8% CAGR.²⁷

Rising middle class and high-income population is an important demand driver for the hospitality sector, using midscale and upscale hotels and with aspirational demand for upper upscale hotels. The middle class slowly graduates upwards, with greater affordability and attitudinal and lifestyle changes creating demand potential for different services (rooms, F&B, functions, entertainment) at upper tier and upper midscale hotels.

Young Population (15-29 Years):

India is now the world's most populous nation, estimated at 1.4 billion people in calendar year 2023.²⁸ India's young population increased from 223 million in calendar year 1991 to 333 million in calendar year 2011, 360 million in calendar year 2016, and 371 million in calendar year 2021 (27.2% of total population – the largest youth population globally).²⁹ The demographic window of opportunity - a "youth bulge" (growth in youth as a share of total population) in the working-age population, is expected to last till

calendar year 2055.³⁰

In calendar year 2023, the median age for India was estimated at 28.1 years which is 9.9-20.9 years younger than the median age for the G-7 countries. India's median age is projected to remain below 30 years, until calendar year 2030.³¹

The large working age population will require jobs, placing importance on employment creation. The hotel and tourism sector has substantial ability to create jobs, directly and as a multiplier effect, if the sector is sufficiently enabled. A large working population also carries enhanced discretionary spend propensity which could benefit the hotel sector.

Increased Consumer spending:

India has seen increased consumer spending in the last 5 years, gaining from a larger and younger workforce, increase in double income families, a trend towards consumerism and lesser savings, and willingness to take credit card and other unsecured debt for consumer spending. Consumer spending grew to ₹ 102.8 trillion in calendar year 2024, increasing by 7% compared to ₹ 96 trillion in calendar year 2023.³²

Urban average monthly consumption expenditure per person has increased by ₹ 4,366 (166%) between Fiscal 2012 and Fiscal 2024.³³ Increased spend patterns auger well for travel and F&B spends at hotels in India.

Due to high inflation and economic uncertainty, FMCG sector observed a slowdown until December 2024, primarily in urban areas. However, government's move to boost consumer spending through personal income tax cuts in Fiscal 2025 budget — especially among the middle class — will help to grow consumer demand.³⁴

Stable inflationary environment: Inflation environment in India has been relatively stable over the past few years (post COVID) with Fiscal 2024 consumer price index (“CPI”) inflation YoY % reported at 4.8%. CPI Inflation, reflected as a CAGR for Fiscal 2014-YTD February 2025 was 4.8% for India, 3.4% for South Africa, 7.4% for Russia and 5.8% for Brazil.

Demand Overview and Characteristics

Key Demand Drivers

The key demand drivers for hotels are:

- Business Travel** - Inbound and domestic visitation for business related purposes, including travel on corporate account and by individual business travellers. Demand typically predominates between Monday and Thursday, slowing towards the weekend or public holidays; domestic business travellers at upscale and mid-priced hotels often stay through till Saturday. Business travel also slows during vacation periods.

The services sector (IT, BFSI, professional services) and manufacturing sector are significant drivers for business travel.

- Tourism** - India is known for its rich cultural heritage, historical sites (several of which are UNESCO heritage sites), diverse landscapes, and vibrant festivals. Growth of domestic and inbound tourism contributes significantly to the demand for hotels.
- Leisure Travel** - This is discretionary in nature and comprises long / short vacations, staycations at city hotels, weekend stays for recreation and entertainment, leisure attached to a business trip or to a trip for weddings and meetings. Greater affordability

and spend propensity, changing lifestyle, and improved connectivity have materially benefitted hotels with good F&B, recreation and entertainment facilities.

- d. MICE Travel – For corporate, government, institution and association events (conventions, conferences, retreats, incentives, promotions, training programs, customer-facing events, staff events etc). Corporate and government demand is mainly during the working week or on Saturday; institution and association demand can be on weekends. MICE demand occurs through the year, barring main holiday periods and the months from March through May. Cities with international convention centres are able to attract large international events.
- e. Weddings and Social demand - This segment comprises destination weddings and other social / celebratory events, as well as substantial use of hotels for weddings and social events for local (non-residential) events. The trend for hosting weddings in city hotels or as destination weddings has grown materially and is gaining further momentum, as it percolates to the mid-market segment. Several city hotels attract large residential weddings, akin to destination weddings in leisure centres. Social travel also occurs for other social obligations and person / family visits.
- f. Diplomatic Travel - Government leaders and representatives of other countries, often accompanied by large trade delegations, and diplomats using upper-tier hotels during the transition period on postings to India.
- g. Airline Crew - Helps create a core of demand at hotels, albeit at significantly discounted pricing. Airlines also generate limited demand for layovers when flights are significantly delayed.
- h. Transit Demand – Comprises person on overnight stay during air or road trip to a domestic or international destination. Each demand segment attracts domestic and inbound travel of varying measures, depending upon the hotel and destination character. Demand quantum, profile and rate paying capacity are also impacted by seasonality factors which may apply differently to business and leisure hotels. The months from October through March of any Financial Year are materially busier than the summer and monsoon seasons.

MICE Demand

MICE demand contributes hotel revenue for rooms, F&B and other services arising from various business and social events; weddings; corporate, institutional and government sponsored meetings, conferences and conventions; sports related events; performing arts and other events. Varied segments may apply to different hotels and markets. New convention centres will draw varied domestic and international events demand with related additional MICE demand at upper tier hotels that have sizeable function spaces.

MICE events have contributed to the growth of F&B revenues to 31% share and ₹ 51 billion in Fiscal 2024 for certain listed companies. Refer to the table below titled “F&B and Total Revenue - Select Listed Hotel Companies (Rs. Million)”.

The G20 events from December 2022 to September 2023 took international visitors to multiple destinations and provided occupancy, rate and revenue boost to hotels. Bengaluru, Gandhinagar, Chennai, and Hyderabad hosted 11, 6, 5 and 4 G20 events / meetings respectively. Such events serve as a basis to draw other international and national events and delegations.

The trend for hosting weddings in city hotels or as destination weddings is expected to continue, in fact gaining momentum as the practice percolates to the mid-market segment. City hotels also benefit from destination wedding concepts. Additionally, the trend of greater importance to various celebratory occasions (anniversaries and landmarks) creates social demand at city hotels and resorts.

Sport based demand has gained momentum and will likely gain demand strength in the future – international, national, and league events across various sports (cricket, hockey, kabaddi, and football) are creating sizeable demand, across various price segments. Newer leagues are starting up, including for women. Demand comprises for team members, officials, support staff, and visiting spectators and includes demand for training in the lead up to the tournaments.

Foreign Tourist Arrivals (FTA)

FTA aggregated 10.1 million, 10.6 million and 10.9 million for calendar year 2017, calendar year 2018 and calendar year 2019 respectively, achieving the 10 million mark for the first time in calendar year 2017. After the Covid period decline, FTA recovered to 6.2 million for calendar year 2022 (partially constrained by the Omicron wave during the normally very busy months of January and February 2022) and further to 9.2 million for calendar year 2023 (84% of calendar year 2019 arrivals).

FTA for calendar year 2024 was 9.7 million, up by 1.4% from 9.5 million for calendar year 2023. While FTA for H1-CY2024 reflected 9.1% y-o-y growth. FTA numbers have been impacted since H2-CY24 due to drop in flow of visitors from Bangladesh.

Source: Ministry of Tourism, Govt. of India

Cross-border travel is impacted by several factors including security, health, political and economic issues at the destination or source markets. High air fares are currently a constraint as global airlines cope with aircraft and staffing shortages. In past years, FTA was impacted by events such as Mumbai terror attacks on 26 November 2008, global financial crisis, economy related issues in Russia and Europe, COVID-19 pandemic or business failure of major tour operators in Europe.

Seasonality of FTA is reflected in the chart below. The winter months are clearly preferred for travel into India for leisure, MICE events, leadership level business travel and high-end destination weddings.

FTA Seasonality in Millions (CY 2001- 2024)

*Does not include Covid years - CY 2020 and CY 2021

Source: Ministry of Tourism, Govt. of India

FTA has picked up in the last nine years and the degree of seasonality is more marked with material rise in demand in last quarter

of a calendar year.

E-visa

Electronic Visa (E-visa) scheme was made available effective November 2014, initially for nationals of 43 countries. As on December 2024, nationals of 173 countries are covered under the e-visa scheme, successfully enabling inbound visitors to come in with short lead-time. FTA using E-visas increased from 0.7 million in Fiscal 2016 to 2.86 million in Fiscal 2020, before declining during Covid pandemic.³⁵ Current data is not available.

Domestic Tourism

Domestic Travel Visits

Domestic travel visits grew at 13.5% CAGR between calendar year 2001 – calendar year 2019, from 236 million visits in calendar year 2001 to 2.3 billion visits in calendar year 2019. Domestic travel numbers at 2.51 billion visits for calendar year 2023 have surpassed calendar year 2019 (pre-COVID) by 8%, reflecting strong rebound of travel and an increase of 45% over 1.7 billion visits for calendar year 2022. While data for calendar year 2024 is not available, a reasonable increase is expected to have occurred. The domestic sector has become a key demand generator with leisure, recreation, weddings and MICE demand driving weekend and off-season occupancies and enabling hotels and resorts to achieve significantly higher occupancies. ‘How India Travels 2023?’ report by Booking.com and McKinsey estimates 5 billion domestic travel visits by calendar year 2030. Vision 2047 report by HAI expects 15 billion domestic visits and FTA of 100 million by calendar year 2047.

India – Domestic Tourists (million)

Leisure, staycations, remote working from resorts, and weddings demand were the mainstay of domestic demand revival from the Covid pandemic. Domestic travel is expected to maintain strong growth, particularly as a large middleclass population, young working population, and overall increased individual incomes drive more discretionary travel, and with supply creation across wider markets (including religious destinations) and segments. The domestic sector contributes weekend and off-season occupancies in addition to business travel, leisure and recreation, weddings and MICE demand, enabling hotels to achieve significantly higher occupancies and room rates than earlier years. Hotel demand will also grow from domestic social visits, family events, and travel to pilgrim centres.

The table below reflects the demand contribution by foreign and domestic visitors at different hotel segments.

Domestic Spend value on Tourism

With growing household earnings and a median age of 28.1 years as of calendar year 2023 (about 10 years younger than most countries) the spend on tourism is projected to rise by 170% from USD 150 billion spent in calendar year 2019 to USD 410 billion in calendar year 2030. A report by Booking.com and McKinsey & Co. has ranked Bengaluru, Chennai and Hyderabad at second, fourth and sixth positions respectively as popular destinations among the top 10 visited destinations in India.³⁶

According to a report by Booking.com and Accenture, Bengaluru, and Chennai have been ranked as the third and fifth among top five cities in terms of hotel bookings searches since the last 5 years; further, Ahmedabad is among the top 10 searched (for online hotel bookings) cities in calendar year 2024. Mysore ranks in the 10th position among the top-rated destinations in India by inbound travellers.³⁷

Per a report by MakeMyTrip, Mysore and Ahmedabad were ranked as fifth position in terms of growth in searches in calendar year 2023 as compared to calendar year 2022, mainly as weekend getaways from nearby metro cities.³⁸

India currently is the world's sixth-largest domestic travel market by spending.³⁹ Hospitality and tourism sector is expected to grow 1.7 times in calendar year 2027 compared to calendar year 2022.⁴⁰

Domestic Air Traffic

As of February 2025, India had 159 operational airports.⁴¹ The number of airports has doubled since calendar year 2014 and aims to reach 350-400 airports by calendar year 2047.⁴² Domestic travel comprises 84% of aircraft movements and 82% of passenger movement at the Indian airports. Domestic passenger movements increased by 44% in calendar year 2019, compared to calendar year 2016, reflecting CAGR of 13%. This growth was driven by opening of new airports, capacity expansions at existing airports and improved connectivity particularly to cities and towns outside the main destinations. An expanded UDAN scheme is proposed in order to further enhance regional connectivity, by adding 120 new destinations and accommodating 40 million passengers over the next 10 years.⁴³

Access Infrastructure

Better roads and airport infrastructure have facilitated domestic and inbound travel growth across established markets and newer markets in tier 2 and tier 3 business cities / towns and newer leisure destinations. Significantly greater highway and expressway linkages, development of new airports, airport expansions and upgrades, and opening of several regional airports through Ude Desh ka Aam Nagrik (UDAN) initiatives have each widened the business, leisure, destination weddings and MICE location options. Travel, across multiple demand segments, is also facilitated by the Vande Bharat train services. As a consequence, travel and demand

numbers have risen at Key Markets, Select Markets and several business and leisure destinations which have expanded their reach or gained newer opportunities; Mysuru is an example of such gain.

Air Traffic

Growth in air travel is a material driver of demand and overall market growth. The Select Markets (Bengaluru, Chennai, Kochi, Gandhinagar (Ahmedabad), Mysore and Hyderabad) had 28.7% share of air traffic for Fiscal 2025, while having 23% supply share of hotel inventory. Growth in air travel for Select Markets is summarized in the chart below. By Fiscal 2024, passenger numbers had fully recovered from the Covid pandemic related decline on All India basis and for all individual Select Markets except Chennai.

Four of the six Select Markets have private-sector led airport development and operations, with periodic capacity expansions. Between Fiscal 2015 and Fiscal 2024, passenger movement (domestic + international) at these Select Markets and on all-India basis grew at 8.6% and 8.0% CAGR. Aggregate passenger capacity at these Select Markets airports by Fiscal 2028, including from expansion of certain airports, is estimated to be 170 million passengers per annum (MPPA).

For Fiscal 2025, airports at the Select Markets handled 118 million passengers (30% of all-India passengers). Arrivals for Fiscal 2024, compared to Fiscal 2019, show that post Covid recovery was largely complete with only Chennai lagging in full recovery., The passenger numbers for Bengaluru, Hyderabad, Chennai, Ahmedabad and Kochi grew by 12%, 16%, 6%, 15% and 7% respectively in Fiscal 2025 over Fiscal 2024.

On all-India basis, Passenger movement (domestic + international) reflected 9.4% growth in Fiscal 2025 over Fiscal 2024.

Bengaluru and Hyderabad Airports: Air traffic at Bengaluru and Hyderabad, at 42 million and 29 million respectively for Fiscal 2025, reflect 319% and 327% growth over Fiscal 2008. Both airports are built under PPP model and have recently been expanded. Bengaluru airport is expected to materially expand over the next 5 years with aggressive growth targets of reaching 90 million passengers by calendar year 2030.⁴⁴ Hyderabad airport expansion has increased the airport's capacity from 12 MPPA to 34 MPPA, and increasing to 45 MPPA by calendar year 30.

Chennai Airport: Terminal 2 is undergoing expansion, expected to be completed in 2026, raising its capacity from 25 to 35 MPPA.

⁴⁴ Source: Kempegowda International Airport Bengaluru

The airport handled 21 million and 17 million passengers for Fiscal 2024 and Fiscal 2025 respectively. A second airport is planned at Parandur with first phase capacity of 20 MPPA by January 2029 increasing to 100 MPPA upon completion of Phase 4 of the project by 2047. The airport is intended to have 3 terminals, spread over 5.4k acres.

Ahmedabad Airport: This airport handled 12 million and 13 million passengers in Fiscal 2024 and Fiscal 2025 respectively, surpassing pre-covid levels. Major renovations have been carried out over the past two to three years, that have upgraded the facilities at this airport. The construction of a new integrated terminal building is planned in Fiscal 2026 that will, expand the passenger handling capacity to 20 MPPA.

Kochi Airport: This airport achieved 10 million passenger level for Fiscal 2024, marginally higher than the pre-Covid levels. Fiscal 2025 stands at 11 million, increased by 7% over Fiscal 2024. Terminal 3 of the airport will be undergoing expansion with a built area of 600k sqft.

Mysore Airport: This airport started consistent operations only post Covid, presently with one daily flight to and from Hyderabad and Chennai. The airport runway is proposed to be extended to accommodate larger aircrafts, which will help in increasing connectivity to other destinations. The state government has approved the release of funds for land acquisition and expansion of the runway.

Hotel Inventory - Segment Classification

1. The overview of supply and demand herein focuses on the upper tier (luxury, upper upscale and upscale segments) and mid-tier segments in which BHVL has its hotels and projects.
2. Data is separately presented on all India basis, for Key Markets and for Select Markets. Key Markets comprise the top ten markets in India in terms of hotel room inventory, i.e. the six metro cities (Mumbai metropolitan area, Delhi NCR, Bengaluru, Chennai, Hyderabad and Kolkata), Ahmedabad, Pune, Jaipur and Goa.
3. Select Markets are markets where BHVL has an operating hotel or planned hotel project - Bengaluru, Chennai, Kochi, Gandhinagar (Ahmedabad), Mysore and Hyderabad. Gandhinagar has been presented as part of the larger Ahmedabad market. These hotels are:

Operating Hotels – 9 hotels

- One Upper Upscale hotel – Sheraton Grand Bangalore at Brigade Gateway
- Four Upscale hotels – Grand Mercure Bangalore, Grand Mercure Mysore, Four Points by Sheraton Kochi Infopark, and Grand Mercure Ahmedabad Gift City
- Three Upper Midscale hotels – Holiday Inn Bengaluru Racecourse, Holiday Inn Express & Suites Bengaluru OMR and Holiday Inn Chennai OMR IT Expressway

- Two upper midscale hotels – (i) Fairfield by Marriott Bengaluru International Airport in Bengaluru and (ii) Fairfield by Marriott Bengaluru Brigade Valencia in Bengaluru.

4. BHVL is a subsidiary of Brigade Enterprises Limited. BHVL's hotels are typically located in positive demand locations, driven by factors such as population density, premium neighbourhoods, commercial centres, IT hubs or strong leisure potential. Brigade Enterprises Limited's experience as a real estate developer in India enabled it to lead supply creation of significance in several micro-markets such as Sheraton Grand Bangalore at Brigade Gateway in North-west Bengaluru and Grand Mercure Bangalore in Koramangala area, Four Points Sheraton Kochi Infopark in the IT Park at Kakanad in Kochi and Grand Mercure Ahmedabad Gift City.

Holiday Inn Bengaluru Racecourse Road was the first hotel to offer large inventory (272 rooms) in the upper-midscale segment in its micro-market. It is also the second largest hotel outside the upper tier in Bengaluru. The upcoming Grand Hyatt Chennai ECR and The Ritz Carlton Vaikom Island Kerala will primarily be leisure and group orientated hotels. All hotels are (or are intended to be) managed by or affiliated with global hospitality chains under various brands.

5. In this report Compound Annual Growth Rate (CAGR) between a financial year (start year) and another financial year (end year) is calculated from 31 March of the start year to 31 March of the end year, unless a different set of dates is indicated for any specific item.
6. The analysis of hotel supply and demand principally deals with chain-affiliated hotels, i.e. hotels that are either (i) owned and operated by hotel chains, (ii) operated by hotel chains on behalf of other owners or (iii) operated under franchise from hotel chains. For this purpose, all recognised international chains operating in India and domestic hotel chains that are generally considered as operating under common branding have been included; other domestic chains are considered if they have five or more hotels operating at least regionally in India. For clarity, groups with multiple hotels only within one state are not considered unless these are generally regarded as hotel chains by the market. Companies that primarily operate time-share facilities, one-star hotels and hotels under aggregators (such as Oyo, Treebo and FabHotels) are excluded.
7. Classifications: The hotels are segmented into the Luxury and Upper Upscale (Lux-Upper Up) Segment, Upscale segment, Upper Midscale segment (Up-Mid), Midscale Segment and Economy Segment. The hotels also offer additional facilities such as restaurants, bars, and function facilities for meetings and events, varying for each hotel. Each segment includes entry-level hotels in that segment besides hotels that are more fully of segment standards. These industry terms used for classifying, categorising and segmenting hotels are explained below.
 - Luxury segment typically comprise top end hotels with brand standards, facilities, spaces and standards that are associated with expectations of luxury seeking clientele; in India, these are generally classified as deluxe and luxury hotels. Several brands classify themselves as luxury hotel brands, based on certain criteria (e.g., room size) without having the service standards and consistent guest profile typically associated with true luxury hotels.
 - Upper Upscale segment comprises first-class hotels (generally classified in India as 5 star or deluxe hotels) that offer superior standards, amenities and services though not at a level that affords the exclusivity associated with luxury hotels.
 - Upscale segment comprises hotels which are more moderately positioned and priced, generally with smaller room sizes than the top tier hotels. In India, upscale hotels are generally classified as 4- or 5-star hotels (typically carrying entry level 5 star quality).
 - Upper Midscale segment comprises full service or select service hotels, typically with lesser public areas and facilities and smaller room sizes, which are more moderately positioned and priced than upscale hotels. In India, these would generally be classified as 4 star and sometimes 3-star hotels.
 - Midscale segment typically are 3-star hotels with distinctly moderate room sizes, quality and pricing, and a lower extent of services; domestic brand midscale hotels often offer more services than select service international branded midscale hotels.
 - Economy segment (Eco) are typically 2-star hotels providing functional accommodation and limited services, being focussed on price consciousness.

Classification of hotels into the various segments is based on the definition and method adopted by CoStar for hotels participating with CoStar and followed for data reporting and market comparison by the industry. Segmental classifications are essentially based on the intended positioning and overall rate structure of respective hotel brands; actual standards of individual properties may vary, but adjustment is not made on subjective basis. Hotels considered for our report but which are not participating with CoStar have been classified by us within these segments based on our assessment of positioning of the brand / hotel. If a chain has modified the positioning of a brand, such change would be reflected in current and previous period data. Performance data sourced from CoStar being live and dynamic in nature may reflect differences from data previously reported for the same periods; generally such differences are nominal.

8. This report generally does not cover independent hotels, except to the extent that some independent hotels may have participated in collection of any reported data.

Other Independent hotels have been excluded as these – (a) lack of sufficiently co-ordinated, reliable and consistent data; (b) face increasingly challenged competitiveness against growing presence of chain-affiliated hotels, (c) have longer-term constraints on growth as chain-affiliated supply spreads to second-tier markets and smaller towns; (d) face general reluctance of banks to finance large projects unless these have access to suitable chain marketing and management systems. We believe that an analysis based mainly on chain-affiliated hotels (which competing with any independent hotels in the relevant catchment area) is adequate reflection of the overall market conditions.

All India - Chain Affiliated Hotel Room Inventory

The chart below reflects overall All India Chain affiliated hotel room supply.

All India Chain Affiliated Rooms Supply

Source: Horwath HTL

Major supply growth occurred between Fiscal 2008- Fiscal 2015, fuelled by strong business conditions and positive Occupancy and Average Daily Rate (ADR) trends from Fiscal 2005 through initial months of Fiscal 2009. On the other hand, moderate demand and economic activity from Fiscal 2010 through Fiscal 2014 was not supportive of new project commitments causing slower supply growth for Fiscal 2016- Fiscal 2023; this was exacerbated by the Covid pandemic. Yet, 9.4% CAGR between Fiscal 2001 and Fiscal 2025 reflects material supply addition, although off a small supply base as at Fiscal 2001. 15k rooms have been added in Fiscal 2025. About 68k rooms were added in the seven years from start of Fiscal 2009 to end of Fiscal 2015 and about 36k rooms in the three years from start of Fiscal 2022 to end of Fiscal 2024. Supply addition from Fiscal 2014 to Fiscal 2025 comprises 65% of supply creation over the last 25 years.

Aggregate supply in Select Markets, at 47.7k rooms as at Fiscal 2025, comprises 23% of all India supply; BHVL has 3.4% share of supply in Select Markets. Supply growth, aggregated across the Select Markets is reflected in the chart below, with 4.8% CAGR for Fiscal 2015-Fiscal 2025 which is much lower than 19.2% CAGR for Fiscal 2008- Fiscal 2015.

Select Markets – Aggregate Chain Affiliated Rooms Supply

All India - Expected Supply upto Fiscal 2030

Per data based on announcements upto 1 May 2025, 111k rooms are expected to be added between April 2025 and March 2030. Given the past track record of materialised supply being at a slower rate, actual inventory growth may be smaller or may be delayed from the year in which it is presently indicated. On the other hand, newer conversion efforts may cause some presently unannounced growth to occur somewhat speedily to partially compensate any delays in materialisation of the inventory pipeline of 111k rooms.

Chart 19, 20 and 21 indicates the expected segmental supply through Fiscal 2030, on an all-India basis, for Key Markets and Select Markets. Limited supply may not be operational for some periods, during insolvency resolution processes – such cases will be nominal in the overall context.

Source: Horwath HTL

Expected Key Market Supply (Inventory in 000s)

Source: Horwath HTL

Expected Select Market Supply (Inventory in 000s)

Source: Horwath HTL

Select Markets will see limited new supply of only 13.7k rooms being added through March 30 (12.3% share of new supply between 1 April 25 and 31 March 30). Consequently, the overall supply share of Select Markets will decline from its current level of 22.9% to 19.2%. The new supply is expected to facilitate additional demand creation / absorption so that the overall impact on occupancies in Select Markets will likely be positive, or remain broadly neutral.

34% of supply creation through Fiscal 2030 will occur in Key Markets (including relevant Select Markets) and 66% will occur outside the Key Markets. The wider spread of new supply will likely satisfy latent demand and generate new demand.

From a segmental view-point, about 48% of new supply in Select Markets between 1 Apr 25 and 31 March 30, will be in the Lux-UpperUp segment; 27%, 14% and 11% in the Upscale, Upper-Midscale and Midscale-Economy segments respectively.

All India - Segmental Supply

Segmental supply has evolved significantly since Fiscal 2001, and continues to do so, as reflected in the chart below and the table below.

Midscale-Economy	7.2%	12.8%	21.8%	27.7%	27.0%				

Supply composition has evolved towards greater segmental balance, with lesser concentration of the Luxury and Upper-Upscale segments, and increased supply share and footprint for upscale, upper midscale and Midscale & Economy (M-E) segments. A similar trend is broadly expected through Fiscal 2030 with Up-Mid and M-E segments having nearly 42% share of new supply between Fiscal 2025 and Fiscal 2030.

In absolute numbers, the Luxury, Upper-Up, Upscale, Up-Mid and M-E segments added about 25k, 31k, 39k, 30k and 55k rooms respectively between Fiscal 2001 and Fiscal 2025. (Note: segmental inventory decline in some years is mainly due to brand re-classification/positioning change). M-E segment had the largest CAGR (Fiscal 2001-Fiscal 2025) at 15.7%, contributing 33% to total addition of rooms since Fiscal 2001.

Lux-UpperUp hotels remain extremely relevant to the hotel sector, as reflected by its materially larger contribution to rooms revenue, due to its superior pricing and quality. Refer the table below for segmental revenue share in calendar year 2024. Existing Lux-UpperUp hotels will benefit from a moderate segmental pipeline particularly in major metro cities.

Supply Spread

Supply Spread by Market Category

The Key Markets have nearly 57% of rooms supply as at Fiscal 2025. This is lower than 69% supply share at end Fiscal 2015 as a result of hotels also being developed outside the Key Markets. Hotel rooms supply across market categories is summarised in the table below.

Source: Horwath HTL; Note: Other Key Markets are Pune, Ahmedabad, Jaipur and Goa

- The Key Markets led supply creation between Fiscal 2001- Fiscal 2015. As at Fiscal 2025, supply at the 3 Main Metros is nearly 2.6 times the Other Metros; other Key Markets have larger inventory than the Other Metros. Among all Key Markets, supply growth through Fiscal 2030 will mainly be at the 3 Major Metros Delhi NCR, Mumbai and Bengaluru – 6.8k, 6.3k and 7.6k rooms respectively.
- Supply spread to Other Markets is an important evolution of the industry with 79k rooms added between Fiscal 2001 and Fiscal 2025 and another 73k expected to be added by Fiscal 2030. This will support and foster continued all-India demand growth. Increased urbanisation and improved air / road infrastructure have enabled supply creation and demand generation in Other Markets in the last 10 years with 56% share of supply addition in this period. Hotels in Other Markets tend to be smaller and concentrated at the mid-priced and upscale levels.
- Supply addition in the Select Markets comprised 24.9k rooms between Fiscal 2001- Fiscal 2015 and 17.4k rooms thereafter through Fiscal 2025. Supply growth during Fiscal 2001 – Fiscal 2025 was led by Bengaluru (17.1k rooms) while Chennai, Ahmedabad, Hyderabad, Kochi and Mysuru added 25.2k rooms cumulatively. Bengaluru with 7.6 k rooms is expected to lead the pipeline of 13.7 k rooms for Select Markets.
- Total supply for the Select Markets increased at 4.8% CAGR between Fiscal 2015 and Fiscal 2025. For this period, CAGR for Ahmedabad, Bengaluru, Kochi and Mysore at 6.1%, 5.4%, 5.7% and 5.1% respectively was higher than the overall Select Markets CAGR, while CAGR for Chennai and Hyderabad at 3.8% and 3.5% respectively was lower than the overall Select Markets CAGR.
- While supply expansion outside the Key Markets and segmental spread of supply reflects increasing market maturity and potential for wider demand growth, the resultant changing supply composition impacts market wide rates due to a larger share of mid-priced hotels.
- 6 out of 9 existing BHVL hotels and 4 of the 5 upcoming BHVL hotels are in Key Markets.
- BHVL had 3.8% share in supply creation in the Select Markets between Fiscal 2001-Fiscal 2025 and has 7.0% share in pipeline supply in the Select Markets till Fiscal 2030.

Supply Spread by Foreign and Domestic Chain Affiliation

Between Fiscal 2001- Fiscal 2025, foreign chains have gained material supply share through multiple brands. Hotel development by a widening group of investors and owners has provided the asset base that suits the management / franchise model sought by foreign chains.

Foreign & Domestic Chain Affiliated Supply

Mid-Eco	55%	45%	70%	30%	79%	21%	81%	19%

Source: Horwath HTL

- At Fiscal 2025, foreign chains operate / franchise about 45% of the chain affiliated hotel rooms in India. Their market share was between 44% to 47% for the preceding about nine years, with no significant change expected through Fiscal 2030.
- Foreign chains expanded by aggressively pursuing management contracts, offering multiple brands and supporting the development of hotels with larger rooms inventory and function spaces.
- Several asset heavy domestic chains have gradually shifted to an asset-light or hybrid model (combination of owned properties and management contracts) to enable expansions. Domestic chains have added brand range and successfully positioned products and brands in the Upscale, Up-Mid and M-E segments enabling larger share of new supply in these segments since Fiscal 2015.

Supply Composition – Hotel Chains

Inventory of top 15 chains as of 31 March 2025 is summarised in the chart below:

Rooms Inventory of Top 15 Chains (in 000s)

Notes: (a) Marriott excludes hotels under franchise with ITC Hotels; these are included under ITC Hotels; (b) Louvre Group includes Sarovar; Source: Horwath HTL

- About 78.5% of total inventory is controlled by the top 15 chains
- Seven hotel chains – Marriott, IHCL, Radisson Hotel Group, ITC, Accor and Hyatt– each have 5% or greater inventory share by number of rooms; in aggregate, these chains have 48.6% share of total supply.

Supply - Ownership Analysis

Chain ownership (including lease) of hotel rooms has reduced from 70% at end Fiscal 2001 to 25% at end Fiscal 2025. Private developers and institutional capital have been instrumental in asset creation over the last about 20 years, although there is very limited ownership concentration.

Ownership Pattern – as at Fiscal 2025

	Hotels	%	Rooms ('000)	%
Chain Owned	454	20%	50	25%
Developer / Investor	1,767	80%	154	75%
Total	2,221		204	

Source: Horwath HTL

Hotels with majority ownership/control of private developers are not considered as chain-owned. For clarity, hotels with investments by affiliate / group entity of Accor, Hyatt and Radisson are not considered as chain-owned as the hotel chains do not have controlling interest in the respective companies. The ownership pattern is further analysed in the table below:

Ownership Pattern by Category – as at Fiscal 2025

Ownership Structure	Hotels	%	Rooms (in 000s)	%	Avg Size
Chain Owned	454	20	50	25	111
Major Private Asset Owners ¹	194	9	36	18	187
Other Private Asset Owners ²	1, 538	69	112	55	73
Institutions ³	35	2	6	3	163
Total	2,221		204		92

1 - Major private hotel asset owners comprises group companies owning more than 500 rooms

2 - Other Private hotel asset owners comprises group companies owning less than 500 rooms

3 - Institutions comprises hotels where a majority is owned by institutional investors

Source: Horwath HTL

Major private asset owners have invested in some large format hotel assets; the larger average size of hotels for this ownership category is reflective of the investment appetite, vision and opportunity in India. 5 of the nine hotels with over 500 rooms, and 9 of sixteen hotels with 400 to 499 rooms inventory are owned by major private hotel asset owners. On the other hand, several chains have invested significantly in the mid-priced and economy segments where hotels typically have lesser inventory.

Asset Ownership Benefits

An asset-ownership based model has several merits particularly in terms of (a) asset appreciation; (b) larger earnings gains under strong market conditions, as the gross revenue and profits belong to the hotel chain; (c) advantage in creating better returns, if land

banks are available at historical costs; (d) the ability to create and showcase the value and profitability of differentiated products. While situations such as the Covid pandemic create cash flow stress from asset ownership, to cover fixed costs and debt service burdens, the full flow through of revenues is also an advantage when business recovers.

Several of the hotel chain entities and some developer/investor-controlled entities are listed companies. Analysed on that basis, the ownership pattern emerges as:

Ownership by listed/unlisted companies – as at Fiscal 2025

Ownership	Listed companies		Unlisted companies		Total	
	Hotels	Rooms (000s)	Hotels	Rooms (000s)	Hotels	Rooms (000s)
Hotel Chains	279	37	175	14	454	50

Total	392	59	1,829	145	2,221	204

Source: Horwath HTL

Listed companies comprise (a) hotel companies which are listed companies or subsidiaries of listed companies; and (b) other large listed companies which inter alia have a dedicated hotel portfolio. Listed companies which may inter alia own a hotel asset have generally not been included and are grouped in the table above under unlisted companies.

The first table below summarises the hotel ownership of the top ten major private hotel asset owners of overall who have developed or otherwise own hotels. The second table below pertains to hotels in South India owned by top-five Major Private Investors.

South India. Among the major private hotel asset owners in South India, BHVL is ranked second in terms of number of chain affiliated hotels and hotel rooms as of 31 March 2025, with 8 hotels (12.9%) and 1.5k rooms (12.1%). Future Demand

In this section we have projected future demand. Our estimates of future demand are based on

- Estimated supply and demand growth by market category (for this purpose markets are categorised as 10 Key Markets, other key tier 1 markets and other markets). The total estimated All India demand is an aggregate of supply and demand from these three categories.
- We have adjusted the new hotel supply in Fiscal 2025 for the period for which these hotels were open and for the expected supply from Fiscal 2026 to Fiscal 2030 for the period from when these hotels are likely to open. New hotels are generally on a ramp-up mode upon opening and need a certain period (generally two to four years) to achieve stable level occupancy. As new supply is added in a market it also leads to demand creation. During the ramp-up period we have based our demand projections on partial absorption of new supply.

Supply and Demand CAGR

In the period Fiscal 2016-Fiscal 2025, demand growth for chain affiliated hotels in India across all segments is significantly higher compared to inventory growth, with the trend expected to continue until Fiscal 2030. This will likely cause increased hotel occupancy, and potentially support strong ADR levels.

Supply and Demand CAGR

Market Performance Analysis - India

In this section we provide an analysis of the performance of hotels on all India basis. Data is presented for the full market (comprising hotels of all positioning). Data availability varies from market to market based on extent of participation by hotels. . Occupancy and ADR are typically higher during the January to March quarter compared to the Full Year as it is cyclically favourable period for most of the markets in India.

The chart below shows all-India performance of chain-affiliated hotels from calendar year 2019 through YTD March 2025, across all segments excluding Covid years calendar year 2020 and calendar year 2021.

India Hotel Market Performance

Data Source: CoStar

From a macro-perspective, the following elements emerge:

- The hotel sector had a difficult period from late 2008, mainly because expected demand growth did not occur to match supply created in anticipation of demand growth. The economy and investment climate were not supportive of demand growth; security issues occurred in some years. All India occupancy stagnated at 57-58% between calendar year 2011-14. During this period, supply grew by 41k rooms while demand grew by 28k rooms.
- Typically, the industry sees changes in demand linked to macro-economic cycles. Down cycles see greater travel controls and needs, causing demand to slow or shift to lower hotel categories, a positive macro-economic situation and sentiment fuels travel and demand. Hotel occupancies decline or grow with such movements and in turn impact room rates; slowing occupancy invariably leads to softer room rates.
Rate revival often lags occupancy revival; rates are pushed higher only once hotel managements have greater confidence of business levels. On the other hand, in a positive macro-economic scenario, constraints on bookings push the demand side to pay higher room rates, creating the rate growth seen after the pandemic. Further, a positive business climate creates more positivity in travel and draws a wider profile of international and domestic business travellers – this also helps to improve the rate sentiment.
- Between calendar years 2009-2015, ADR was impacted by the dual factor of slower demand and occupancy generally, and diversification of supply profile so that wider options of quality and price points became available.
- Occupancy revived from calendar year 2015 as demand conditions improved and new supply had slowed. The upward trend in RevPAR upto December 2019 was materially occupancy led, with improved occupancy gradually enabling ADR increases.
- The Covid-19 pandemic was a major disruption with severe travel and operating restrictions causing material drop of occupancies and ADR. Demand recovery started in the late summer of 2020 and then gained momentum; recovery from wave 2 of Covid was much more rapid enabling a strong H2-2021 performance. The Omicron wave was disruptive between mid-December 2021 to February 2022 but then gave way to strong performance through December 2023. Strong occupancies and a recognition of stronger rate needs and potential have enabled much higher ADR levels.
- Annual occupancy for Fiscal 2025 was reported at 64.5%, with ADR of INR 8,235 and RevPAR of INR 5,310.⁴⁵ All-India and market-level ADRs continue to be impacted by changed supply composition, with increased supply share of upscale and lower priced hotels.
- Annual occupancy for calendar year 2024 was reported at 63.9%, with ADR of INR 7,951 and RevPAR of INR 5,078⁴⁶. Monthly occupancies between January and March 2025 ranged from 66% to 73%, with February 2025 peaking at 73%, consistent with the trend of February typically recording the highest occupancy of the year. YTD March 2025 occupancy rose by 2 basis points compared to the same period in 2024 with 12% and 16% increase in ADR and RevPAR respectively⁴⁷.

Performance and Outlook for Select Markets

Bengaluru

Bengaluru Hotel Market Performance

Data Source: CoStar

- The city with predominant IT sector focus has the largest hotel room inventory in India (about 18.2k rooms); it also has 219 msf commercial office space which is the largest in India and among the largest in Asian cities.
- The market was severely impacted during the pandemic and was slow to recover, due to prolonged WFH in the IT & ITeS sectors and lack of inbound travel. Recovery has gained momentum with 'return to office' in the IT & ITeS sectors, increased inbound travel, induction of new joiners, increased MICE activities, and growing activity in the aerospace sector with global companies setting up R&D and manufacturing bases in the Aerospace SEZ near Bengaluru airport.
- An important positive infrastructure is Bengaluru airport which opened a second runway in December 2019 and a second terminal in November 22. Passenger numbers at Bengaluru airport stood at 42 million for Fiscal 2025 reflected 12% growth over Fiscal 2024.
- The IT sector continued to materially work remotely for an extended period, affecting domestic and inbound travel needs; as the return to office has increased, hotels have benefitted. Hotels such as BHVL's Sheraton Grand Bangalore at Brigade Gateway and Holiday Inn Bengaluru RaceCourse, with lesser dependence on the IT sector, were positively placed even as the work from home was sizeable.
- Occupancy for YTD Mar-25 grew to 69%. ADR for YTD Mar-25 was 26% higher than YTD Mar-24,⁴⁸ while RevPar saw +38% increase for YTD Mar-25 over YTD Mar-24.
- CY 2024 ADR at 8k is 8% higher than calendar year 2023 while occupancy increased by three points to 65%. Improved ADR levels in the city have enabled 23% RevPAR increase for calendar year 2024 over calendar year 2019.⁴⁹
- The city benefits from having six distinct micro-markets in terms of actual and potential demand growth. Major events such as Aeroshow and the annual Nasscom conference create beneficial value for hotels across the city. Aeroshow held in Q1-2025 has contributed to the positive results for the quarter.
- Bengaluru has a significant balance of supply share across various price points, thereby causing lower city-wide ADR. The ADR⁵⁰ spread between Lux-Upper Up segment and M-E segment was ₹9k for calendar year 2024 and narrowed to ₹ 8.3k f YTD March 2025.
- Bengaluru demographics, with a growing workforce size and younger profile workforce, point to larger potential for staycations and F&B spends at hotels with the requisite appeal. Sheraton Brigade gains from its integrated lifestyle precinct at Brigade Gateway.

Chennai

Chennai Hotel Market Performance

Data Source: CoStar

- Chennai has bounced back strongly, having achieved its best city-wide performance since calendar year 2008 with 71% occupancy⁵¹ and ₹ 7.3k ADR⁵² in calendar year 2024. For calendar year 2024, the city ranked fourth in Occupancy, among major business cities.
- City achieved 78% occupancy and INR 8.6k ADR as of YTD Mar-25. City performance for YTD Mar-25 reflects material occupancy and ADR gain by 5 points, and 12% respectively.⁵³
- The results were materially enabled by performance of the Lux-Upper Up segment with over 10k and 10.6k ADR⁵⁴ for calendar year 2024 and YTD Mar-25 respectively. Upscale and Upper Mid segment reported strong occupancy at 75% and 78% for calendar year 2024 and YTD Mar-25 respectively.
- Demand is led by business travel, MICE, weddings and crew. Chennai being a state capital draws demand from official business delegations for interaction with the government; bulk of demand is also facilitated by IT, automobile, health and pharma sectors. Demand from weddings including lavish weddings also add cream to revenue and profits. MICE and weddings demand is sourced from across the state and other cities in south India, with Chennai benefitting from its coastal location and range of upper tier hotels.
- In March 2023 a new integrated airport terminal was developed increasing the pax capacity from 23 MPPA to 30 MPPA. Phase 2 of the new terminal T2 is expected to be built in 2 years, for international and domestic operations, increasing passenger capacity to 35 MPPA.
A new airport is planned at Parandur in Kanchipuram district, with the ultimate intent to handle 100 MPPA and complement the existing Chennai International Airport. Construction of the first phase of Parandur Airport is intended to begin in January 2026, with expected completion by December 2028. The entire project, developed in multiple phases, is projected to be completed by 2046.
- Heritage and Spiritual Tourism is growing in this city. Places such as UNESCO World Heritage site of Mahabalipuram near Chennai attracts leisure travellers for its scenic beaches, religious destinations, and cultural appeal.
- The supply pipeline comprises 1.8k rooms by Fiscal 2030.

Ahmedabad

- The charts above exclude performance of The Leela Gandhinagar, among the three Lux Upper Up hotels serving the wider Ahmedabad market; if that hotel were included, the city-wide ADR levels would have been higher than reflected in the charts.
- The city had an occupancy⁵⁵ of 68% in calendar year 2024 as compared to 66% in calendar year 2023, even as the city's inventory grew by nearly 13% in the same period. For YTD Mar-25, Occupancy stood at 74% at ADR of INR 6k, gaining 3 points in Occupancy and about 7% in ADR over YTD Mar-24.
- The Lux-UpperUp segment achieved nearly 72% and 82% occupancy in calendar year 2024 and YTD Mar-25, with ADR of INR 7.0k and INR 8.1k respectively.⁵⁶
- CY 2024 performance reflected full recovery and growth over pre-Covid levels with 5 points higher occupancy⁵⁷ and about 27% ADR⁵⁸ gain over the calendar year 2019 level. However, compared to calendar year 2023, ADR is reduced by 6% while gaining 2 points in occupancy.⁵⁹
- Ahmedabad hotels are in an overall positive phase, as the state and the areas on the city's outskirts draw industrial investment and with continued push to grow the International Finance Centre at GIFT City near Gandhinagar. GIFT City, Ahmedabad (Gujarat) is one of India's pioneering global financial hubs.
- Expansion of the city's airport, completion of the bullet train project and other intra-state road developments will support greater MICE activity and some casual leisure/retail related travel. Passenger numbers for Fiscal 2025 reached 13 million marking a 15% increase over Fiscal 2024 and a 20% increase compared to Fiscal 2019 levels. Weddings demand is expected to remain strong benefitting guest rooms and F&B demand.
- Metro rail link between Narendra Modi Stadium, Mahatma Mandir and GIFT City was launched in September 2024. With better connectivity, GIFT city operations and demand are expected to grow.
- GIFT city has recently taken steps to ease liquor restrictions within its jurisdiction with a motive. The revised rules allow alcohol consumption in specific areas like high-end hotels and business districts, increasing favourability for this global financial business hub.
- The central and state governments are taking significant initiatives for industrial and economic growth of Gujarat state. Ahmedabad is the largest city in Gujarat and a key city linked seamlessly with Gandhinagar, the state capital, and therefore serving as a hub to foster the state's economic growth. The city itself is expected to see the growth of manufacturing activities on its outskirts, commercial and residential zones, and sports related infrastructure with the aim of bidding for the Olympics for calendar year 2036.

- Kochi had good performance in calendar year 2024 mostly relative to its own modest performance in recent past years. 70% Occ⁶⁰ at an ADR⁶¹ of ₹ 6.4k, which is the highest for this market in the last 12 years.
- YTD Mar25 occupancy touched 73% with an ADR of 7.4k representing 8% increase in ADR compared to YTD Mar24.
- The M-E segment enjoyed a good year, adding 12 pts Occ⁶² to go to 62.3% at Rs. 3.9k ADR⁶³ which is higher than segmental ADR for all metro cities for calendar year 24 (except Mumbai and Delhi NCR). For YTD March 2025, the M-E segment achieved 73% occupancy with an ADR of INR 4,700.
- Infrastructure developments such as Kinfra International Exhibition Centre (KIEC) spread across 55,000 sft became operational in February 2024. Kochi water metro has attracted nearly 1.9 million passengers averaging over 6k daily users in its first year, enabling road de-congestion. These initiatives will help in better connectivity and might add value to hotels.
- Kochi currently has limited luxury hotels supply, comprising Taj Malabar and Grand Hyatt Bolgatty, both of which supply are predominantly leisure/MICE hotels on the seafront. These have attracted the highest ADR's in Kochi. Given the limited supply of luxury hotels in Kerala, The Ritz Carlton Vaikom Island Kerala can be expected to gain from its luxury positioning and leisure attributes.

Hyderabad

Hyderabad Performance Overall

Data Source: CoStar

- The city has seen a resurgence of business since calendar year 2014, once the statehood matter was resolved. Hyderabad has more than doubled its commercial real estate from 57 msf to 135 msf between calendar year 2018 and calendar year 2024, while also increasing its hotel inventory by 2.3k rooms in the last 10 years (CY 2014-CY 2024).

⁶⁰ Data Source: CoStar

⁶¹ Data Source: CoStar

⁶² Data Source: CoStar

⁶³ Data Source: CoStar

- Demand is materially IT and ITeS focussed. However, some corporate demand arises from locally based companies and for professional services; demand is also supported by large retail spaces and the growth of F&B and entertainment spaces to support a growing working population with younger demographics and substantial spend power.
- IT and ITes activities are concentrated in Cyberabad area which has developed over the last about 30 years. This zone includes Gachibowli and Kokapet which have enjoyed strong development and demand across segments, and with potential for continued growth.
- The city benefits from the Hyderabad International Convention centre, the privately developed airport which is being expanded, the aerotropolis development with MRO and other operations, industrial development in zones on the city outskirts and the excellent road infrastructure.
- The performance on ADR was better than Occupancy, on market-wide basis for calendar year 2024 and YTD Mar-25. Occupancy⁶⁴ for calendar year 2024 and YTD Mar-25 stood similar at 65% each with strong ADR⁶⁵ growth of 19% and 8% over previous corresponding periods respectively. Lux-UpperUp ADR⁶⁶ increased sharply to INR 11.6k in calendar year 2024 and further to 12.5k in YTD Mar-25 reflecting 15% growth over YTD Mar-24.

Mysore

- Estimated Occupancy for YTD December 2024 at about 75% at an ADR of 5.7k.⁶⁷ Mysore city hotels draw demand for business travel, leisure and group events (MICE and some weddings demand). The city will likely gain materially from the new Expressway connect to Bengaluru that enables convenient and speedy travel between these key cities in Karnataka. While the easier access could encourage someday-return business trips, these could also lead to more leisure and group travel; the increasing availability of hotels in the city will also potentially favour greater business travel.
- Further, activation of Mysore airport provide greater connectivity with substantial potential to grow further as more destinations are added – this will also help both business and leisure travel to the city.

Cost of Development per key

Project costs have risen since the pandemic, requiring larger investment in hotel development. Increased costs for new projects provide competitive advantage of existing hotels which carry lower historical costs. Project costs vary from hotel to hotel due to several factors including size of hotel, F&B spaces - number and type (cuisine) of restaurants, restaurant standards and appeal, banquet spaces and facilities, other public areas, number of basements (including based on regulatory requirement for parking), brand specific needs, site specific development challenges and financing plans and patterns.

Broadly, current development costs (excluding land cost) are emerging at:

- Luxury: ₹ 16 to ₹ 30 million per key
- Upper Upscale: ₹ 11.5 to ₹ 14 million per key
- Upscale: ₹ 8 million to ₹ 11 million per key
- Upper Midscale: ₹ 6 million to ₹ 7.5 million per key
- Midscale: ₹ 4.5 million to ₹ 5.5 million per key

Barriers to Entry

Development of hotels in India faces several challenges, principal among which are:

- Land:**
Availability of land at suitable locations for hotels, high cost of available land, and limited development entitlements - create limitations on hotel development, viability, and hotel size.
- Regulatory Approvals:**
Hotel projects require multiple regulatory approvals and licenses, before project implementation and prior to opening. The process is time consuming, with timing uncertainties and delays – the resultant longer time to hotel opening causes project cost escalations, significant additional interest cost, debt-service pressures, and project quality impact.
- Policy Changes:**
Policy changes by government can have a material impact on hotel development, operations and profitability. For example, (a) imposition of liquor prohibition; (b) substantial delay in completion of Delhi Aerocity hotels as security issues were not resolved in a time-bound manner; (c) recent requirement for drivers accommodation in Tamil Nadu.
- Bank Financing:**

Cost and availability of debt, shorter loan tenures (8 to 10 years till 2015), and repayment structures which were inconsistent with the capital-intensive nature of hotels that typically need 2-4 years to stabilise operations. Bankers now provide extended tenures of 12-15 years which is more consistent with the industry needs and cash flow patterns.

e. Availability of Equity Capital:

Shortage of sufficient long-term equity capital is a significant constraint towards capacity creation, particularly a portfolio of hotels or large hotels, and funding working capital shortages.

f. Manpower Shortages:

Increasing manpower shortages - staff and managers with sufficient operating experience and skills – and high attrition across managerial and staff levels poses service limitations for hotels. Increased use of technology and larger talent pool of hotel chains will be sought.

Several of these barriers, particularly Land, Bank Financing and Availability of Equity Capital have greater implication for Lux-UpperUp hotels and hotels with large inventory and function spaces.

Potential risk factors to the hospitality industry

1. Reputation Risk

The reputation of a hotel is critical to its success. Such reputation is built by the product quality, location and appeal, range and quality of food & beverage offerings, quality of function spaces and the branding of the hotel. Service is critical to building a strong reputation. Reputation damage could occur if health and safety norms are not adequately complied with and implemented.

2. Demand risk

The discretionary nature of hotel demand can impact demand volumes, profile and pricing due to factors such as economic slowdown; new competitive supply or loss of product quality. Seasonality aspects could also have a material impact on demand, particularly if any challenges occur during high season periods for a destination. Further, as stated in the Economic Survey of India 2024-2025, the ripple effects in India of a material correction in US stock markets could impact discretionary spending.

Overall demand is more discretionary for leisure, weddings and MICE purposes, while for business driven destinations a certain element of business travel is often inevitable; pricing and demand interplay can negatively impact revenues during an economic or travel slowdown or on account of travel advisories.

3. Geopolitical Factors and Uncertainties

Travel is impacted by multiple factors including geopolitical matters and related uncertainties and security issues. The impact in discretionary travel and long-haul travel can impact cross border travel, thereby impacting overall demand and related pricing.

Geopolitical factors can also cause increase in project/operating cost, thereby impacting project funding plans and/or operating margins.

4. Competition Risk

Arises from newer and more contemporary hotels setup in a market and from alternate accommodation. Material new supply created in a market or micro market within a concentrated timespan, can impact occupancy and pricing unless there is ready latent demand to absorb the new supply. Good quality new hotels at different price points could also channel away demand at higher priced hotels which are benefitting from pricing strength due to lack of adequate supply. On the other hand, depending on circumstances in a market additional supply could also create better visibility and greater critical mass to the benefit of various hotels.

5. Economic Risk

Business conditions for hotels can be impacted by the overall economic situation in the country/ city or in key source markets, with demand, occupancy and rates at different product segments being positively or negatively impacted by economic cycles or geopolitical factors. A slow, stagnant or declining economy creates demand and pricing pressure, including on demand for restaurants, functions etc. A growing economy with positive sentiment helps to lift demand, pricing and spends. Economic risks can in turn impact foreign currency reserves and create foreign currency risks which, in turn, can impact earnings and availability of foreign exchange debt funding for hotel projects. Temporary currency restrictions can have potential impact on foreign currency available to fund imports of goods and services for hotel operations.

6. Health and Security Risk

Health and or security factors affecting a destination, destination country, or key source markets can negatively impact demand. This was seen during the Covid pandemic or in certain Asian markets during the SAARS epidemic, or when terror attacks occurred in Mumbai and New York in 2008 and 2001 respectively. Recovery from health and security concerns depends on the cause but generally remains robust if the destination market is a key market.

7. Source Market Concentration Risk

Source market economic issues can impact demand and revenues in a destination particularly if there is substantial demand concentration and reliance upon a particular source market which is suffering an economic downturn. Substantial demand concentration or reliance upon specific source markets can impact demand and revenues, if one or more of such source market suffers from demand risks on account of economic, health or security issues.

8. Digital Security and Data Privacy Risk

Substantial use of the digital medium for sales and marketing, and the collection, use and storage of guest personal data creates the risk of data breach which could affect operating systems and operations, as well as compliance with data privacy laws and regulations. In turn, this can expose hotel companies, including managed hotels, to liability under international and domestic laws and regulations e.g. GDPR Regulations and the Digital Personal Data Protection Act, 2023 (regulations yet to be notified). Further, hotel companies that do not have a robust digital platform can suffer competitive disadvantage.

9. Human Resources Risk

The hotel sector is materially subject to Human Resources (HR) risk as regards availability of a sufficiently large pool of managers and employees with relevant skills and experience to meet staffing needs of a rapidly growing industry, higher competitive costs for personnel, and high attrition levels due to demand for trained hotel staff across various service sectors. While staffing pattern have been modified as an outcome of the Covid pandemic, the HR risk is expected to remain significant.

10. Operating Margin Risk

Operating margins can come under pressure due to decline in revenue (quantum and or rate based) and increase in costs. Cost increases are not always immediately controllable, particularly fixed cost elements towards various utilities, payroll costs with increases amidst competition, increasing input costs towards F&B and other supplies. Sales costs can vary depending upon sales channels used and the strength of operator's sales channels through its loyalty programs and digital or other systems. Greater ability of a hotel to reduce its fixed cost would prove beneficial in managing operating margins.

11. Compliance Risk

Substantially increased compliance requirements results in greater risk of compliance failure and in added compliance costs which have effect on operating margins. Variances in compliance needs across different states in India add to the risks levels and to compliance cost.

12. Third Party Risk

The changing business ecosystem with increased outsourcing of various functions and sharper procurement timelines create newer third-party risk for hotels and asset portfolios. Third party risk can also arise from outdoor catering events and from greater use of contract employees.

13. Development and Growth Risk

Growth of hotel supply can be impacted by various developmental risks including availability of suitable land with clear titles, entitlements and affordable costs; need for multiple approvals without defined time commitments from authorities, project delays due to regulatory requirements, funding delays including availability and cost of foreign currency funding and inability to meet escalated project cost due to the aforesaid factors. Projects also get delayed, and sometimes abandoned, due to economic disruptions, insufficient funding, and resultant cost escalations. These can cause hotel projects to be delayed or downsized (with or without reduction in scale during project implementation), or carrying inadequate initial quality due to lack of funding.

14. Debt Service Risk

Debt stress can arise due to development and implementation challenges for hotels, or from overly leveraged hotels or lack of demand growth or penetration to the extent anticipated thereby causing inadequate funds availability for debt service. Debt service obligations can pile up quite rapidly if allowed to persist, impacting the hotel asset and service quality, performance and competitiveness.

15. Asset Impairment Risk

Lack of suitable care in the upkeep, renovation and upgrade of individual hotel assets from time to time can impact the hotel's competitive positioning and capability and thereby impact its earnings. As a cyclical consequence, this can further reduce funds availability for reinvestment in improving the asset and to overcome asset quality impairment.

16. Climate Change Risk

Climate change factors can have material bearing on hotels in terms of changing business seasons, impact of global warming, increased operating costs due to need for additional air-conditioning and or lack of water, reduced demand due to high temperatures flooding and landslides (these can even restrict access) and higher cost of operation to comply with sustainability needs and expectations which may be regulatory and / or competitive in nature.

Our hotels are typically located in positive demand locations, driven by factors such as population density, premium neighbourhoods, commercial centres and IT hubs (*Source: Horwath HTL Report*). We focus on identifying specific locations for our hotels within cities that are conveniently located near airports, business districts, commercial centres and retail hubs with a high footfall. For example, our hotel *Grand Mercure Bangalore* is located in the heart of Bengaluru's Koramangala region, providing accessibility to key business hubs, prominent tech parks and a variety of dining and entertainment options while our hotel *Grand Mercure Mysore* is located in close proximity to iconic landmarks such as Mysore Palace, allowing customers to experience cultural heritage. In addition, our hotel *Grand Mercure Ahmedabad GIFT City* is located within GIFT City (Gujarat) which is one of the India's pioneering global financial hub (*Source: Horwath HTL Report*). We align branding and positioning of our hotels with the characteristics of each location, catering to preferences and expectations of our target customers. For example, we strategically chose the 'Grand Mercure' brand for certain of our hotels in Bengaluru (Karnataka), Mysuru (Karnataka), and GIFT City (Gujarat) owing to their upscale positioning, offering a blend of international standards and local flavours. Our capability to collaborate with global marquee hospitality companies, our brand-agnostic approach, and our appeal to global brands demonstrate our adaptability and helps us enhance our market presence in India.

We have a proven track record of developing marquee hotels across various geographies and different hospitality segments. Our number of keys has grown over the years, from 1,474 keys as of March 31, 2023 to 1,604 keys as on the date of this Prospectus. Further, our average occupancy (*representing the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels*) in Fiscal 2025 was 76.76% which was higher than the industry annual occupancy in Fiscal 2025 of 64.5% (*Source: Horwath HTL Report*).

We intend to develop five additional hotels. In particular, we intend to develop a luxury beach resort at ECR in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka). With respect to the luxury beach resort, we have entered into a management agreement with Hyatt to develop the resort under the 'Grand Hyatt' brand. Similarly, with respect to the two upper midscale hotels in Bengaluru (Karnataka), we have entered into definitive agreements with Marriott to develop these hotels under the 'Fairfield by Marriott' brand. We also intend to develop a luxury hotel under the *InterContinental* brand in Hyderabad (Telangana), for which our Promoter, BEL, has entered into a definitive agreement with InterContinental Hotels Group. In addition, we plan to develop a wellness resort on 14.70 acres in Vaikom, Kerala of which we own 7.08 acres and have entered into a memorandum of agreement dated October 21, 2024 with Brigade Hospitality Services Limited to purchase the balance 7.62 acres. We have also entered into a definitive agreement with Marriott to develop this resort under 'The Ritz-Carlton' brand. We intend to complete the construction of the luxury beach resort in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka) by Fiscal 2028 and the remaining two hotels (including the wellness resort) by Fiscal 2029.

From time to time, we may enter into definitive or non-binding memoranda of understanding ("MoUs") for development of hotels in future. For example, we have entered into (i) a definitive agreement with Marriott for a hotel to be situated at OMR in Chennai (Tamil Nadu) under the "JW Marriott" brand; (ii) a non-binding MoU with Marriott for a hotel to be situated at World Trade Center in Chennai (Tamil Nadu) under the "Courtyard by Marriott" brand; and (iii) a non-binding MoU with Marriott for a hotel to be situated in World Trade Center in Thiruvananthapuram (Kerala) under the "Marriott" brand. As of the date of this Prospectus, we do not have any land or building arrangements where the aforementioned hotels may be situated.

We believe that we are well-positioned to benefit from growing hospitality demand, particularly in markets where we operate. As per the Horwath HTL Report, select markets (i.e., Bengaluru (Karnataka), Chennai (Tamil Nadu), Hyderabad (Telangana), Ahmedabad (Gujarat), Kochi (Kerala) and Mysuru (Karnataka)) will see limited new supply, with only 12.3% share of new supply between April 1, 2025 and March 31, 2030. With only 13.7 thousand rooms being added in select markets through March 2030, the overall supply share of select markets will decline from its current level of 22.9% to 19.2% (*Source: Horwath HTL Report*). According to the Horwath HTL Report, the Hotel Association of India ("HAI") estimates foreign tourist arrivals ("FTA") to cross 30 million in India by calendar year 2037 and McKinsey estimates 5 billion domestic visits by calendar year 2030. Further, longer term HAI forecasts 15 billion domestic visits and 100 million FTAs by calendar year 2047. The growth in FTAs is expected to strengthen hotel average daily rates, particularly for upper-tier hotels (*Source: Horwath HTL Report*). According to the Horwath HTL Report, the inventory supply is projected to grow at a CAGR of 7.3% in Bengaluru, 3.8% in Chennai, and 4.8% in Hyderabad from Fiscal 2025 to Fiscal 2030, compared to 5.4%, 3.8% and 3.5% from Fiscal 2015 to Fiscal 2025, respectively.

Based on market potential and target customers, we determine the optimal number of rooms for each hotel property, as well as ideal pricing, positioning, and brand for a hotel. We align branding and positioning of our hotels with characteristics of each location, catering to preferences and expectations of our target customers. Set forth below are the rationale for choosing brands for our hotels:

- we strategically chose the '*Grand Mercure*' brand for certain of our hotels in Bengaluru (Karnataka), Mysuru (Karnataka), and GIFT City (Gujarat) due to their upscale positioning, offering a blend of international standards and local flavours. The flexibility of the brand also enables us to design cost-effective hotels. For our hotel at Koramangala in Bengaluru (Karnataka), we chose the '*Grand Mercure*' brand to attract travellers looking for accommodations with a local touch. Similarly, our hotel in Mysuru (Karnataka) was chosen to match the city's cultural richness and regal atmosphere, emphasizing the brand's commitment to providing authentic customer experiences whereas our decision to choose the '*Grand Mercure*' brand for our

hotel in GIFT City (Gujarat) was influenced by its reputation for upscale accommodations and personalized service, in line with the ethos of India's first operational smart city and global financial hub.

- the choice of 'Sheraton Grand' brand for our hotel located within the precinct of Brigade Gateway in Bengaluru, Karnataka reflects our endeavour to create a luxurious and elegant atmosphere that complements the nearby World Trade Center and Orion Mall.
- the choice to select 'Holiday Inn' brand for our hotels in Bengaluru (Karnataka) and Chennai (Tamil Nadu) is based on its trusted reputation, offering comfortable accommodations and consistent service standards that cater well to the busy business environments in these cities.
- the brand 'Four Points by Sheraton' was chosen for our hotel located in Infopark, Kochi, due to its focus on providing comforts and business-friendly amenities that align with the requirements of customers seeking a convenient and productive stay.
- the choice of the brand 'Holiday Inn Express & Suites' for our hotel located in the OMR region in Bengaluru, Karnataka was driven by its ability to provide a hassle-free and value-oriented stay experience, catering specifically to business travellers.
- the choice of the brand 'ibis Styles' for our hotel located in KRS Road in Mysuru, Karnataka was for its identity of having a unique design for each destination (where we have themed our hotel on the Ranganthittu Birds Sanctuary). The hotel welcomes customers in an atmosphere mixing comfort and style.

Focus on Asset Management Resulting in Operating Efficiencies

We have a business model where we either own or lease hotel assets and engage global hospitality companies to operate, maintain and market our hotel assets under management contracts. This approach helps us attract a global clientele, efficiently manage day-to-day operations, and attract top talent. Our engagement with global hospitality companies also provides us with access to their management expertise, industry best practices, marketing strategies, operational know-how, and human resources. We closely monitor and exercise regular oversight to optimize performance of our hotels. We engage with each hotel's operator management team to discuss and agree upon budgeting, cost management, and operational and financial targets. We regularly review performance reports, conduct meetings with the operator's management teams, and participate in the recruitment of key personnel for our hotels, including the general manager, executive chef, and director of finance.

In addition to our asset management practices, we strive to optimize our operating expenses. Certain of our initiatives are listed below:

- *Optimal space utilisation.* We believe that space utilization significantly impacts utility expenses, repair and maintenance costs and manpower-related expenses. Across our hotels, we have an average super built-up area (*calculated as built-up area plus common area*) of 85.28 square metres per room. We aim to optimise the use of space to reduce operating costs and enhance overall efficiency.
- *Optimising energy consumption.* We have undertaken various initiatives across our hotels to reduce our energy consumption such as implementing the use of LED lights, installing thermostats to regulate heating, ventilation and air conditioning (“HVAC”) systems, upgrading to energy-efficient appliances, and deploying energy management systems to monitor and control various energy-consuming systems. For example, our hotels *Sheraton Grand Bangalore at Brigade Gateway* and *Holiday Inn Bengaluru Racecourse* utilize solar energy while *Holiday Inn Chennai OMR IT Expressway* utilizes wind energy, enabling these hotels to benefit from renewable energy sources.
- *Shared services.* We focus on shared services across our hotels by consolidating certain operations and resources to enhance cost-effectiveness. Certain functions, such as finance, IT, sales, marketing, procurement and learning and development, are also shared amongst the aforesaid hotels. Similarly, our three hotels managed by InterContinental Hotels Group collaborate in sharing human resources in the areas of finance, engineering, and IT.
- *Upgradation of facilities.* As part of our asset management exercise, we continually review our operational data and assess areas for improvement at our hotels. In the past, we upgraded facilities across certain of our existing hotels by undertaking renovation to maximize and diversify revenue sources besides room revenue by increasing our share of revenue from food and beverage.

For example, *Durbar Hall*, an Indian restaurant at *Sheraton Grand Bangalore at Brigade Gateway* was upgraded to *Ceres*, a banquet venue, in 2017. Similarly, *Alfresco by Bene*, an Italian restaurant at *Sheraton Grand Bangalore at Brigade Gateway* was operated till February 2020 and was reopened as a banquet venue in September 2020 and subsequently was upgraded to *Hydeout*, a rooftop restaurant, offering Italian cuisine and cocktails, in July 2022 and the revenue from such premise was ₹ 22.91 million in Fiscal 2023, ₹ 20.11 million in Fiscal 2024 and ₹ 24.68 million in Fiscal 2025. Similarly, the primary restaurant ‘12th Main’ at *Grand Mercure Bangalore* has upgraded to ‘*The Verandah*’ in 2023 and the revenue from such restaurant increased from ₹ 18.04 million in Fiscal 2023 to ₹ 31.64 million in Fiscal 2024 and to ₹ 47.69 million in Fiscal 2025. Further, ‘*Horizon*’, a pan-Asian restaurant was added to *Sheraton Grand Bangalore at Brigade Gateway* in 2022 which added to incremental growth in our F&B revenues.

- *Optimise staffing.* We focus on improving staff productivity and efficiency through training and learning exercises to optimise the staff per room ratio. Our staff per room ratio (including our employees and personnel engaged on a contractual basis), calculated by dividing total staff by the number of available keys, was 0.74, 0.74 and 0.66 as of March 31, 2025, 2024 and 2023, respectively. According to the Horwath HTL Report, with respect to manpower to rooms ratio, current trends among hotel companies is for luxury business hotels to be at or below 2.0 and for three and four-star hotels to be between 0.8 to 1.2.
- *Leveraging technology.* We have implemented and continue to leverage technology such as biometric authentication, cloud property management systems, contactless payments, mobile key entry, digital menus and food ordering, and streaming services on hotel TVs to optimize operations and enhance our customer’s experiences. For example, our Accor branded hotels have implemented a cloud backup solution to enhance data backup security and have simplified loyalty membership enrolment, our InterContinental Hotels Group branded hotels have implemented *IHG Connect*, enabling loyalty members to connect directly to the hotel’s WiFi, our hotel *Grand Mercure GIFT City* has implemented a food ordering kiosk for staff, our InterContinental Hotels Group branded hotels have implemented a digital solution to unlock opportunities in food and beverages services, paperless reporting portal and contactless mobile ordering. We have also implemented an invoicing system to simplify the syncing of customer bills with the GST portal and our hotels are transitioning their property management systems to the cloud, reducing the reliance on on-site services. At *Sheraton Grand Bangalore at Brigade Gateway*, we intend to implement microsense functionality on all television screens to offer seamless streaming for our customers and a platform that enhances reservation management and provides personalized services. Further, we prioritize the development of our employees through digital learning opportunities to keep them informed about the latest industry practices.

Focus on Environmental, Social & Governance (“ESG”)

We strive to enhance guest comfort and experience while staying mindful of depleting natural resources and ensuring minimal environmental impact. Our focus is long-term business sustainability and resilience. We are dedicated to integrating energy-efficient technologies, renewable energy sources, and sustainable procurement methods. From eco-friendly amenities for enhanced guest experiences to active community engagement, each initiative reflects our commitment to sustainability. We have a commitment to create a win-win situation where providing memorable guest experiences do not necessarily have to be at the expense of

compromising on our efforts to ensure long-term sustainability and preserving the environment for future generations.

Our multi-faceted approach integrates advanced fixtures such as sensor faucets, low-flow toilets, wastewater recycling for activities like flushing landscaping, and HVAC applications. This approach has allowed us to reduce our overall water usage, demonstrating our commitment to sustainable operations.

We leverage building management systems to monitor and optimise energy usage in real-time. By identifying areas for improvement and implementing targeted interventions, such as adjusting temperature settings or lighting schedules, we seek to achieve substantial energy savings. This approach has yielded reduction in our energy consumption, demonstrating the effectiveness of our data-driven approach to energy management.

As part of our commitment to excellence in hospitality, we prioritise the safety and well-being of our team through comprehensive occupational health and safety (“OHS”) practices. Our adherence to the environmental health and safety (“EHS”) policy is non-negotiable, ensuring that every member of our staff, from engineering to kitchen and housekeeping, is well-versed in safety protocols. We provide generic OHS training to all workers, grounding them in the fundamental aspects of our EHS policy. Moreover, we delve into specific areas with targeted training sessions such as our ‘Introduction to Ergonomics’ programme, which is designed for general industry outreach, equipping our staff with the knowledge to maintain a safe and efficient work environment. We conduct risk assessments tailored to each department, fostering a culture of awareness and proactive risk management. Further, we achieved zero injuries in our operations in Fiscal 2025.

Further, in June 2025, our operating hotels have achieved the EDGE certification, demonstrating our commitment to sustainable and resource-efficient development. EDGE or Excellence in Design for Greater Efficiencies, is a globally recognized green building standard developed by the International Finance Corporation that quantifies resource efficiency in energy, water and materials. This certification highlights our achievements in reducing energy and water usage by more than 20%, as well as having less embodied carbon in our building materials.

As per The World Travel & Tourism Council (“**WTTC**”), the travel and tourism sector’s contribution to India’s economy was ₹ 15.7 trillion in calendar year 2022 and ₹ 19.1 trillion in calendar year 2023. Further, as per the WTCC Economic Impact Factsheet

released on June 28, 2024, the travel and tourism sector's contribution to India's economy was estimated at ₹ 21.2 trillion for calendar year 2024, and is forecasted at ₹ 43.3 trillion for calendar year 2034, growing at 7.4% CAGR from calendar year 2024 to calendar year 2034 (Source: Horwath HTL Report). Additionally, the Hotel Association of India ("HAI") estimates foreign tourist arrivals ("FTA") to cross 30 million in India by calendar year 2037 and McKinsey estimates 5 billion domestic visits by calendar year 2030. Further, HAI forecasts 15 billion domestic visits and 100 million FTAs by calendar year 2047. The growth in FTAs is expected to strengthen hotel average daily rates, particularly for upper-tier hotels (Source: Horwath HTL Report).

Moreover, the demand for chain-affiliated hotels has increased from 61,000 rooms per day in Fiscal 2015 to 116,000 rooms per day in Fiscal 2024 and to 127,000 rooms per day at the end of March 2025. FTA was above 10 million annually from calendar year 2017 to calendar year 2019 and recovered, post Covid, to 9.2 million in calendar year 2023. FTA for the calendar year 2024 was 9.7 million, 1.4% higher than calendar year 2023. FTA numbers have been impacted since the second half of calendar year 2024 due to drop in flow of visitors from Bangladesh. (Source: Horwath HTL Report) Substantial FTA growth is forecast by HAI; FTA would likely gain momentum from increased cross-border business and investment opportunities and trade agreements with major global economies, and a push to draw more inbound leisure travel. (Source: Horwath HTL Report)

We also benefit from the demand from the services sector. According to the Horwath HTL Report, services sector is among the fastest growing in the Indian economy. India is a software hub for exports. Karnataka, Tamil Nadu, Kerala and Telangana contributed about 65% of India's IT and ITes exports for Fiscal 2024, with operations mainly driven from Bengaluru, Chennai, Kochi and Hyderabad, respectively. (Source: Horwath HTL Report)

Further, growth in air travel is a material driver of demand and overall market growth. The select markets (Bengaluru, Chennai, Kochi, Gandhinagar (Ahmedabad), Mysore and Hyderabad) had 28.7% share of air traffic for Fiscal 2025, while having 23% supply share of hotel inventory. Further, domestic travel visits grew at 13.5% CAGR between calendar year 2001 and calendar year 2019, from 236 million visits in 2001 to 2.3 billion visits in calendar year 2019. Domestic travel numbers at 2.51 billion visits for calendar year 2023 have surpassed calendar year 2019 (pre-COVID) by 8%, reflecting strong rebound of travel and an increase of 45% over 1.7 billion visits for calendar year 2022. (Source: Horwath HTL Report) 'How India Travels 2023?' report by Booking.com and McKinsey estimates 5 billion domestic travel visits by calendar year 2030. (Source: Horwath HTL Report) Vision 2047 report by HAI expects 15 billion domestic visits and FTA of 100 million by calendar year 2047. (Source: Horwath HTL Report) With growing household earnings and a median age of 28.1 years (about 10 years younger than most countries) the spend on tourism is projected to rise by 170% from USD 150 billion spent in calendar year 2019 to USD 410 billion in calendar year 2030. (Source: Horwath HTL Report) The domestic passenger movements increased by 44% in calendar year 2019 compared to calendar year 2016 reflecting CAGR of 13%. (Source: Horwath HTL Report)

Our Strategies

The strategies described below have been approved by way of a board resolution passed by our Board of Directors at their meeting held on October 28, 2024.

Expand Operations by Developing New Hotels at Select Locations

We intend to expand our operations and market presence by developing new hotels at select locations in India and are focussed on selecting regions with high growth potential and demand. We have recently opened another hotel located in Mysuru, Karnataka under the brand ‘ibis Styles Mysuru’ with 130 keys. With this new hotel, our total number of keys has increased from 1,474 keys as of March 31, 2023 to 1,604 keys as on the date of this Prospectus.

Our expansion plans include development of five additional hotels. In particular, we plan to develop a luxury beach resort in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka). With respect to the luxury beach resort, we have entered into a management agreement with Hyatt to develop the resort under the ‘Grand Hyatt’ brand. Similarly, with respect to the two upper midscale hotels in Bengaluru (Karnataka), we have entered into definitive agreements with Marriott to develop these hotels under the ‘Fairfield by Marriott’ brand. We also intend to develop a luxury hotel under the ‘InterContinental’ brand in Hyderabad (Telangana), for which our Promoter, BEL, has entered into a definitive agreement with InterContinental Hotels Group. Further, as part of one of the Objects, our Company entered into a memorandum of agreement dated October 24, 2024, read with letter of extension dated June 16, 2025, with our Promoter pursuant to which our Company propose to buy undivided share of 1.35 acres (5,498 square metres) from our Promoter which is approximately 23.76% out of the land measuring 5.68 acres situated in Neopolis Layout II, Survey Numbers 239 and 240 (Plot No. 8) of Kokapet Village, Gandipet Mandal, Rangareddy District, Telangana, India which is part of the larger land measuring to 39,295.08 sq. metres, which is equivalent to 9.71 acres owned by our Promoter. For further details, see “Objects of the Issue – Payment of consideration for buying of undivided share of land from our Promoter, BEL” on page 115. In addition, we plan to develop a wellness resort on 14.70 acres in Vaikom, Kerala of which we own 7.08 acres and has signed an memorandum of agreement dated October 21, 2024 with Brigade Hospitality Services Limited to purchase the balance 7.62 acres. We have also entered into a definitive agreement with Marriott to develop this resort under ‘The Ritz-Carlton’ brand. We intend to complete the construction of a luxury beach resort in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka) by Fiscal 2028 and the remaining two hotels by Fiscal 2029. With these five additional hotels, we estimate to have an inventory of about 2,560 keys by Fiscal 2029.

From time to time, we may enter into definitive or non-binding memoranda of understanding (“MoUs”) for development of hotels in future. For example, we have entered into (i) a definitive agreement with Marriott for a hotel to be situated at OMR in Chennai (Tamil Nadu) under the “JW Marriott” brand; (ii) a non-binding MoU with Marriott for a hotel to be situated at World Trade Center in Chennai (Tamil Nadu) under the “Courtyard by Marriott” brand; and (iii) a non-binding MoU with Marriott for a hotel to be situated in World Trade Center in Thiruvananthapuram (Kerala) under the “Marriott” brand. As of the date of this Prospectus, we do not have any land or building arrangements where the aforementioned hotels may be situated.

According to the Horwath HTL Report, the demand is projected to grow at a CAGR of 10.1% in Bengaluru, 4.9% in Chennai, and 8.3% in Hyderabad from Fiscal 2025 to Fiscal 2030, while the supply is projected to grow at a CAGR of 7.3% in Bengaluru, 3.8% in Chennai and 4.8% in Hyderabad (Source: Horwath HTL Report), indicating a demand-supply mismatch. The charts below present the estimated future supply, demand, and occupancy for Bengaluru, Chennai, and Hyderabad:

Chennai (Fiscal 2025 to Fiscal 2030)

We may consider acquiring new land parcels to expand our portfolio to newer geographies across India such as Goa and South India for developing new hotels. In addition, we intend to explore opportunities for development of resorts and hotels at pilgrimage locations that we believe, offer growth potential. By expanding our operations through these new developments, we aim to capitalize on market demand and strengthen our position in the hospitality sector in India.

Focus on Improving Operating Efficiencies and Increase Revenues

Over the years, we have taken various initiatives to reduce our operating expenses to improve our profitability. In Fiscal 2025, 2024 and 2023, our operating expenses were ₹ 3,038.10 million, ₹ 2,602.40 million and ₹ 2,534.30 million, respectively, representing 64.88%, 64.78% and 72.36% of our revenue from operations during such years. We intend to reduce our operating expenses through

the following measures:

- introducing electric vehicles to our fleet to reduce costs;
- implementing dynamic manning strategies based on occupancy levels to reduce payroll expenses;
- optimizing staff to room ratios;
- monitoring and controlling high load power units and installing sub meters at high electricity consumption areas to reduce electricity costs;
- enhancing the efficiency of plate heat exchanger to reduce chill water cost;
- improving negotiations with suppliers to achieve favourable terms on raw materials;
- implementing energy-saving practices, such as utilizing wind energy through a captive scheme;
- digitizing documents and adopting greener, paperless, and remote collaboration methods to reduce printing costs;
- applying displacement analysis for group business during demand periods; and
- implementing floor-wise room allocation to enable the shutdown of air conditioning for unused floors on lower occupancy days.

In addition, we intend to focus on increasing our revenues. To achieve this, we have implemented various initiatives in the past, including annual rate increase for corporate accounts, introducing weekend package from March to September to increase weekend occupancy and increase footfalls at our hotels' restaurants, long weekend gateway packages or room upgrades for extended stays to attract customers to prolong their stays, offering weekend discounts for advance purchases with non-refundable condition to drive weekend occupancy, conducting food festivals, implementing a F&B upsell program to increase beverage sales, establishing tie-ups with wedding venues; and participating in sponsored advertisements and listings on online booking platforms to increase visibility and improve our booking conversion rates.

We intend to implement additional initiatives such as optimizing direct bookings through operator managed loyalty programs, expanding our presence in emerging digital channels and mobile-first platforms, launching targeted marketing campaigns for niche segments including eco-tourism and wellness, collaborating with local artists and cultural events to drive unique experiences, and offering curated VIP experiences for high-value customers to strengthen brand loyalty and repeat business to continue driving revenue growth and enhancing our financial performance.

Expand Portfolio by Way of Opportunistic and Accretive Acquisitions

As part of our inorganic expansion strategy, we may explore opportunities for acquisition of companies and assets which can help us expand our presence. In particular, we may consider opportunities for inorganic growth, such as acquisitions of operating hotels. We intend to leverage the expertise of our Promoter and management to assess growth opportunities. We believe that our experience in owning and managing hotels will enable us to operate these properties in a cost efficient manner. By pursuing such acquisition opportunities, we intend to consolidate our market position cities where we currently operate and also enter new geographies across India that attract a substantial inflow of business and leisure travellers to further strengthen and expand our presence. We intend to maintain a disciplined approach to acquisitions and consider various selection criteria such as market potential, asset quality, and potential synergies with our existing operations. As of the date of this Prospectus, we have not identified any specific hotel asset or entered into any binding agreements in relation to any potential acquisition of any hotel asset. For further details, see “*Objects of the Issue - 3. Pursuing inorganic growth through unidentified acquisitions and other strategic initiatives and general corporate purposes*” on page 117.

Marketing

Our marketing strategy focuses on enhancing brand visibility, driving direct bookings, increasing website traffic and encouraging repeat visits across our properties, in collaboration with our hotel operators. We employ a blend of traditional, digital, and experiential marketing to boost customer engagement. In digital marketing, we focus on optimizing our websites for search engine rankings and creating engaging, localized content for social media platforms. We also prioritize advertising and listing on third party ticketing and food platforms to attract customers, including for specific events organised at our hotel properties. For traditional marketing, we focus on placing advertisements in travel magazines, local newspapers, and lifestyle publications. Additionally, we sponsor cultural events, corporate events, and food experiences to connect with diverse audiences.

We focus on offering tailored promotions and packages, including seasonal deals for festive occasions, weddings, and corporate events. We also provide exclusive benefits for members of our loyalty programs. Our F&B and event marketing efforts focus on creating unique dining experiences through special menus, themed nights, and live events, as well as partnering with local artists and chefs. We also run targeted campaigns for MICE and social events, offering flexible venues and customized solutions. We also organize events that feature local artisans, musicians, and chefs, and emphasize eco-friendly practices such as electric vehicle rentals, energy-efficient operations, and waste reduction. Our advertising efforts also include geo-targeted and retargeting advertisements aimed at high-potential markets, visibility on online travel agencies (“OTAs”) and food aggregator platforms, and the use of innovative mediums such as marketing spaces at malls and digital displays to reach a wide audience. We also work with our hotel operators to ensure effective marketing.

Competition

The hotel industry in India is intensely competitive. As a result, we compete with large multinational and Indian companies in each of the geographies in which we operate. We experience competition from other chain-affiliated and independent hotels in the segments in which we operate. Our success is largely dependent upon our ability to compete in areas such as location of the property, room rates, quality of accommodation, service level, and the quality and scope of other amenities, including food and beverage facilities.

The Trademarks Act governs the registration, statutory protection of trademarks and prevention of the use of fraudulent marks in India. Indian law permits the registration of trademarks for both goods and services. It also provides for exclusive right to marks such as brand, label, and heading and to obtain relief in case of infringement for commercial purposes as a trade description. Under the provisions of the Trademarks Act, an application for trademark registration may be made with the Trademarks Registry by any person or persons claiming to be the proprietor of a trademark, whether individually or as joint applicants, and can be made on the basis of either actual use or intention to use a trademark in the future. Once granted, a trademark registration is valid for 10 years unless cancelled, after which, it can be renewed. If not renewed, the mark lapses and the registration is required to be restored to gain protection under the provisions of the Trademarks Act. The Trademarks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks among others. Further, pursuant to the notification of the Trademarks (Amendment) Act, 2010, simultaneous protection of trademark in India and other countries has been made available to owners of Indian and foreign trademarks. It also seeks to simplify the law relating to the transfer of ownership of trademarks by assignment or transmission and to bring the law in line with international practices.

Registration under the Copyright Act acts as prima facie evidence of the particulars entered therein and may help expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Upon registration, the copyright subsists for the lifetime of the author and until a period of 60 years from the beginning of the calendar year following the year in which the author dies, or in which the work is first published in case of anonymous and pseudonymous works. Reproduction of a copyrighted work for sale or hire and issuing of copies to the public, among others, without consent of the owner of the copyright are acts which expressly amount to an infringement of copyright. The Copyright Act prescribes a fine or imprisonment or both for infringement of copyright, with enhanced penalty on second or subsequent convictions.

Scheme of Arrangement

Pursuant to a resolution dated July 27, 2017, passed by our Board, our Company, our Promoter, Brigade Enterprises Limited (“BEL”), our Group Company, Brigade Hospitality Services Limited (“BHSL”), and a member of our Promoter Group, Augusta Club Private Limited (“ACPL”), filed the Scheme of Arrangement under Sections 231 to 232 of the Companies Act, 2013 before the National Company Law Tribunal, Bengaluru bench (“NCLT”). The objective of the Scheme of Arrangement was to segregate the (i) hotels, (ii) ‘integrated clubs and convention centres’, and (iii) ‘Augusta club’ business undertakings controlled by BEL and transfer them to our Company, BHSL and ACPL, respectively, so as to *inter alia* enable better and more efficient management,

control and running of these undertakings in a focused manner and to offer opportunities to the management of our Company, BHSL and ACPL to pursue growth and expansion of their respective business undertakings.

In terms of the Scheme of Arrangement, the entire hotels business undertaking of BEL, comprising of *inter alia* all its assets, properties, investments, debts, liabilities, legal proceedings, employees, trademarks, contracts and business licenses were transferred to our Company on a going concern basis for a total consideration of ₹2,804.30 million, which could be allotted to BEL either (a) by issue and allotment of optionally convertible preference shares of face value of ₹100 each (“OCRPS”), or (b) by payment of cash or cash equivalent consideration within a defined period, or by a combination of both (a) and (b) herein.

Our Company currently has a portfolio of nine operating hotels, seven of which were acquired from BEL pursuant to the Scheme of Arrangement, which were either operational or under-construction as on October 1, 2016. Accordingly, our Company acquired (i) Sheraton Grand Bangalore at Brigade Gateway, Bengaluru, (ii) Grand Mercure Bangalore, Bengaluru (iii) Grand Mercure Mysore, Mysuru, (iv) Holiday Inn Chennai OMR IT Expressway, Chennai, (v) Four Points by Sheraton Kochi Infopark, Kochi (vi) ibis Styles Mysuru, Mysore (vii) Holiday Inn Bengaluru Racecourse, Bengaluru. Further, the underlying property to be utilised towards the construction and development of the proposed luxury wellness resort at Vaikom, Kerala was also transferred to our Company.

Similarly, the entire ‘integrated clubs and convention centres’ undertaking was transferred to BHSL and the entire ‘Augusta club’ undertaking was transferred to ACPL for a consideration amounting to ₹295.90 million and ₹32.50 million, respectively. The Scheme of Arrangement was approved by the NCLT on March 13, 2018. Pursuant to the valuation report dated November 22, 2016, issued by B.K. Ramadhyani & Co. LLP, the equity value of BEL’s hotel business undertaking was calculated as ₹2,804.30 million as at September 30, 2016 using the net assets value method. Accordingly, our Company allotted 28,043,000 OCRPS to BEL on December 18, 2018 as consideration for the valuation derived.

Pursuant to the resolution passed by the Board of Directors on May 10, 2024, 28,043,000 OCRPS held by BEL were converted to 280,430,000 Equity Shares of face value of ₹ 10 in the ratio of ten Equity Shares for each OCRPS held. Subsequently, 280,430,000 Equity Shares were allotted to BEL, pursuant to the resolution passed by the Board of Director on May 10, 2024. For details in relation to the allotment and conversion of OCRPS issued by our Company to BEL pursuant to the Scheme of Arrangement, see “*Capital Structure – Preference share capital*” on page 95.

Annexure V**Material Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements****All amounts in Rupees Millions, except as otherwise stated****b) Basis of consolidation**

The Restated Consolidated Summary Statements comprises of the summary statements of the Holding Company and its subsidiary. A subsidiary is an entity over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. A subsidiary is fully consolidated from the date on which control is transferred to the Group and are deconsolidated from the date that control ceases.

Consolidation procedure:

- i. The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Holding Company with those of its subsidiary. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the restated consolidated summary statements at the acquisition date.
- ii. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.
- iii. Offset (eliminate) the carrying amount of the Holding Company's investment in the subsidiary and the Holding Company's portion of equity of such subsidiary.
- iv. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the restated consolidated summary statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- v. The financial statements of the subsidiary used for the purpose of consolidation are drawn up to same reporting date as that of the Holding Company, i.e., year ended on March 31st and are prepared using uniform accounting policies for like transactions and other events in similar circumstances.
- vi. Non-controlling interests in the results and equity of the subsidiary is shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

c) Use of estimates

The preparation of restated consolidated summary statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities. The effect of change in an accounting estimate is recognized prospectively.

d) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purposes of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purposes of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has evaluated and considered its operating cycle as one year and accordingly has reclassified its assets and liabilities into current and non-current.

Assets and liabilities, other than those discussed above, are classified as current to the extent they are expected to be realized/ are contractually repayable within one year from the Balance sheet date and as non-current, in other cases.

Deferred tax assets/ liabilities are classified as non-current assets/ liabilities.

CIN: U74999KA2016PLC095986

Annexure V**Material Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements****All amounts in Rupees Millions, except as otherwise stated****e) Property, plant and equipment**

Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work- in- progress.

f) Depreciation on property, plant and equipment

Depreciation is calculated on written down value basis using the following useful lives estimated by the management, which are equal to those prescribed under Schedule II to the Companies Act, 2013:

Category of Asset	Useful lives (in years)
Buildings	60
Plant and machinery	15
Electrical installation and equipment	10
Furniture and fixtures	
• Used in hotels, restaurants, etc.	8
• Others	10
Computer hardware	
• End user devices	3
• Server and network equipment	6
Office equipment	5
Motor vehicles	8

For certain hotel-specific assets, depreciation is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management based on technical assessment as below:

Category of Asset	Useful lives (in years)	Schedule II lives (in years)
Buildings	25-30	60
Plant and machinery	15	15
Electrical installation and equipment	10	10
Furniture and fixtures		
• Used in hotels, restaurants, etc.	8	8
• Others	10	10
Computer hardware		
• End user devices	3	3
• Server and network equipment	6	6
Office equipment	5	5
Motor vehicles	8	8

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows: Leasehold land – 25 to 35 years

The management considers residual value at 5% as prescribed under Schedule II of Companies Act, 2013.

The management believes that the above estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

g) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets comprising of computer software are amortized on a written down value basis over a period of six years, which is estimated by the management to be the useful life of the asset. In case of certain hotels, the intangible assets comprising of computer software are amortized on a straight-line basis over a period of six years as estimated by the management.

The residual values, useful lives and methods of amortization of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when asset is derecognized.

h) Impairment

A. Financial assets

The Group assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired and measures the required expected credit losses through a loss allowance. The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables. The Group follows the simplified approach for recognition of impairment allowance on trade receivables wherein, it recognises impairment allowance based on lifetime ECLs at each reporting date. The Group recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

B. Non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

i) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Group is lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Group at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost (included in Property, Plant and Equipment) and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets. The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right of-use assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

Brigade Hotel Ventures Limited

CIN: U74999KA2016PLC095986

Annexure V**Material Accounting Policies and Other Explanatory Notes to Restated Consolidated Summary Statements****All amounts in Rupees Millions, except as otherwise stated**

For lease liabilities at inception, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

The Group recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognizes any remaining amount of the re-measurement in the statement of profit and loss.

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Where the Group is lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

j) **Borrowing costs**

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized/inventorised as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss.

k) **Inventories**

Inventories comprising of food, beverages and other items are valued at lower of cost and net realizable value. Cost of inventories is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

l) **Revenue recognition**

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with the customer. The Group presents revenue from contracts with customers net of indirect taxes in its statement of profit and loss.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Group considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer, if any.

The following specific recognition criteria must also be met before revenue is recognized:

Revenue from hospitality services

Revenue from hospitality operations comprise revenue from room charges, food & beverage sales, facility usage charges and allied services, including telecommunication, laundry, etc. Revenue is recognized as and when the services are rendered and is disclosed net of allowances.

Contract balances

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Refer accounting policy under “Leases” above.

Interest income

Interest income, including income arising from other financial instruments measured at amortized cost, is recognized using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend income

Dividend income is recognized when the Group’s right to receive dividend is established, which is generally when shareholders approve the dividend.

m) Foreign currency translation

Functional and presentation currency

Items included in the restated consolidated summary statements of the Group are measured using the currency of the primary economic environment in which the Company operates (‘the functional currency’). The restated consolidated summary statements are presented in Indian rupee (INR), which is the Company’s functional and presentation currency.

Foreign currency transactions and balances

i) Initial recognition - Foreign currency transactions are initially recorded at the functional currency spot rate at the date the transaction first qualifies for recognition.

ii) Conversion - Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of initial transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii) Exchange differences - The Group accounts for exchange differences arising on translation/ settlement of foreign currency monetary items as income or as expense in the period in which they arise. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively)

n) Retirement and other employee benefits

Retirement benefits in the form of state governed Employee Provident Fund, Employee State Insurance and Employee Pension Fund Schemes are defined contribution schemes (collectively the ‘Schemes’). The Group has no obligation, other than the contribution payable to the Schemes. The Group recognizes contribution payable to the Schemes as expenditure, when an employee renders the related service. The contribution paid in excess of amount due is recognized as an asset and the contribution due in excess of amount paid is recognized as a liability.

Gratuity, which is a defined benefit plan, is accrued based on an independent actuarial valuation, which is done based on project unit credit method as at the balance sheet date. The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. Remeasurements, comprising of actuarial gains and losses, excluding amounts included in net interest on the net defined benefit liability, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

The Group recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- ▶ Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- ▶ Interest expense

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method, made at the end of each financial year. Actuarial gains/losses are immediately taken to the statement of profit and loss. The Group presents the accumulated leave liability as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

o) Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

i. Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

ii. Deferred income tax

Deferred income tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

p) Provisions and contingent liabilities

A provision is recognized when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses it in the restated consolidated summary statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

q) Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

r) Financial Instruments

A. Financial assets

Initial recognition and measurement

Financial assets are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
 - Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
 - Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
 - Financial assets at fair value through profit or loss
- i. Financial assets at fair value through other comprehensive income (FVTOCI) (debt instruments)
- Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. For debt instruments, at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

- ii. Financial assets at fair value through profit or loss
Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.
- iii. Financial assets designated at fair value through OCI (equity instruments)
Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.
Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.
- iv. Financial assets at amortised cost (debt instruments)
A 'financial asset' is measured at the amortized cost if both the following conditions are met:
- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Investment in subsidiary

Investment in subsidiary is carried at cost. Impairment recognized, if any, is reduced from the carrying value.

De-recognition of financial asset

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's consolidated balance sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

B. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as payables, as appropriate. The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
 - Financial liabilities at amortised cost (loans and borrowings)
- i. Financial liabilities at fair value through profit or loss
Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.
- ii. Financial liabilities at amortized cost
Financial liabilities are subsequently carried at amortized cost using the effective interest ('EIR') method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Interest-bearing loans and borrowings are subsequently measured at amortized cost using EIR method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

C. Reclassification of financial assets and liabilities

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets.

D. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

E. Fair value of financial instruments

The Group measures its financial instruments such as derivative instruments, etc at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the restated consolidated summary statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the restated consolidated summary statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

s) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t) Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

u) Cash dividend to equity holders of the Holding Company

The Holding Company recognizes a liability to make cash distributions to equity holders of the Holding Company when the distribution is authorized and the distribution is no longer at the discretion of the Holding Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Holding Company's Board of Directors.

2.2 Significant accounting judgments, estimates and assumptions

The preparation of the Group's restated consolidated summary statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Group's accounting policies, management makes judgment, estimates and assumptions which have the most significant effect on the amounts recognized in the restated consolidated summary statements. The key judgment, estimates and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its judgments and assumptions and estimates on parameters available when the restated consolidated summary statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Significant accounting judgements, estimates and assumptions used by management are as below:

Defined benefit plans – Gratuity

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates and expected salary increase thereon.

Useful life and residual value of property, plant and equipment and intangible assets

The useful life and residual value of property, plant and equipment and intangible assets are determined based on evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the judgments involved in such estimates the useful life and residual value are sensitive to the actual usage in future period.

Evaluation of control, joint control or significant influence by the Group over its investee entity for disclosure

Judgment is involved in determining whether the Group has control over an investee entity by assessing the Group's exposure/rights to variable returns from its involvement with the investee and its ability to affect those returns through its power over the investee entity. The Group considers all facts and circumstances when assessing whether it controls an investee entity and reassess whether it controls an investee entity if facts and circumstances indicate that there are changes to one or more elements of control. In assessing whether the Group has joint control over an investee the Group assesses whether decisions about the relevant activities require the unanimous consent of the parties sharing control. Further, in assessing whether Group has significant influence over an investee, the Group assesses whether it has the power to participate in the financial and operating policy decisions of the investee, but is not in control or joint control of those policies.

Measurement of financial instruments at amortized cost

Financial instrument are subsequently measured at amortized cost using the effective interest ('EIR') method. The computation of amortized cost is sensitive to the inputs to EIR including effective rate of interest, contractual cash flows and the expected life of the financial instrument. Changes in assumptions about these inputs could affect the reported value of financial instruments.

2.3 Changes in accounting policies and disclosures

The Ministry of Corporate Affairs has notified the following amendments to Ind AS which have been applied by the Group for the first-time.

i. Ind AS 117 Insurance Contracts

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated August 12, 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after April 01, 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Group's restated consolidated summary statements.

ii. Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after April 01, 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The amendment does not have a material impact on the Group's restated consolidated summary statements.

iii. Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors, which is effective from annual reporting periods beginning on or after April 01, 2023. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendment does not have a material impact on the Group's restated consolidated summary statements.

iv. Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures, which is effective from annual reporting periods beginning on or after April 01, 2023.

The amendments had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Group's restated consolidated summary statements.

v. Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases, which is effective from annual reporting periods beginning on or after April 01, 2023.

The Group previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Group has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings.

Apart from these, consequential amendments and editorials have been made to other Ind AS to the extent possible like Ind AS 101, Ind AS 102, Ind AS 103, Ind AS 107, Ind AS 109, Ind AS 115 and Ind AS 34.

Impairment Loss

As at April 01, 2022, the impairment loss amounted to Rs. 110.00 millions, which represented the write-down value of certain property, plant and equipment to its recoverable amount as a result of the impact of Covid-19 pandemic. The recoverable amount of such property, plant and equipment was based on value in use and was determined at the level of the cash generating unit ('CGU') being individual hotel property.

Considering the weakening of the impact of Covid-19 pandemic and the recovery in the Group's business operations thereon, the Group has updated its business projections taking into account the current conditions and the amended forecasts for the future periods for the purpose of determining the revised recoverable amount of the aforesaid property, plant and equipment as at March 31, 2023. Since the revised recoverable amount exceeds the write-down value of such property, plant and equipment as at March 31, 2023, the Group has reversed the impairment loss of Rs.110.00 millions and recognised in the statement of profit and loss as exceptional item during the year ended March 31, 2023.

The recoverable amount of the CGU comprising of two hotel properties as at March 31, 2023 was Rs. 3,093.20 millions, which was based on value in use and was determined at the level of the CGU. In determining value in use for the CGU, the cash flows were discounted at a rate of 10% on a pre-tax basis.

Notes:

1. Trade receivable are non interest bearing and are due from the date of transactions.

2. The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables. The Group follows the simplified approach for recognition of impairment allowance on trade receivables. The application of the simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment allowance based on lifetime ECLs at each reporting date. ECL impairment loss allowance (or reversal) recognised during the year is recognised in the Consolidated Statement of Profit and Loss. This amount is reflected under the head 'other expenses/other income' in the Consolidated Statement of Profit and Loss.

3. Trade receivable include receivable due from directors and other related parties

All operating segments operating results are reviewed regularly by CODM to make decisions about resources to be allocated to the segments and assess their performance. CODM believes that these are governed by same set of risks and returns hence, CODM reviews them as one component. Hence, there are no additional disclosures to be provided under Ind-AS 108 – Segment information with respect to the single reportable segment, other than those already provided in the accompanying consolidated financial statements. Further, the Holding Company and its subsidiary is domiciled in India and the Group's non-current assets are located in India. 31 Financial risk management objectives and policies

The Group's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include loans, trade, other receivables and cash and cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks and ensures that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives.

i. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of risk: interest rate risk, currency risk and price risk.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant. The impact on the entity's profit/(loss) before tax is affected through the impact of floating rate borrowings, as follows:

Particulars	Change in interest rate	Effect on profit/(loss) before tax
March 31, 2025	+1%	44.40
	-1%	(44.40)
March 31, 2024	+1%	47.30
	-1%	(47.30)
March 31, 2023	+1%	50.00
	-1%	(50.00)

b) Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates arises on account of purchases from foreign countries. The Group has not taken any derivative instrument during the year and there is no derivative instrument outstanding as at the year end.

The Group's unhedged foreign currency exposure at the end of reporting period is as below:

	March 31, 2025	March 31, 2024	March 31, 2023
Trade Payable	36.00	25.80	38.40

Note: There is no significant exposure to the Group towards foreign exchange fluctuation.

c) Price risk

The Group is affected by the price volatility of certain commodities. The Group's management has developed and enacted a risk management strategy regarding commodity price risk and its mitigation. The Group is subject to the price risk variables, which are expected to vary in line with the prevailing market conditions.

ii. Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty default on its obligations. The Group's exposure to credit risk arises majorly from trade receivables/ unbilled revenue and other financial assets. Other financial assets are bank deposits with banks and hence, the Group does not expect any credit risk with respect to these financial assets.

With respect to other financial assets, the Group has constituted teams to review the receivables on periodic basis and to take necessary mitigations, wherever required. The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables and unbilled revenue. The Group follows the simplified approach for recognition of impairment allowance on trade receivables wherein, it recognises impairment allowance based on lifetime ECLs at each reporting date. At the balance sheet date, there was no significant concentration of credit risk and exposure thereon.

iii. Liquidity Risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of borrowings and lease contracts. The Group has assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

32 Defined benefit plan - Gratuity

The Group operates defined gratuity plan for its employees. Under the plan, every employee who has completed at least five years of service gets a gratuity on departure at 15 days of last drawn salary for each completed year of service.

The following tables summarises the components of net benefit expenses recognised in the statement of profit and loss and amount recognised in the balance sheet with respect to gratuity. The defined benefit plan is unfunded, except as otherwise stated.

The principal assumptions used in determining gratuity obligations are shown below:

Particulars	March 31, 2025	March 31, 2024	March 31, 2023
Discount rate	6.65%	7.11%	7.20%
Future salary benefit levels	7.34%	7.38%	6.50%
Mortality rate	100% of IALM 2012-2014	100% of IALM 2012-2014	100% of IALM 2012-2014

A quantitative sensitivity analysis for significant assumptions is as shown below:

Particulars	March 31, 2025				March 31, 2024			
	Discount Rate		Salary Growth Rate		Discount Rate		Salary Growth Rate	
Sensitivity Level	-1%	+ 1%	-1%	+ 1%	-1%	+ 1%	-1%	+ 1%
Impact on DBO	5.20	(3.40)	(3.40)	5.20	3.70	(2.80)	(2.80)	3.70
% change compared to base due to sensitivity	27%	-18%	-18%	27%	26%	-20%	-20%	26%

Particulars	March 31, 2023			
	Discount Rate		Salary Growth Rate	
Sensitivity Level	-1%	+ 1%	-1%	+ 1%
Impact on DBO	2.80	(1.90)	(1.90)	2.80
% change compared to base due to sensitivity	26%	-18%	-18%	26%

The sensitivity analysis above has been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation.

Maturity profile of defined benefit obligation

Weighted average duration (based on discounted cashflows) - 5 years (March 31, 2024: 5 years, March 31, 2023: 5 years)

The maturity profile of defined benefit obligation is as below:

Particulars	March 31, 2025	March 31, 2024	March 31, 2023
Within 1 year	4.70	4.00	2.40
Between 1 and 5 years	13.70	7.00	6.20
More than 5 years	19.90	8.70	6.50
Total expected payments	38.30	19.70	15.10

Expected contributions to the defined benefit plan asset (investment in insurance fund) for the next annual reporting period is Rs. 2.90 millions (March 31, 2024: Nil, March 31, 2023: Nil)

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary overtime. Thus, the Group is exposed to various risks in providing the above gratuity benefit, the most significant of which are as follows:

Interest Rate risk : The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Liquidity Risk : This is the risk that the Group is not able to meet the short term gratuity pay-outs. This may arise due to non availability of sufficient cash/cash equivalents to meet the liabilities.

Salary Escalation Risk : The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk : The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumption.

33 Fair values

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- The management assessed that the carrying values of cash and bank balances, trade receivables, trade payables, and other financial assets and liabilities approximate their fair values largely due to their short-term maturities.
- The management assessed that the carrying values of bank deposits, borrowings and other financial assets and liabilities approximate their fair values based on cash flow discounting using parameters such as interest rates, tenure of instrument, creditworthiness of the customer and the risk characteristics of the financed project, as applicable.
- Also refer note 5 for investments measured at fair value through profit or loss.

These financial assets and financial liabilities are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs as explained above. There have been no transfers between levels during the year.

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments:

Particulars	March 31, 2025		March 31, 2024		March 31, 2023

34 Capital management

The Group's objectives of capital management is to maximize the shareholder value. In order to maintain or adjust the capital structure, the Group may adjust the return to shareholders, issue/ buyback shares or sell assets to reduce debt. The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

The Group monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt as below.

- Equity represents total equity of the Group.
- Net Debt includes borrowings (non-current and current), trade payables, lease liabilities and other financial liabilities, less cash and cash equivalents and bank balances other than cash and cash equivalents.

Particulars	March 31, 2025	March 31, 2024	March 31, 2023
Borrowings	6,173.20	6,011.90	6,325.00
Trade payables	381.20	273.30	314.50

Equity (B)	1,023.30	790.10	478.00
Equity plus net debt (C = A + B)	8,992.70	8,387.40	7,832.40
Gearing ratio (D = A / C)	89%	91%	94%

In order to achieve the objective of maximizing shareholders value, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing borrowings that define capital structure requirements. Any significant breach in meeting the financial covenants would allow the bank to call borrowings. There have been no breaches in the financial covenants of above mentioned interest-bearing borrowings.

No changes were made in the objectives, policies or processes for managing capital during the current and previous years.

36 The Group has defined process to take daily back-up of books of account in electronic mode on servers physically located in India. However, the backup of the books of account and other books and papers maintained in electronic mode with respect to individual hotel units of the Holding Company has not been maintained on servers physically located in India on daily basis.

Further, the Group has used accounting software (SAP S/4 HANA by the Holding Company and Tally Prime by the Subsidiary Company) for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the accounting software, except that audit trail feature is not enabled for certain changes made, if any, using privileged/ administrative access rights to the application and the underlying database and in respect of individual hotel units of the Holding Company wherein its accounting software did not have the audit trail feature enabled throughout the year. Further no instance of audit trail feature being tampered with was noted in respect of the accounting software to the extent audit trail feature is enabled. Additionally, the audit trail in respect of the relevant prior year has not been preserved by the Holding Company as per the statutory requirements for record retention.

The management is taking steps to ensure that the books of account are maintained as required under the applicable statute.

39 First Time Adoption

For periods up to and including the year ended March 31, 2023, the Company did not prepare its consolidated financial statements since the Holding Company met the conditions prescribed in Rule 6 to the Companies (Accounts) Rules, 2014 (as amended) (the "Accounts Rules"). The statutory standalone financial statements of the Holding Company for the year ended March 31, 2023 were approved by the Board of Directors of the Holding Company on May 11, 2023 ("Previous GAAP").

The Holding Company's securities are in the process of listing on a stock exchange in India and consequently, pursuant to the Accounts Rules, the Holding Company adopted March 31, 2024 as reporting date for first time adoption of Indian Accounting Standard (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) (the "Ind-AS Rules") with April 01, 2022 as the transition date for the purpose of preparation of statutory consolidated financial statements as at and for the year ended March 31, 2024 in accordance with Ind-AS.

These consolidated financial statements, for the year ended March 31, 2024, are the first consolidated financial statements the Group has prepared in accordance with Ind AS. Accordingly, the Group has prepared the consolidated financial statements which comply with Ind AS applicable for year ending on March 31, 2024, together with the comparative period as at and for the year ended March 31, 2023, as described in the summary of material accounting policies. In preparing these consolidated financial statements, the Group's opening balance sheet was prepared as at April 1, 2022, the Group's date of transition to Ind AS.

In addition, the special purpose consolidated financial statements for year ending March 31, 2023 has been prepared as per e-mail dated May 20, 2024 received from the Book Running Lead Managers, which confirms that the Company should prepare the special purpose consolidated financial statements in accordance with principles of Indian Accounting Standards (Ind AS), read with additional clarifications enunciated in paragraph below, and that these financial statements are required for all the three years including stub period (if applicable), if any, based on email dated October 28, 2021 from the Securities and Exchange Board of India ("SEBI") to the Association of Investment Bankers of India ("SEBI Letter").

The special purpose consolidated financial statements as at and for the year ended March 31, 2023 has been prepared from the standalone financial statements of the Company and those of its subsidiary after making suitable consolidation adjustments. In addition, in preparing the special purpose consolidated financial statements, the Group has followed the same accounting policies, presentation and disclosures including Schedule III disclosures as those followed in preparation of consolidated financial statements as at and for the year ended March 31, 2024. In addition, to facilitate preparation of the special purpose consolidated financial statements, the management has used the accounting policy choices (i.e., both mandatory exceptions and optional exemptions availed as per Ind AS 101) as at April 01, 2021, which are consistent with those used at the date of transition to Ind AS (April 01, 2022) in the consolidated financial statements as at and for the year ended March 31, 2024.

I. Exemptions availed:

(a) Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the Group has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

(b) Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. The Group has elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Use of this exemption means that Business combinations occurring prior to the transition date have not been restated and the Previous GAAP carrying amounts of assets and liabilities, that are required to be recognised under Ind AS, is their deemed cost at the date of the acquisition. After the date of the acquisition, measurement is in accordance with respective Ind AS.

II. Exceptions availed:

(a) Ind AS 101 requires an entity's estimates in accordance with Ind ASs at the date of transition to Ind AS to be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

The Group's estimates as at April 01, 2022 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Group made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP

- > Investment earned at FVPL or FVOCI; and
- > Impairment of financial assets based on expected credit loss model.

(b) Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. The Group has applied the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

(c) Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. The Group has applied the requirement of classification and measurement of financial assets (investment in debt instruments) as above.

As explained above, there are no consolidated financial statements of the Holding Company for the previous year and the consolidated financial statements as at and for the year ended March 31, 2024 are the first consolidated financial statements prepared by the Holding Company in accordance with Ind-AS. The Holding Company's separate financial statements cannot be considered for the purpose of giving reconciliations in the consolidated financial statements. Since there is no relevant previous GAAP financial statements from which the Holding Company is transitioning, no reconciliation is required in these consolidated financial statements on first-time adoption of Ind AS by the Holding Company.

- 40** The Group has accumulated losses of Rs. 2,727.60 millions (March 31, 2024: Rs. 2,926.00 millions, March 31, 2023: Rs. 3,175.30 millions) and total equity of Rs. 1,023.30 millions (March 31, 2024: Rs. 790.10 millions, March 31, 2023: Rs. 478.00 millions). In addition, these Non-GAAP Measures are not standardized terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. OVERVIEW

For details regarding the overview of the Company, see "Our Business – Overview" on page 187.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Our results of operations and financial condition are affected by a number of important factors including:

Development of Hotel Properties

We have a portfolio of nine operating hotels across Bengaluru (Karnataka), Chennai (Tamil Nadu), Kochi (Kerala), Mysuru (Karnataka) and the GIFT City (Gujarat). We intend to develop five additional hotels. In particular, we plan to develop a luxury beach resort in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka). With respect to the luxury beach resort, we have entered into a definitive agreement with Hyatt to develop the resort under the 'Grand Hyatt' brand. Similarly, with respect to the two upper midscale hotels in Bengaluru (Karnataka), we have entered into definitive agreements with Marriott to develop these hotels under the 'Fairfield by Marriott' brand. We also intend to develop a luxury hotel under the *InterContinental* brand in Hyderabad (Telangana), for which our Promoter, BEL, has entered into a definitive agreement with InterContinental Hotels Group. In addition, we plan to develop a wellness resort on 14.70 acres in Vaikom, Kerala of which we own 7.08 acres and have entered into a memorandum of agreement dated October 21, 2024 with Brigade Hospitality Services Limited to purchase the balance 7.62 acres. We have also entered into a definitive agreement with Marriott to develop this resort under 'The Ritz-Carlton' brand. We intend to complete the construction of the luxury beach resort in Chennai (Tamil Nadu) and two upper midscale hotels in Bengaluru (Karnataka) by Fiscal 2028 and the remaining two hotels (including the

wellness resort) by Fiscal 2029.

From time to time, we may enter into definitive or non-binding memoranda of understanding (“**MoUs**”) for development of hotels in future. For example, we have entered into (i) a definitive agreement with Marriott for a hotel to be situated at OMR in Chennai (Tamil Nadu) under the “JW Marriott” brand; (ii) a non-binding MoU with Marriott for a hotel to be situated at World Trade Center in Chennai (Tamil Nadu) under the “Courtyard by Marriott” brand; and (iii) a non-binding MoU with Marriott for a hotel to be situated in World Trade Center in Thiruvananthapuram (Kerala) under the “Marriott” brand. As of the date of this Prospectus, we do not have any land or building arrangements where the aforementioned hotels may be situated.

Our cost of development is affected by price fluctuations in raw materials, in particular, cement, steel, bricks, glass, electrical accessories, plumbing materials, tiles and paints, lifts and escalators. We oversee the progress and quality of construction to ensure that the costs are under budgetary control. However, any unreasonable cost escalation due to shortage, supply limitations or circumstances beyond our control, could adversely impact the cost and time taken for development and resultantly our return on investment. Further, for development of hotels in new geographies, we may or may not be able to respond to customer requirements as compared to our competitors. The development and construction of real estate projects are subject to inherent development risks. See, “*Risk Factors – 3. We intend to develop five additional hotels and if we are unable to develop these hotels in a timely manner, our business, results of operations, financial condition and cash flows will be adversely affected.*” on page 33.

Our Relationships with Hotel Operators

As on the date of this Prospectus, we had a portfolio of nine operating hotels. Of these, four hotels are operated by Accor, three hotels are operated by InterContinental Hotels Group, two hotels are operated by Marriott. The following table sets forth details of our relationship with each of our hotel operators, along with revenue attributable to our hotels operated by each of them for the years indicated:

Revenue from hotels operated by	Average period of relationship/tenure (in years)	Fiscal 2025		Fiscal 2024		Fiscal 2023	
		Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations
Marriott	19	2,051.61	43.81%	1,708.15	42.52%	1,438.53	41.08%
Accor	17	1,115.05	23.81%	956.59	23.81%	893.98	25.53%
InterContinental Hotels Group	13	1,485.52	31.72%	1,325.53	33.00%	1,143.22	32.64%

The hotel operation agreements provide the hotel operator with day-to-day operational discretion, including personnel management, setting price and rate schedules, managing food and beverage service, procurement of inventories, supplies and services, negotiating and executing agreements with third parties such as vendors, licensees and concessionaires and carrying out marketing, sales, reservations and advertising operations for the hotel, among others. Pursuant to the hotel operations agreements entered into with our hotel operators, we are obliged to pay fees linked to our revenue and profitability for services and know-how rendered by these hotel operators. In addition, we are also required to pay certain fees which are linked to our revenue for the trademark licence granted by these hotel operators under the relevant trademark license agreements. The following table sets forth details of the operator management fees and other fees and charges paid by us to the hotel operators for our hotels for the years indicated:

Particular	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations	Amount (₹ million)	Percentage of revenue from operations
Operator management fees and other fees & charges	205.25	4.38%	173.49	4.32%	150.93	4.31%

In the event our relationships with the hotel operators deteriorate and our agreements with them are terminated, or if we are unable to enter into hotel operator services agreements for our new hotels, our results of operations may be adversely affected. See also “*Risk Factors – 1. We have entered into hotel operator services agreements and other related agreements with Marriott, Accor and InterContinental Hotels Group to receive operating and marketing services for our hotels. In Fiscal 2025, two of our hotels which are operated by Marriott contributed 43.81% of our revenue from operations. If these agreements are terminated or not renewed, our business, results of operations, financial condition and cash flows may be adversely affected.*”

Changes in Consumer Demand due to Seasonality and Macroeconomic Conditions

Consumer demand for our hotels can subject our revenues to significant volatility, and are largely affected by seasonal variations across the hospitality industry as well as general macroeconomic conditions in India and globally. The periods during which our hotels experience higher revenues vary from property to property, depending principally upon location and the guests served. Our revenues are generally higher during the second half of each Fiscal as compared to first half of the Fiscal. Seasonality affects leisure travel and the meetings, incentives, conferences and exhibitions (“MICE”) bookings, including weddings. According to the Horwath HTL Report, the winter months are preferred for travel into India for leisure, MICE events, leadership level business travel and high-end destination weddings. Further, the months from October through March of any Fiscal are materially busier than the summer and monsoon seasons, as per the Horwath HTL Report. This seasonality can be expected to cause quarterly fluctuations in our revenue, profit margins and net earnings. The table below sets forth details of average occupancy in the periods indicated:

Particulars	From October 1, 2024 till March 31, 2025	From April 1, 2024 till September 30, 2024	From April 1, 2023 till September 30, 2023	From October 1, 2023 till March 31, 2024	From April 1, 2022 till September 30, 2022	From October 1, 2022 till March 31, 2023
Average occupancy*	79.78%	77.42%	70.01%	74.38%	64.55%	65.30%
Revenue per available room (“RevPAR”)(₹)**	5,703.74	4,777.38	4,261.29	4,962.23	3,494.99	4,236.37

*Average Occupancy represents the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels.

**RevPAR is calculated by multiplying average daily rate and average occupancy.

The combination of changes in economic conditions and in the supply of hotel rooms can result in significant volatility in results of hotel properties. The costs of running a hotel, such as for power, fuel and water, employees and rental, tend to be more fixed than variable. When demand for our hotels decreases, due to high operating leverage the resulting decline in our revenues can have an adverse effect on our net cash flow, margins and profits. This effect can be especially pronounced during periods of economic contraction or slow economic growth. Similarly, in conditions of economic upturns, when the demand for hotel rooms increases, due to high operating leverage, our net cash flow, margins and profits may increase disproportionately to the increase in revenues. In addition, the hospitality industry and the demand for rooms is also affected by travel advisories, worldwide health concerns, geo-political developments, natural disasters in the region and inflation. Declines in consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence and adverse political conditions can lower the revenues and profitability of our hotels.

Competition

The hotel industry in India is intensely competitive and we compete with large multinational and Indian companies, in each of the regions that we operate. Our nine operating hotels are located in competitive regions, including locations such as Bengaluru (Karnataka), Chennai (Tamil Nadu), Mysore (Karnataka), Kochi (Kerala) and GIFT City, Ahmedabad (Gujarat). Further, demographic, political, geographic, geological or other changes in one or more of our markets could impact the convenience or desirability of the sites where our operating hotels are located at, which could adversely affect their operations. Our success is dependent on our ability to compete on various factors such as room rates, quality of accommodation, location of our hotels, service levels, scope of other amenities, including food and beverage facilities and brand recognition, among others. We may also have to compete with new hotel properties that commence operations in the areas in which we operate. The new supply of hotel rooms in a particular location significantly affects our ability to increase rates charged to customers at our hotels. Our ability to capture the expected growth in tourism and the hospitality industry, and respond to the consequent competition in the hospitality industry, will be critical to our results of operations in future.

See also “Risk Factors – 13. The hotel industry is intensely competitive and our inability to compete effectively may adversely affect our business, results of operations, financial condition and cash flows.” on page 39.

Government Regulations and Policies

Our business is subject to significant governmental regulation, particularly in relation to safety, health, environment, real estate, excise and labour laws. In connection with our ownership of hotels and development of properties, we are also subject to a variety of national, state and local laws and regulations relating to environmental laws. Under some of these laws, a current or former owner or operator of real estate property may be held liable for the costs of investigating or remediating hazardous or toxic substances or wastes on, under or in such real property, as well as third-party sites where the owner or operator sent wastes for disposal. The costs of investigating or remediating contamination, at our properties or at properties where we sent substances

or wastes for disposal, may be substantial. We are also subject to laws and regulations governing relationships with employees in such areas as minimum wages and maximum working hours, overtime, working conditions, hiring and termination of employees, contract labour and work permits and maintenance of regulatory/ statutory records. For instance, the Government of India has introduced (i) the Code on Wages, 2019, (ii) the Code on Social Security, 2020, (iii) the Occupational Safety, Health and Working Conditions Code, 2020, and (iv) Industrial Relations Code, 2020 (collectively, the “Codes”). The aim of the Codes is to consolidate, subsume and replace various existing central labour legislation. We are also subject to regulations relating to the sale and service of food, alcoholic and non-alcoholic beverages and hosting of events and weddings at our hotel properties. These regulations and policies can be extensive and amended periodically. Further, we are required to comply with certain reporting requirements under the provisions of the Foreigner’s Act, 1946 (read with the applicable rules and regulations) with respect to the arrival of foreign guests at our hotels. Any delay in complying with such reporting requirements within the prescribed timelines could expose us to potential litigation and penal action. The extensive regulatory structure within which we operate may constrain our flexibility to respond to market conditions, competition or changes in our cost structure, which could have an adverse effect on our business and prospects.

See also “Risk Factors – 52. We are subject to extensive government regulation with respect to safety, health, environmental, real estate, excise and labour laws. Any non-compliance with, or changes in, regulations applicable to us may adversely affect our business, results of operations, financial condition and cash flows.” on page 67.

PRESENTATION OF FINANCIAL INFORMATION

The Restated Consolidated Summary Statements of our Company and our Subsidiary comprises the restated consolidated statement of assets and liabilities as of March 31, 2025, March 31, 2024 and March 31, 2023, the restated consolidated statement of profit and loss (including other comprehensive income), the restated consolidated statement of changes in equity, the restated consolidated statement of cash flow, each for the years ended March 31, 2025, March 31, 2024 and March 31, 2023, the summary statement of significant accounting policies and other explanatory information, prepared as per the requirement of Section 26 of Part I of Chapter III of the Companies Act, 2013, SEBI ICDR Regulations, and the Guidance Note on ‘Reports in Company Prospectuses (Revised 2019)’ issued by the Institute of Chartered Accountants of India, as amended from time to time.

MATERIAL ACCOUNTING POLICIES

The material accounting policies forming basis of the preparation of our Restated Consolidated Summary Statements is set forth below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Current versus non-current classification

We present assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purposes of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purposes of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. We have evaluated and considered our operating cycle as one year and accordingly has reclassified our assets and liabilities into current and non-current.

Assets and liabilities, other than those discussed above, are classified as current to the extent they are expected to be realized/ are contractually repayable within one year from the Balance sheet date and as non-current, in other cases.

Deferred tax assets/ liabilities are classified as non-current assets/ liabilities.

Property, plant and equipment

Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to our working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, we depreciate them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other noncurrent assets.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work-in-progress.

Depreciation on property, plant and equipment

Depreciation is calculated on written down value basis using the following useful lives estimated by the management, which are equal to those prescribed under Schedule II to the Companies Act, 2013:

Category of Asset	Useful lives (in years)
Buildings	60
Plant and machinery	15
Electrical installation and equipment	10
Furniture and fixtures	8
• Used in hotels, restaurants, etc.	10
• Others	
Computer hardware	
• End user devices	3
• Server and network equipment	6
Office equipment	5
Motor vehicles	8

For certain hotel-specific assets, depreciation is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management based on technical assessment as below:

Category of Asset	Useful lives (in years)	Schedule II lives (in years)
Buildings	25-30	60
Plant and machinery	15	15
Electrical installation and equipment	10	10
Furniture and fixtures		
• Used in hotels, restaurants, etc.	8	8
• Others	10	10

Category of Asset	Useful lives (in years)	Schedule II lives (in years)
Computer hardware • End user devices • Server and network equipment	3 6	3 6
Office equipment	5	5
Motor vehicles	8	8

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows: Leasehold land – 25 to 35 years

The management considers residual value at 5% as prescribed under Schedule II of Companies Act, 2013.

The management believes that the above estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets comprising of computer software are amortized on a written down value basis over a period of six years, which is estimated by the management to be the useful life of the asset. In case of certain hotels, the intangible assets comprising of computer software are amortized on a straight-line basis over a period of six years as estimated by the management.

The residual values, useful lives and methods of amortization of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when asset is derecognized.

Impairment

Financial assets

We assess at each date of balance sheet whether a financial asset or a group of financial assets is impaired and measures the required expected credit losses through a loss allowance. We apply the expected credit loss (“ECL”) model for measurement and recognition of impairment losses on trade receivables. We follow the simplified approach for recognition of impairment allowance on trade receivables wherein, it recognises impairment allowance based on lifetime ECLs at each reporting date. We recognize lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Non-financial assets

We assess at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, we estimate the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s (“CGU”) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, we estimate the asset’s or CGU’s recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset’s recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount

of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Leases

We assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where our Company is lessee

We apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. We recognize lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Our Company at the inception of the lease contract recognizes a Right-of-Use (“**RoU**”) asset at cost (included in Property, Plant and Equipment) and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets. The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right-of-use assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

For lease liabilities at inception, we measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by our Company and payments of penalties for terminating the lease, if the lease term reflects our Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

We recognize the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, we recognize any remaining amount of the re-measurement in the statement of profit and loss.

We apply the short-term lease recognition exemption to our short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Where our Company is lessor

Leases in which we do not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized/inventorised as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss.

Inventories

Inventories comprising of food, beverages and other items are valued at lower of cost and net realizable value. Cost of inventories is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with the customer. We present revenue from contracts with customers net of indirect taxes in our statement of profit and loss.

We consider whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, we consider the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer, if any.

The following specific recognition criteria must also be met before revenue is recognized:

Revenue from hospitality services

Revenue from hospitality operations comprise revenue from room charges, food & beverage sales, facility usage charges and allied services, including telecommunication, laundry, etc. Revenue is recognized as and when the services are rendered and is disclosed net of allowances.

Contract balances

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. If we perform by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivable represents our right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liability is the obligation to transfer goods or services to a customer for which we have received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before we transfer goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when we perform under the contract.

Income from lease rentals

Refer accounting policy under “Leases” above.

Interest income

Interest income, including income arising from other financial instruments measured at amortized cost, is recognized using the effective interest rate (“**EIR**”) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, we estimate the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend income

Dividend income is recognized when our right to receive dividend is established, which is generally when shareholders approve the dividend.

Foreign currency translation

Functional and presentation currency

Items included in the restated consolidated summary statements of our Company are measured using the currency of the primary economic environment in which the Company operates (the “**functional currency**”). The restated consolidated summary statements are presented in Indian rupee (INR), which is our Company’s functional and presentation currency.

Foreign currency transactions and balances

- *Initial recognition* - Foreign currency transactions are initially recorded at the functional currency spot rate at the date the transaction first qualifies for recognition.
- *Conversion* - Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of initial transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

- *Exchange differences* – We account for exchange differences arising on translation/ settlement of foreign currency monetary items as income or as expense in the period in which they arise. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

Retirement and other employee benefits

Retirement benefits in the form of state governed Employee Provident Fund, Employee State Insurance and Employee Pension Fund Schemes are defined contribution schemes (collectively the ‘Schemes’). We have no obligation, other than the contribution payable to the Schemes. We recognize contribution payable to the Schemes as expenditure, when an employee renders the related service. The contribution paid in excess of amount due is recognized as an asset and the contribution due in excess of amount paid is recognized as a liability.

Gratuity, which is a defined benefit plan, is accrued based on an independent actuarial valuation, which is done based on project unit credit method as at the balance sheet date. We recognize the net obligation of a defined benefit plan in our balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. Remeasurements, comprising of actuarial gains and losses, excluding amounts included in net interest on the net defined benefit liability, are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

We recognize the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Interest expense

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. We measure the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

We treat accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method, made at the end of each financial year. Actuarial gains/losses are immediately taken to the statement of profit and loss. We present the accumulated leave liability as a current liability in the balance sheet, to the extent we do not have an unconditional right to defer our settlement for twelve months after the reporting date.

Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Deferred income tax

Deferred income tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

We offset deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Provisions and contingent liabilities

A provision is recognized when we have a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of our Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. We do not recognize a contingent liability but discloses it in the restated consolidated summary statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

Financial Instruments

Financial assets

Initial recognition and measurement

Financial assets are recognized when our Company become a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)

Financial assets at fair value through profit or loss

Financial assets at fair value through other comprehensive income (“FVTOCI”) (debt instruments)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. For debt instruments, at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the profit or loss and computed in the same manner as for financial assets measured at amortised

cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes derivative instruments and listed equity investments which we had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, we can elect to classify irrevocably our equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when we benefit from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Financial assets at amortised cost (debt instruments)

A ‘financial asset’ is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (“**SPPI**”) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (“**EIR**”) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Investment in subsidiary

Investment in subsidiary is carried at cost. Impairment recognized, if any, is reduced from the carrying value.

De-recognition of financial asset

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from our consolidated balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- We have transferred our rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either (a) we have transferred substantially all the risks and rewards of the asset, or (b) we have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as payables, as appropriate. Our financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities

designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities at amortized cost

Financial liabilities are subsequently carried at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Interest-bearing loans and borrowings are subsequently measured at amortized cost using EIR method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets and liabilities

We determine classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Fair value of financial instruments

We measure our financial instruments such as derivative instruments, etc at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the restated consolidated summary statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the restated consolidated summary statements on a recurring basis, we determine whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, we have determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Cash and cash equivalents

We consider all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of our cash management.

Cash dividend to equity holders of the Holding Company

The Holding Company recognizes a liability to make cash distributions to equity holders of the Holding Company when the distribution is authorized and the distribution is no longer at the discretion of the Holding Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Holding Company's Board of Directors.

Significant accounting judgments, estimates and assumptions

The preparation of our restated consolidated summary statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the Grouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying our accounting policies, management makes judgment, estimates and assumptions which have the most significant effect on the amounts recognized in the restated consolidated summary statements. The key judgment, estimates and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. We based our judgments and assumptions and estimates on parameters available when the restated consolidated summary statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of our Company. Such changes are reflected in the assumptions when they occur.

Significant accounting judgements, estimates and assumptions used by management are as below:

Defined benefit plans – Gratuity

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates and expected salary increase thereon.

Useful life and residual value of property, plant and equipment and intangible assets

The useful life and residual value of property, plant and equipment and intangible assets are determined based on evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the judgments involved in such estimates the useful life and residual value are sensitive to the actual usage in future period.

Evaluation of control, joint control or significant influence by us over our investee entity for disclosure

Judgment is involved in determining whether we have control over an investee entity by assessing our exposure/rights to variable returns from our involvement with the investee and our ability to affect those returns through our power over the investee entity.

We consider all facts and circumstances when assessing whether it controls an investee entity and reassess whether it controls an investee entity if facts and circumstances indicate that there are changes to one or more elements of control. In assessing whether we have joint control over an investee we assess whether decisions about the relevant activities require the unanimous consent of the parties sharing control. Further, in assessing whether Group has significant influence over an investee, we assess whether it has the power to participate in the financial and operating policy decisions of the investee, but is not in control or joint control of those policies.

Measurement of financial instruments at amortized cost

Financial instrument are subsequently measured at amortized cost using the EIR method. The computation of amortized cost is sensitive to the inputs to EIR including effective rate of interest, contractual cash flows and the expected life of the financial instrument. Changes in assumptions about these inputs could affect the reported value of financial instruments.

CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

Except as disclosed below, there have been no changes in our accounting policies and disclosures during the last three Fiscals:

The Ministry of Corporate Affairs has notified the following amendments to Ind AS which have been applied by us for the first-time.

Ind AS 117 Insurance Contracts

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated August 12, 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after April 01, 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Group's restated consolidated summary statements.

Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after April 01, 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The amendment does not have a material impact on our restated consolidated summary statements.

Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors, which is effective from annual reporting periods beginning on or after April 01, 2023. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendment does not have a material impact on our restated consolidated summary statements.

Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures, which is effective from annual reporting periods beginning on or after April 01, 2023.

The amendments had an impact on our disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in our restated consolidated summary statements.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases, which is effective from annual reporting periods beginning on or after April 01, 2023.

We previously recognised for deferred tax on leases on a net basis. As a result of these amendments, we have recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings.

Apart from these, consequential amendments and editorials have been made to other Ind AS to the extent possible like Ind AS 101, Ind AS 102, Ind AS 103, Ind AS 107, Ind AS 109, Ind AS 115 and Ind AS 34.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance our operations. Our principal financial assets include loans, trade, other receivables and cash and cash equivalents that derive directly from its operations. We are exposed to market risk, credit risk and liquidity risk. Our senior management oversees the management of these risks and ensures that our financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with our policies and risk objectives.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of risk: interest rate risk, currency risk and price risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of our financial instruments will fluctuate because of changes in market interest rates. Our exposure to the risk of changes in market interest rates relates primarily to our long-term debt obligations with floating interest rates. We manage our interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Our exposure to the risk of changes in foreign exchange rates arises on account of purchases from foreign countries. We have not taken any derivative instrument during the year and there is no derivative instrument outstanding as at the year end.

Price risk

We are affected by the price volatility of certain commodities. Our management has developed and enacted a risk management strategy regarding commodity price risk and its mitigation. We are subject to the price risk variables, which are expected to vary in line with the prevailing market conditions.

Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty default on its obligations. Our exposure to credit risk arises majorly from trade receivables/ unbilled revenue and other financial assets. Other financial assets are bank deposits with banks and hence, we do not expect any credit risk with respect to these financial assets. With respect to other financial assets, we have constituted teams to review the receivables on periodic basis and to take necessary mitigations, wherever required. We apply the expected credit loss (“ECL”) model for measurement and recognition of impairment losses on trade receivables and unbilled revenue. We follow the simplified approach for recognition of impairment allowance on trade receivables wherein, it recognises impairment allowance based on lifetime ECLs at each reporting date. At the balance sheet date, there was no significant concentration of credit risk and exposure thereon.

Liquidity risk

Our objective is to maintain a balance between continuity of funding and flexibility through the use of borrowings and lease contracts. We have assessed the concentration of risk with respect to refinancing its debt and concluded it to be low.

Description of tax matters exceeding the Materiality Threshold

Material tax litigation involving our Company

1. Bruhat Bengaluru Mahanagara Palike (“**BBMP**”) issued a demand notice dated August 10, 2021 (“**Notice I**”) to our Promoter seeking *inter alia* payment of property tax amounting to ₹ 922.16 million, along with interest at the rate of 2.00% per annum and a penalty amounting to ₹ 636.78 million, in respect of Sheraton Grand hotel at Brigade Gateway, Bengaluru, Karnataka, for the period from Fiscal 2012 to Fiscal 2022. Notice I was challenged by filing a writ petition against BBMP before the High Court of Karnataka, submitting *inter alia* that the alleged tax payable under the Notice I was based on an incorrect and erroneous measurement of the property which does not align with the occupancy certificate dated February 9, 2011. As on date, our Company has paid approximately ₹ 409.27 million to the BBMP under protest during the pendency of the writ petition. While the demand notice and subsequent writ petitions include our Promoter as the party, the liabilities arising out of demand notices and petitions are fulfilled by our Company pursuant to a Scheme of Arrangement entered into by our Company, our Promoter and our Group Company Brigade Hospitality Services Limited, among others. For more details, please refer to “History and Certain Corporation Matters – Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamations, etc. since the date of our incorporation – Scheme of Arrangement” on page 224.

BBMP subsequently issued a revised demand notice dated December 21, 2023 (“**Notice II**”) to our Promoter seeking *inter alia* payment of property tax amounting to ₹ 501.04 million including an interest rate of 2% per month in respect of our Brigade Gateway property at Bengaluru, Karnataka, for the period from Assessment Year 2011-12 to Assessment Year 2020-21. Our Promoter challenged the Notice II through a writ petition against the State of Karnataka, BBMP, the Joint Commissioner and the Assistant Revenue Officer (“**Respondents**”) on the grounds of incorrect calculation of the property tax which does not accurately measure the property or consider the order of the Hon’ble Karnataka High Court dated October 17, 2012, requiring payment of only 50% of the property tax for the impugned property.

Further, BBMP instituted a one-time settlement (“**OTS**”) scheme for property tax payment vide Gazette Notification dated

February 28, 2024, accommodating levy of penalty one time as against double penalty as provided in the BBMP Act, 2020. BBMP issued a demand notice dated July 6, 2024 for an amount of ₹ 124.05 million under the OTS scheme without a year-wise breakdown of the aggregate demand amount. The scheme was thereby availed by our Company vide cheque dated July 24, 2024, for an amount of ₹ 8.28 million under protest and without prejudice to the right to dispute the demand notices. Our Company further made a payment of ₹ 41.51 million through the OTS scheme through demand draft dated July 30, 2024, under protest and without prejudice to the right to dispute these demand notices, aggregating OTS payment of ₹ 49.79 million made by our Company. The matter is currently pending.

2. Our Company (“**Appellants**”) filed a Memorandum of Appeal before the Commissioner of Central Tax (Appeals) (“**CIT(A)**”) against the Assistant Commissioner of Central Tax (“**Respondent**”) for disparity in Input Tax Credits availed. The Respondent issued a show cause notice dated March 18, 2022 to pay ineligible Input Tax Credits amounting to ₹ 18.69 million availed on Goods and Services Tax (“**GST**”) alongside penalty of 10% in keeping with Section 50(3) of the Central Goods and Services Tax Act of 2017. The Appellant filed a response in contestation dated June 9, 2022 and was heard by the Respondent on October 27, 2023, leading to an order confirming the ITC demand as well as interest of 10% aggregating ₹ 20.56 million, giving rise to this appeal. The Appellants thereby filed an appeal before the CIT(A) at Bengaluru, Karnataka, for setting aside of the order. The matter is currently pending.
3. Our Company (“**Appellant**”) filed an appeal before the Commissioner of Income Tax (Appeals) (“**CIT(A)**”) against the Assistant Commissioner of Income Tax (“**Respondent**”) for variation in increase in profit or decrease in loss as per Income Computation Disclosure Standards under Section 145(2) of the Income Tax Act. The Appellant filed a response to the show cause notice dated December 16, 2022, detailing no deviation or inconsistency and subsequently filing an intimation notice under Section 143(1) dated March 2, 2023 for adjustments. The Respondent thereby asserted a net effect of ₹ 80.35 million was in deviance and thereby taxable to ₹ 23.40 million, giving rise to this appeal. Our Company has submitted a reply dated October 7, 2024 before the CIT(A). The matter is currently pending.

Phased implementation of UPI Mechanism

SEBI issued the UPI Circulars in relation to streamlining the process of public issue of, *inter alia*, equity shares. Pursuant to the SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 ("**Previous UPI Circulars**") and the UPI Circulars, the UPI Mechanism was introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars and the Previous UPI Circulars introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular bearing number

SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form along with details of the bank account by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and has become applicable on a mandatory basis for all issues opening on or after December 1, 2023 vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (“**T+3 Notification**”). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI. Accordingly, the Issue was undertaken pursuant to the processes and procedures under UPI Phase III on mandatory T+3 listing basis, subject to any circulars, clarification or notification issued by the SEBI pursuant to the T+3 Notification.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company was required to appoint one of the SCSBs as the Sponsor Bank(s) to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders.

Pursuant to circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022 issued by SEBI, the bidding amount for individual investors bidding under the Non-Institutional Portion was enhanced from ₹200,000 to ₹500,000. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹200,000 and up to ₹500,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs. Individual investors bidding up to ₹200,000 shall also have the option of submitting Bid-cum-Application Form online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLMs. Additionally, if there is any delay in the redressal of investors’ complaints, the post – Issue BRLM will be required to compensate the concerned investor.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations was required to be attached to the Bid cum Application Form, failing which our Company reserved the right to reject any Bid without assigning any reason. FPIs who wished to participate in the Issue were advised to use the Bid cum Application Form for Non-Residents (blue in colour).

As specified in the General Information Document, it was clarified that Bids received from FPIs bearing the same PAN was treated as multiple Bids and were liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations (“**MIM Structure**”), provided such Bids were not made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, multiple Bids received from FPIs, who did not utilize the MIM Structure, and bear the same PAN, were liable to be rejected. In order to ensure valid Bids, FPIs that made multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids were liable to be rejected. Further, in the following cases, the bids by FPIs were not considered as multiple Bids: involving (i) the MIM Structure and indicating the name of their respective investment managers in such confirmation; (ii) ODI which had obtained separate FPI registration for ODI and proprietary derivative investments; (iii) sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration; (iv) FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund had multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager; (v) multiple branches in different jurisdictions of foreign bank registered as FPIs; (vi) Government and Government related investors registered as Category 1 FPIs; and (vii) Entities registered as Collective Investment Scheme having multiple share classes.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for Issue procedure, as prescribed by SEBI from time to time.=

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with ‘know your client’ norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing ODI is also required to ensure that any transfer of ODIs by or on its behalf, is carried out subject to *inter alia* the following conditions:

- (a) such offshore derivative instruments are transferred only to persons in accordance with Regulation 21(1) of the SEBI FPI Regulations; and
- (b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the ODIs are to be transferred to are pre-approved by the FPI.

Participation of FPIs in the Issue shall be subject to the FEMA NDI Rules.

Please note that in terms of the General Information Document, the maximum Bid by any Bidder including QIB Bidder could not exceed the investment limits prescribed for them under applicable laws. Further, multiple Bids by an FPI Bidder utilising the MIM Structure were aggregated for determining the permissible maximum Bid. Further, please note that as disclosed in the Red Herring Prospectus read with the General Information Document, Bid Cum Application Forms were liable to be rejected in the event that the Bid in the Bid cum Application Form “*exceeds the Issue size and/or investment limit or maximum number of the Equity Shares that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of the Red Herring Prospectus.*”

For example, an FPI was required to ensure that any Bid by a single FPI and/ or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the “**FPI Group**”) was required to be below 10% of the total paid-up Equity Share capital of our Company. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs Bidding through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post-Issue Equity Share capital was liable to be rejected. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The Government of India makes policy announcements on FDI through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DPIIT (formerly Department of Industrial Policy & Promotion) issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (the “**FDI Policy**”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. The Consolidated FDI Policy will be valid until the DPIIT issues an updated circular.

On October 17, 2019, the Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Issue shall be on the basis of the FEMA Rules. In terms of Press Note 3 of 2020, dated April 17, 2020 (“**Press Note**”), issued by the DPIIT, the FDI Policy and the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 has been amended to state that all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Bid/Issue Period.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and such transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the FDI Policy, foreign direct investment in companies engaged in hotels/hospitality sector as well as those engaged in the construction development of hotel projects, is permitted up to 100% of the paid-up Equity Share capital of our Company under the automatic route, subject to compliance with certain prescribed conditions.

For details of the aggregate limit for investments by NRIs and FPIs in our Company, see “*Issue Procedure – Bids by Eligible NRIs*” and “*Issue Procedure – Bids by FPIs*” on pages 391 and 392, respectively.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

Accordingly, such Equity Shares are being offered and sold outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction except in compliance with the applicable laws of such jurisdiction.
